Postgraduate Course Guide
For International Students
2015
The Monash Wind Tunnel is the largest wind tunnel in the southern hemisphere and is open to industry partners, academics and students.
Why choose Monash

By choosing Monash University you are choosing to study alongside the brightest minds under the guidance of some of the world’s finest educators. And with more than 290,000 alumni around the world, you become part of a community that will support you throughout your career.

Global recognition
As published in The New York Times, more than 4500 leaders from the world’s most successful companies are more likely to hire a Monash graduate. (Global Employability University Ranking 2011 – 2013).

Expertise
Study under the leadership and supervision of world-class scholars.

Professional recognition
Monash degrees satisfy the educational requirements of professional registration or membership for entry into regulated professions.¹

Prestige
You will be awarded a qualification from a university ranked in the world’s top 100 (Times Higher Education World University Rankings 2013 – 2014).

Choice
Monash offers one of Australia’s most comprehensive ranges of courses and is known for its wide selection of double degrees, including double master’s. A double degree course can be completed in less time than if you studied both courses concurrently as electives from one degree count towards the other.

Connections
Monash is connected through partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa. We also have a global network of campuses and centres offering international exchange opportunities.

Relevance
As a research-intensive university, our courses are designed using the latest research and industry developments.

Location
Monash is based in Melbourne, Australia – consistently rated the world’s most liveable city (Economist Intelligence Unit, 2011 – 2013).

Scale
With campuses across four continents and more than 60,000 students, Monash is Australia’s largest university.

¹. All students should ensure that the units they take are those required for the profession of their choice. Advice on unit selection is available from course advisers.
Monash University is a member of Australia’s Group of Eight universities. The group’s members produce more than 70 per cent of all basic research conducted at all of Australia’s public universities.

Monash University is the only Australian member of the prestigious M8 Alliance of Academic Health Centres and Medical Universities. This global grouping includes Johns Hopkins University, the Sorbonne in Paris, Imperial College London and the Charité in Berlin.

Monash is a five-star plus institution. Receiving five-star ratings in a range of qualities from employability to sport facilities and community engagement. This means we are not just world-class but an elite destination to which the very best students and faculty worldwide aspire.

Global recognition

Monash is regarded as a premier university on a number of scales.

Influential alliances

Monash is ranked #69 in the 2013 QS World University Rankings.

Watch our rankings videos and find out more at mona.sh/vuLWt

RANKED IN THE TOP 100 OF WORLD UNIVERSITIES

QS World University Rankings by Subject, 2014

#69 IN THE 2013 QS WORLD UNIVERSITY RANKINGS.

IN THE TOP 50 UNIVERSITIES WORLDWIDE IN 18 SUBJECTS

QS World University Rankings by Subject, 2014
Monash University is the first Group of Eight university to have achieved the esteemed ‘triple crown’ business school accreditations by AACSB, EQUIS and AMBA. These globally-recognised accreditations place the university in the elite ranks of the one per cent of business schools worldwide with ‘triple crown’ accreditation.

As published in The New York Times, leaders from the world’s most successful companies consistently rate Monash as a preferred university from which to hire graduates.*

*Based on Global Employability University Rankings, 2011 – 2013
Who was Sir John Monash?

Sir John Monash was an Australian leader, statesman and nation-builder who contributed to almost every level of Australian life.

As well as having a long and distinguished military career, Sir John was a renowned engineer and public administrator. He also features on the Australian $100 note.

He was a man who used education to turn his natural talent into ability, allowing him to realise his daring ambitions. Not only do we carry Sir John’s name, we also take inspiration from his philosophy of life.

Although Monash University is named after an individual, the University is a public government-funded and accredited institution.

Our motto, Ancora Imparo (“I am still learning”), captures the essence of his approach to life.

*Adopt as your fundamental creed that you will equip yourself for life, not solely for your own benefit but for the benefit of the whole community.* – Sir John Monash

Melbourne – the world’s most liveable city.

In a ranking of cities all around the world, Melbourne is consistently ranked number one as the world’s most liveable city (Economist Intelligence Unit 2011 – 2013). This ranking is based on standards of education, infrastructure, culture and environment, healthcare and stability.
Melbourne has an excellent reputation for welcoming international students and providing them with memorable study experiences.

It offers a high standard of living and first-class education, healthcare, public transport, employment rates, safety and security. The city is a rich, multicultural landscape of ideas, skills and personalities. The people are cosmopolitan, fun-loving and friendly. Melbourne hosts a diverse economy known for its strengths in:

- finance
- information communications technology
- biotechnology
- research
- manufacturing
- automotive
- aviation/aerospace and
- creative industries.

With a population of 4 million, there are many opportunities for casual work while studying, adding to your experience. Melbourne has something for everyone, from calm parks and gardens to the edgy arts and music scene. Melbourne is also Australia’s restaurant capital, with more than 3000 restaurants offering cuisines from around the world. Melbourne is home to many international sporting events and festivals and hosts a range of cultural festivals.

For more information go to visitmelbourne.com
Our campuses

Monash University has five Australian campuses, as well as campuses in Malaysia and South Africa, a Joint Graduate School in China, a learning centre in Prato, Italy, and a research centre in Mumbai, India.

We also have a network of university partners across the globe, including the University of Warwick in the United Kingdom.

Transport to Monash

Monash shuttle bus
During the academic year, a free Monash shuttle bus service runs in both directions between:
- Clayton and Berwick
- Clayton and Caulfield
- Clayton and Peninsula
- Frankston Station and Peninsula.

monash.edu/people/transport-parking/inter-campus-shuttle-bus

After-hours buses
Clayton and Caulfield buses run to designated stops on Monday to Friday evenings from 5.30pm until late. This is a free service for current Monash students.

www.fsd.monash.edu.au/security/your-campus

Public bus
All Australian campuses are accessible by public transport. Public transport timetables and maps can be found at ptv.vic.gov.au

Car
Parking is available at or near all Australian campuses. Monash Rideshare is a carpooling scheme for students and staff travelling to Berwick, Caulfield, Clayton and Peninsula. Car poolers are eligible for free parking.

Bicycle
For details of local bicycle paths and bicycle lanes, refer to the Bicycle Network Victoria website at www.bicyclenetwork.com.au. Designated bicycle parking is provided at all campuses.
All postgraduate law courses are taught at the Monash University Law Chamber, located in the heart of the city’s legal precinct at 555 Lonsdale Street within walking distance of the Magistrates, County and Supreme Courts. The Law Chamber provides independent student study areas and amenities conducive to creative and independent learning.

**Parkville**
**Drive time: 3 km, approx. 10 minutes**
Located three kilometres north of Melbourne’s city centre, the Parkville campus houses the Faculty of Pharmacy and Pharmaceutical Sciences, with first-class teaching facilities, innovative learning spaces and research laboratories. The campus is home to the Centre for Medication Use and Safety and the Monash Institute of Pharmaceutical Sciences, which comprises the largest and most experienced group of pharmaceutical scientists in Australia.

**Caulfield**
**Drive time: 9 km, approx. 20 minutes**
Caulfield is the second-largest Monash campus, with about 13,000 students. It’s the main centre for the faculties of Business and Economics, Art Design & Architecture, and Information Technology. Caulfield is nine kilometres from the Melbourne city centre and adjacent to Caulfield train station. The campus has a gym, library and cafes, and is close to several shopping precincts.

**Clayton**
**Drive time: 20 km, approx. 25 minutes**
Clayton is the largest of Monash’s campuses. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres. The campus can be reached by public transport utilising an extensive bus network combined with train stations in surrounding suburbs.

**Berwick**
**Drive time: 40 km, approx. 40 minutes**
Berwick is a small, friendly campus with about 2000 students approximately 40 minutes south-east of Melbourne. It’s a five-minute walk from the heart of Berwick’s specialty shops, cafes and business services. Berwick campus is a centre for the Faculty of Education.

**Peninsula**
**Drive time: 40 km, approx. 40 minutes**
The Peninsula campus is about 40 minutes south of Melbourne. It is a centre for nursing and paramedic training, early years education, primary education and health and physical education, and is also being developed as a centre for health science research. There is a bus connection to Frankston train station, and a free shuttle bus runs between Peninsula and Clayton campuses.

All times and distances are approximate and use the most direct driving route from the Melbourne CBD.

---

**The Monash Warwick Alliance**

In 2012, Monash partnered with the University of Warwick (UK) to form a unique global alliance. This partnership raises our international profile and provides unparalleled access to new opportunities and benefits to our students.

The Alliance aims to deliver a seamless international experience for students, offering innovative academic programs as well as opportunities for real and virtual student exchanges. We offer a joint PhD program in which both institutions are the ‘home’ institution, as well as joint and dual master’s programs that combine the distinctive strengths of each university.

For more information on our international locations, go to monash.edu/campuses
Our graduates

Tran Thanh Nam
PhD, 2005
Nam is the chief operating officer at MobiVi, Vietnam’s leading electronic payment service provider.
He helped co-found the company in mid-2007, and it has grown quickly on the back of massive growth in the reach and popularity of the internet and mobile phones, and business uptake of electronic communications.
MobiVi is at the forefront of ecommerce with their e-wallet payment system. E-wallet uses highly-secure computer networks and programs enabling airline tickets to be bought online, peer-to-peer payments undertaken via a mobile phone or over the web, and bills paid with the touch of a button.

Rameshwari Ramachandra
Master of Business Administration, 1993
As managing director of Singapore-based consulting firm Business Breakthrough Technology Pte Ltd, Rameshwari manages the operations and expansion of consulting initiatives and blue-chip clientele in Singapore, Malaysia, China, Taiwan, Indonesia, Vietnam, Thailand and the Philippines.
She is passionate about the role of women in decision-making and is involved with organisations including the Development of Economy for Women, DEW Credit Co-operative Ltd, Singapore National Co-operative Federation, Netball Singapore and the Singapore Council of Women’s Organizations.

Dr Michelle McIntosh
Bachelor of Pharmacy, 1997; PhD, 2000; Graduate Certificate in Higher Education, 2009
Michelle leads a team at Monash Institute of Pharmaceutical Sciences working on a project to develop an aerosol delivery system for oxytocin that can be inhaled by patients from a simple, disposable device immediately after childbirth. Every year more than 100,000 women die of postpartum haemorrhage (PPH), a condition of excessive blood loss after childbirth.
Although PPH can be effectively prevented or treated with an injection of oxytocin, access to this drug is limited due to the requirements for refrigeration, storage and trained medical personnel for administration.

Our research

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, creating new frontiers and discovering new ways of approaching the fields in which they worked. That’s why a Monash education is respected around the world. Things that we now take for granted would not exist without the initial work of Monash researchers:

First in-vitro fertilisation pregnancy
Professors Alan Trounson and Carl Wood achieved the world’s first IVF pregnancy in 1973. The Trounson and Wood team went on to achieve Australia’s first (and the world’s fourth) successful IVF birth in 1980.

Fighting influenza
In 1986, a team from our Faculty of Pharmacy and Pharmaceutical Sciences (formerly the Victorian College of Pharmacy) designed and synthesised the anti-flu drug, Relenza. Relenza first became available in Australia in 1999 and is now used globally.

Nobel Peace Prize
In 2007, eight scientists from Monash University shared in the prestige of the 2007 Nobel Peace Prize, awarded jointly to the Intergovernmental Panel on Climate Change and former US Vice-President Al Gore.

We judge our research by its academic excellence, but also by the impact it has on the communities we engage with and serve.

Super sand acts as an inexpensive filtration device in third-world countries.
Brendan Murray
Master of Education, 2010

Brendan is the Executive Principal of Parkville College – a Victorian Government School established to provide quality education for all young people detained in custody.
Deeplly embedded in his community, Brendan is also the co-founder and former principal of the Pavilion School – a Victorian Government school that seeks to provide the highest standard of public education for adolescents who are disengaged from education. He was awarded the Victorian Outstanding Secondary Teacher Award in 2009 as well as the inaugural Australian Federal Government Closing the Gap Award. Having completed his Master of Education in 2010, Brendan now intends to pursue a PhD at Monash University.

Dr Dewi Fortuna Anwar
Doctor of Philosophy in Arts, 1990

Dr Anwar is currently Research Professor at the Indonesian Institute of Sciences, Chairman of the Institute for Democracy and Human Rights – the Habibie Center and Deputy Secretary for Political Affairs to the Vice President of the Republic of Indonesia. She has long been active in promoting equal opportunities for women in Indonesia and greater representation for women in government and politics, and was voted one of Indonesia’s most powerful women in 2007.

Our research today
Today, our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we’ll help our researchers make it happen. Although we conduct research across more than 150 fields of study, we focus on a number of specialisations. We call these our leading capabilities. We’ve grouped these capabilities into four categories:

- health and wellbeing
- future technologies
- sustainable environments
- resilient cultures and communities.

Building stronger, lighter planes
Professor Xinhua Wu and her team at the Monash Centre for Additive Manufacturing (MCAM) are creating a new aluminium alloy that will make aircraft 30 to 40 per cent lighter, twice as fuel efficient and still structurally sound. So significant is this project that they are working in close partnership with Microturbo, the European Space Agency and Bombardier.

Helping the blind to see
The Monash Vision Group (MVG), draws on the capabilities of Monash University, The Alfred hospital and industry partners MiniFAB and Grey Innovation to develop bionic eye technology that connects to the primary visual cortex.
This means that patients unable to make use of current retinal implants because of damaged optic nerves or physical trauma to the actual eyes may now have the opportunity to see again.

Super sand
Monash has teamed up with Rice University (USA) to create a ‘super sand’, which acts as an inexpensive filtration device in third-world countries. They have significantly enhanced the natural filtering properties of sand by coating it with a nanomaterial called graphite oxide (GO). Lack of clean drinking water is the cause of more than 2.5 million deaths per year according to the World Health Organization (WHO).

Eliminating disease
The Eliminate Dengue Program, led by Monash University’s Professor Scott O’Neill, uses a naturally occurring bacteria (Wolbachia) to reduce the ability of mosquitoes to pass dengue between people. Dengue fever affects an estimated 390 million people worldwide annually and is ranked by the World Health Organization (WHO) as the most important mosquito-borne viral disease in the world.
Read more about the amazing work, and ambitious plans for the future in Monash: Delivering Impact online at monash.edu/monashmag

The Monash PhD
If you’re looking for a doctorate with a difference, look no further than the new Monash PhD. Offering one of the widest ranges of discipline and interdisciplinary options, it provides you with a depth of resources and knowledge needed to excel. What’s more, expert supervision from some of Australia’s finest academics ensures that you’ll produce a thesis that’s not only more rounded, but also more informed. Add this to a superior standard of research excellence and it’s easy to see why brilliant goes beyond.

To learn more about the new Monash PhD, please visit mona.sh/vuM2c
Your study options

Whether you want to get ahead in your career faster or just improve your knowledge, a Monash postgraduate degree can give you a distinct advantage.

Coursework or research?
There are three ways to study for a postgraduate degree:
1. by coursework
2. by research
3. by coursework with a research component.

1. Professional entry postgraduate courses
These courses are specifically designed to train students to enter regulated professions such as law, accounting and teaching after they have completed an undergraduate degree. These programs can range from two to four years depending on the discipline.

Expert master’s
These programs allow you to either extend knowledge and expertise gained through your undergraduate degree or add breadth to your knowledge and skills in a new discipline.

2. Research options
Monash offers research-based postgraduate degrees in all disciplines. And, while the challenge takes commitment, drive, motivation and talent, the benefits are enormous.

Research will enable you to pursue a passion, while working in a supportive environment with like-minded people. And it can open up incredible career opportunities.

3. Coursework and research
Combined degrees offer you the flexibility to complete part of your course by following a subject-based program, and part of it by completing a research thesis. It will allow you to grow through experiencing two very different methods of higher education.

Length of programs
Many of our master’s programs offer block credit to students on the basis of their education background.

2-year programs – if a student wishes to undertake a master's program in a different discipline to their three-year undergraduate qualification it will usually take two years (96 credit points).

1.5-year programs – if a student wishes to undertake a master’s program in the same discipline as their three-year undergraduate qualification it will usually be a 1.5 year program (72 credit points).

1-year programs – if a student wishes to study a master's in the same discipline for which they have a four-year honours qualification it usually takes one year (48 credit points).

Fees
Most postgraduate coursework programs are offered as full-fee places. Students in these courses pay the full tuition cost of the course and must make the payment upfront each semester. Details of course fees are included with course descriptions in this guide. A different fee is charged to Domestic and International students.

Fees quoted are for courses commencing in 2014, are subject to change and are indicative only. Fees for courses commencing in 2015 will be different. For more information on fees visit monash.edu/fees.

Cost of living
It is a good idea to plan and prepare a budget before you arrive in Australia. Your tuition and study fees do not include personal costs such as accommodation, food and other things you will need. These costs can add up to approximately A$22,900+ per year.

For more details visit monash.edu/cost-of-living.
Scholarships

Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

monash.edu/scholarships

Monash Scholarships
monash.edu/new-scholarships

Monash International Leadership Scholarship
100% course remission for high-achieving international coursework students. Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.

Monash International Merit Scholarship
A$10,000 paid per year to high-achieving international coursework students.

External Scholarships

Australia Awards (AusAID)
The Australia Awards (also known as AusAID) is an initiative of the Australian Government to promote knowledge, education links and enduring ties between Australia and our neighbours through Australia’s extensive scholarship programs. Monash University offers a range of courses suited to the development needs of AusAID and its scholarship holders. Find out more through our guides below or check the Australia Awards website to see your country’s area of priority.

monash.edu/australia-awards

Other external scholarships include:

- Becas (Chile)
- Colfuturo (Colombia)
- FIDERH and FUNED (Mexico)
- Senescyt (Ecuador)
- Ciência sem Fronteiras (Brazil)
Accommodation at Monash

Bring your family
If you have a visa to study in Australia, family members can accompany you if your study lasts for at least one year and you can support them. See the Australian Government immigration website to check eligibility criteria at www.immi.gov.au/study.

Jackomos Hall on Clayton campus accommodates 300 residents in single private studio apartments.

Watch and explore your accommodation options with our students at mona.sh/vuMne
Monash Residential Services (MRS) can help you find accommodation, whether you decide to live on or off campus.

### On-campus accommodation

On-campus accommodation gives you a convenient, safe and enjoyable living environment.

Living close to campus facilities ensures easy access to classes, libraries and university life. It’s also a great way to concentrate on your studies, and you are part of a community of people also committed to their courses.

You become a part of the programs, activities and pastoral care we offer.

It is a secure environment created by a 24-hour Monash security presence, and the costs are highly competitive with all rooms fully furnished.

Places fill quickly, so you should apply for accommodation as early as possible at monash.edu/mrs

### Off-campus accommodation

The MRS off-campus accommodation service provides guidance, information, resources and advocacy to students of Monash University. The service assists with accommodation-related matters prior to arrival and during your entire time at Monash University.

We can help every step of the way on:

＞ how to source appropriate accommodation
＞ tenancy legal information on what tenants need to know prior to and during their tenancy
＞ support with any difficulties experienced with landlords, agents or housemates
＞ other accommodation-related matters.

For more information go to: mrs.monash.edu/offcampus

* The above table of information for 2014 is a guide to help you compare and decide on your accommodation options.

For up-to-date information and more detail, go to monash.edu/mrs
A postgraduate degree takes commitment and drive, especially if you are moving to a new country or city. To help you maintain the momentum, we help put you in touch with like-minded people. To share information. To build networks. To get the support to keep you going.
Monash helps students settle into university life by providing an extensive range of support programs and services. monash.edu/study/life

**Airport pickup**

Monash University welcomes all new international students with a free airport pick-up service to take you to your accommodation. To arrange a pick-up, you must submit an airport pick-up request form at least three working days before you arrive. monash.edu/study/international/preparing/reception

**Family support**

Monash Family and Child care supports Monash students with children or families. Advice is available regarding childcare, primary school, playgroups, school holiday care and other child and family support issues. Social events for international students with families are held throughout the year. monash.edu/childcare

**Disability support services**

If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will support you to reach your full potential. Eligible students can access services such as learning support, assistive software or equipment loans. monash.edu/equity-diversity

**Monash Connect**

Monash Connect Student Service Centres are located on each of the Australian campuses. Staff can deal with your questions on admissions, enrolment, fees, academic support, language support, graduations and scholarships. Go to monash.edu/connect for more information.

**Wellbeing**

Each Monash campus features a Health, Wellbeing and Development Hub that offers expert health and wellbeing counsellors, medical practitioners, multi-faith chaplains and student advisers to support students in all facets of university life – from accommodation and financial aid to work/study and life balance issues.

Information and advice is available for students on a wide range of issues including:
- settling into life in Australia
- cultural adjustment
- student visa
- healthcare
- finding your way around campus
- study and life balance issues.
monash.edu/health-wellbeing

**Academic support**

During their studies, students have access to academic support programs to improve written and oral expression, reading, listening and note-taking skills. Tutors are available to guide advanced students through research methodology, conference presentation and the best way of submitting academic papers.
monash.edu/counselling/academic-support

**e-Research Services**

The Monash e-Research Centre provides all Monash researchers with access to outstanding advice and assistance – to help you manage your research projects and data effectively and efficiently. The centre can give you the advice, information and assistance you need to help you identify, specify, develop and configure IT tools, data management systems and practices to meet your specific needs.
monash.edu/eresearch/internal.html

**Skills Essentials seminars**

The Skills Essentials seminar series comprises more than 160 seminars and workshops, specifically designed for postgraduate research students. Most sessions are free of charge and provide postgraduate students with valuable training in areas relating to candidature and skills for future employment.
monash.edu/mpa/researchpostgrads

**Monash Postgraduate Association (MPA)**

All Monash postgraduate students automatically become members of the Monash Postgraduate Association. In addition to its seminar program, the association provides services for postgraduate students, including:
- social functions such as lunches, coffee clubs and question-and-answer sessions
- newsletters and publications including Compass, MPA guide to postgraduate programs and a weekly MPA email news bulletin
- advice, advocacy and mediation on issues that postgraduate students may encounter during their study
- representation on Monash University and faculty committees
- seminars to help you make the transition from successful study to a successful career, these seminars address helpful topics like publishing, time management, career management and writing skills.
monash.edu/mpa

**Campus security**

While Melbourne is considered the world’s most livable city, Monash still looks out for students welfare. We provide a range of security services to ensure our students are safe at all times. These include 24-hour security patrols, security escorts and a night-time security bus between our Clayton and Caulfield campuses.
monash.edu/safety-security

**Careers counselling**

We offer individual careers counselling, host career seminars and employer information sessions, where many of Australia’s leading companies participate to attract new talent, as well as providing programs to assist job hunting and resume building.
monash.edu/careers

**Professional Pathways Australia**

Obtain a reference and demonstrate experience by completing an Internship or Professional Year with Professional Pathways Australia. Fees apply.
www.professionalpathways.com.au
Art Design & Architecture

Monash Art Design & Architecture (MADA) is a place of creative excellence and innovation. Operating out of the Caulfield campus, our vibrant faculty is at the forefront of education in creative arts, architecture and design disciplines.

monash.edu/mada

- Be creative in our cutting-edge studio spaces
- Learn from the industry’s leading designers, architects and ground-breaking thinkers
- Make your mark by pushing the creative boundaries of art and design
- Get inspired from across the globe; study at our Prato campus in Italy

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/pg-subscribe. Or see monash.edu/coursefinder.

Elena Bruno

Master of Design

Elena is an Italian designer who studied in England before moving to Australia to further her professional development.

“I wanted to refine the design skills and expand my professional network in Australia. I chose Monash based on its reputation. I was also impressed by the work of previous students.”

Elena’s final project, a painting set designed specifically for people with disabilities, brings together aesthetics, ergonomics and usability.

“I have focused on expanding my portfolio in assistive and inclusive design. I have also had access to outstanding academic support and equipment. Seeing my full-scale model for my final project coming together has been very satisfying.”
Master of Architecture

The Master of Architecture is ideal if you are seeking to complete your architectural education. You will be trained to have the vision to design progressive architecture that responds to the needs of contemporary society and speculates about the future.

CRICOS code: 059818D

Master of Interaction Design

Interaction designers develop digital or ‘smart’ products, systems and environments. They consider the behaviour of people and the context in which users interact with technology. Drawing on concepts from industrial design, engineering, computer science and psychology, interaction designers integrate technology into our daily lives. The Master of Interaction Design includes tangible interaction design, which explores the physical characteristics of a product, as well as the application of innovative technology in design.

CRICOS code: 078848G

Master of Design

The Master of Design enables designers to advance their professional practice by focusing in-depth on projects for an extended period; an opportunity not often available to designers working in a commercial setting. With the support of academic staff, you can develop a self-directed project. You will gain an expert understanding of the design process as you plan and investigate concepts, deliver a design outcome and evaluate your response to the brief.

CRICOS code: 044966D

Master of Multimedia Design

The Master of Multimedia Design has been developed for students seeking skills in multimedia and screen-based design, from motion graphics to digital publishing. In a mix of studio classes and lectures, you will learn to balance creative expression with practical professional skills. You will deliver projects to briefs, using industry standard software and with the guidance of expert designers. In the final semester you will complete a major, self-directed project.

CRICOS code: 063213K
Doctor of Philosophy

The PhD program at Monash rigorously trains you in research through academic supervision, plus a suite of seminars, discussion groups and coursework units. Monash has grown into a large and multi-faceted institution supporting a wide range of research activities. Monash Art Design & Architecture has introduced doctoral studies to support the specific needs of the visual art, design and architecture disciplines. This has included the development of a unique studio-based PhD, wherein practising artists, designers and architects are able to incorporate their studio/project activity within a research framework, at one of the top research universities in the country.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 037830A

Master of Design (by Research)

This is a practice-based research degree that offers you the opportunity to rigorously investigate a topic of individual interest within the sphere of contemporary design. The degree is offered in the principal research areas of communication design and industrial design, but you may focus upon such fields as typography, illustration, product design, transport design and multimedia design.

CRICOS code: 044094C

Master of Fine Art

This practice-based research degree involves the independent investigation of a research problem that has been formulated by the candidate. It is expected that the research undertaken will make a contribution to the discipline in which the candidate is enrolled by applying, clarifying, critiquing or interpreting that knowledge. The studio research project develops a body of creative or visual works with accompanying written and visual documentation (exegetis).

The documentation is a commentary that outlines the development of the project and its conclusion, and provides a critical context within which the work may be viewed and assessed. The original visual works produced and the exegetical text are examined as one for Master of Fine Art candidates.

CRICOS code: 034885K

Master of Arts

This course is offered in the principal research area of art history and theory. The Master of Arts program is offered in the theory of art and design and focuses on the contextual study of art and design practice. Students explore the intellectual and historical context of art and design, posing critical questions, forming value judgments and articulating their ideas within an imaginative framework.

You will be examined entirely on the basis of the written paper, unlike the Master of Fine Art or Master of Design, which focus on visual work. The thesis should be between 30,000 and 40,000 words.

CRICOS code: 039990B
Mel Barnes
Master of Tourism

Mel chose to pursue her postgraduate studies alongside her full-time career, to have an advantage over other graduates in a competitive job market. "Tourism isn’t all about holidays! The program has an interdisciplinary focus and covers a wide range of academic fields. Lectures are available outside business hours and block subjects are a fantastic option for full-time workers. I recently took one week of annual leave to complete subject course work in Fiji. This allowed for full immersion into the program and fieldwork study. Staff in the Graduate Tourism program understand the commitments involved in working and studying full time and they are only a phone call or email away."
Graduate Certificate in Applied Linguistics

The course offers those with extensive professional experience in relevant areas an exposure to the key ideas of linguistics to prepare them for continuing studies. The program focuses on the central aspects of the discipline and develops basic knowledge and skills in these areas in order to meet the needs of those wishing to apply linguistics in various professional fields. CRICOS code: 075620G

- Duration: 6 months full time
- Campus: Clayton
- Intake: Semester 1
- Entry requirements: Page 64

Graduate Diploma in Applied Linguistics

Postgraduate linguistics focuses on sociolinguistics (language in society), discourse studies and the applications of linguistics to language issues including the teaching and learning of languages, literacy, bilingualism, language policies, language planning and language endangerment. This course is available in the following streams:

- General Applied Linguistics (available both on and off-campus)
- Japanese Applied Linguistics (on-campus students only)
- English as an International Language (on campus students only)

- Duration: 1 year full time
- Campus: Clayton
- Intake: Semester 1 and 2
- Entry requirements: Page 64

Master of Applied Linguistics

Professionals who know how language works and how it can be utilised in a multitude of situations are highly valued in the workplace. In this course, students will gain a critical understanding of theoretical and practical issues relating to applied linguistics, including second/foreign language acquisition, language teaching, language contact and intercultural communication.

Students receive training in research in the field and are equipped with skills to make a significant professional contribution to the field of applied linguistics.

The course has two streams to choose from:

- General applied linguistics
- English as an international language.

CRICOS code: 075339G

- Duration: 2 years full time
- Campus: Clayton
- Intake: Semester 1 and 2
- Entry requirements: Page 64

Master of Bioethics

This course provides an interdisciplinary education that is concerned with the ethical issues raised by medicine and the biomedical sciences. It is suited to health care professionals, scientists who face complex ethical issues in their working lives, those involved in developing public policy and law and those who are interested in exploring issues of public concern in greater depth. Studies cover questions of life and death, ethical issues in patient care, legal issues in bioethics and ethical issues in professional life. Students who have completed at least one semester of the course are eligible to apply for an annual fellowship to work during the Australian summer as an intern at the World Health Organization in Geneva.

CRICOS code: 077968G

- Duration: 2 years full time
- Campus: Clayton
- Intake: Semester 1 and 2
- Entry requirements: Page 64

Master of Communications and Media Studies

This program is designed to address the needs of those working, or aspiring to work, in the communications industry. It looks at the history, development and reception of traditional and new media both globally and with reference to Australia, Malaysia and Singapore. Contemporary policy debates in these and other nations are studied as responses to changing processes of mediation and consumption. More widely, the degree aims to develop skills in communications and media research.

CRICOS code: 039995G

- Duration: 2 years full time
- Campus: Caulfield, Malaysia
- Intake: Semester 1 and 2
- Entry requirements: Page 65
Master of Cultural Economy
This course is designed for students working at the crossroads of culture and economy. It provides an overall guide to the cultural economy and the individual roadmaps needed to achieve various ambitions, such as: working in the independent arts and creative/cultural industries; working in cultural policy, governance and community development; and/or seeking to place cultural economies in an historical context, and implications for contemporary practice. The degree covers approaches to cultural economy, the structures and dynamics of creative industries, creative cities, contemporary arts practices, and culture and sustainable development. Students have the opportunity to undertake in-depth analyses of individual cultural industries, cultural projects and international case studies, as well as internships and industry studies.
CRICOS code: 079584G

Master of International Development Practice
This course offers a multidisciplinary applied approach to the theory and practice of sustainable development. Delivered by specialists from the humanities, social sciences, medicine, business and economics, education and law, the program enables project management, leadership skills development and research training within an interdisciplinary core curriculum. Foundation theory and practice units address questions ranging from the causes of wealth disparity among nations, to the impact of politics, economics, culture, history and natural resources on inequality. Required fieldwork, study abroad and internship engagement are strengths of the program, which includes options to engage in field-schools at sites of significant development practice such as South Africa and the Asia-Pacific region.
CRICOS code: 079175B

Master of Environmental Management and Sustainability
This interdisciplinary course is designed to meet the needs of graduates from a wide range of backgrounds who wish to enhance their qualifications for careers in environmental sustainability, corporate sustainability management, or sustainable development, encompassing policy and analysis, planning, consulting, education, advocacy and management. It is also designed for those who wish to broaden and deepen their understanding and experience to enable societal, organisational and individual change and responsible action to support sustainability both domestically and internationally. The course offers three distinct streams:
- Environment and Governance
- Corporate Environmental and Sustainability Management
- International Development and Natural Resource Management.

All three streams offer a research or internship project component, which provides students with the opportunity to work in real-world contexts, to combine theory and practice in responding to local and global issues at individual, community, corporate and government levels.
CRICOS code: 075340D

Master of International Relations
This course allows graduates in politics or related disciplines to explore the many issues raised by the rapidly changing nature of the contemporary international system. It is particularly suitable for those interested in pursuing careers in areas such as government, diplomacy, business, teaching and journalism. It pays particular attention to relationships among major powers and to developments in Australia’s regions. Units covering areas including international security and regional politics provide a thorough grounding in the principal theoretical approaches in international relations and the ways in which these approaches may be used to analyse issues.
CRICOS code: 048453G
**Master of International Sustainable Tourism Management**

This course draws on best practices within the broad realm of the tourism industry, policy governance and research, to develop a critical understanding of the relationships between tourism and sustainable development with a particular emphasis on emerging economies and the development of small and medium-sized enterprises within them. It addresses tourism’s potential to be compatible with the achievement of a range of objectives, including developing sustainable organisations, urban and rural development/regeneration, natural resource management and wildlife conservation, and diversifying benefits from international and domestic tourism. It facilitates the development of skills and techniques to develop tourism policies and practices in a global setting and to manage tourism development and enterprises in the direction of more sustainable practice. The course includes a field-school study of patterns of development within an emerging economy in the Asia-Pacific region.

CRICOS code: 078909K

---

**Master of Interpreting and Translation Studies**

This course is suited to students with advanced bilingual proficiency and aims to develop their interpreting and translation skills while raising awareness of practical and theoretical approaches to translation/interpreting practice and studies. Students gain a foundation in theories of translation and interpreting and receive training in research on these areas. The core units provide intensive language-specific practice in written and oral transfer skills to the National Accreditation Authority for Translators and Interpreters (NAATI) professional level. The course has three streams:

- combined interpreting and translation
- translation only
- conference interpreting and translation.

Cricos code: 075342B

---

**Master of Journalism**

This course provides an entry-level qualification for a professional journalism career as well as a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. It emphasises high-level skills in research and reporting for all media – print, online, radio and video – combined with critical analysis of the role of the media in contemporary society. The course has strong links with industry and with leading universities in journalism education both nationally and internationally.

CRICOS code: 069115G

---

**Master of Journalism and Master of International Relations**

This course provides a comprehensive introduction to the nature of the international political system and some of the key issues in contemporary international relations, an entry-level qualification for a professional journalism career, and a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. It is has a national and international orientation designed to optimise the contribution graduates will make to their profession using a full range of media technologies and insights into approaches to international relations.

CRICOS code: 069118E

---

**Master of Tourism**

This is a multidisciplinary course with strong international and industry links, specifically designed to equip students with the skills required to develop a career in tourism and associated industries. The course provides students with an in-depth understanding of tourism development theory and practice, and facilitates the development of skills and techniques to develop tourism policies and practices in a global setting and to manage tourism development in the direction of more sustainable practice. Students also have the opportunity to attend an intensive field-school to study the patterns of development within an emerging economy in the Asia-Pacific region.

CRICOS code: 041063A
Research

Doctor of Philosophy

The PhD program offered by the Faculty of Arts enables you to complete extensive, independent research under the supervision of an expert academic. When completed, this research must make a valuable contribution to the current body of knowledge on your chosen topic.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 037831M

Doctor of Philosophy (Creative Writing)

This course is designed to enable you to engage intellectually with your creative process and to acquire professional qualifications in the area of creative writing. Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 069109F

Doctor of Philosophy (Music Composition)

This course is designed for composers to develop a research-based composition folio that makes an independent and original contribution to knowledge.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 069110B

Doctor of Philosophy (Music Performance)

Performance is at the heart of the Monash Sir Zelman Cowen School of Music programs and students can engage in a wide cross-section of musical activities, both within and outside formal study programs.

CRICOS code: 072749C

Doctor of Philosophy (Journalism)

The PhD in Journalism will develop advanced scholarly and professional research and publication skills, with particular reference to the relationship between the two modes in the service of enhancing public knowledge and understanding of contemporary social issues. You are required to submit a major piece of original journalistic research in a non-fiction genre together with a critical exegesis.

The research will produce new knowledge and/or use existing knowledge in a new and creative way so as to generate new concepts, methodologies and understandings.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 077804E
Doctor of Philosophy (Theatre Performance)

The course aims to equip you with a sophisticated understanding of the real world application of your research. It appeals to a broad range of candidates including theatre professionals, practitioners, educators, honours students and those who want to advance their knowledge and skills in areas such as:

- creating performance work for professional production
- understanding the mechanics of performance making and theatrical production and
- exploring methodologies of practice as research in performance (an area recognised as cutting edge in international theatre and performance studies).

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 069111A

Doctor of Philosophy (Translation Studies)

Translation Studies at Monash adopts an interdisciplinary approach and introduces you to the methodologies of practice as research. You are required to submit a body of translated work together with a critical exegesis. While its focus is on the theory and practice of translation, the course draws upon a wide variety of fields including language, culture and literary studies, linguistics, semiotics, media and technology, science, finance and the law.

The main languages available are: Chinese (Mandarin), French, German, Indonesian, Italian, Japanese, Korean and Spanish.

The following languages are subject to staff availability: Arabic, Croatian, Russian, Serbian and Ukrainian.

CRICOS code: 074679G

Master of Arts (Creative Writing)

Candidates submit a component of creative writing – a novel or a novella, a group of short stories, a play or a group of plays, a sequence of poems or a portfolio of creative works of various genres.

The creative writing component is submitted for examination as part of the thesis and must be undertaken during the enrolment in the course, under supervision.

An accompanying critical commentary of the creative writing component will constitute a scholarly, self-reflective critique, based on research into the theory and practice of the creative process focused on the student’s creative writing component, the writing of which will itself be considered as an act of research into the nature of literary creativity. The critical commentary will involve thoroughly researching the various aspects of the creative writing project: the creative process, the characteristics of the attempted genre, the mechanics of handling language and narrative, the influence of other relevant writers, context and the shaping elements in a work of art.

CRICOS code: 051117J

Master of Arts (Music Composition)

The degree is designed to enable composers to develop a distinctive compositional voice and to research and acquire a range of compositional techniques. Students create a folio of original compositions that demonstrates their ability to work in various media, including traditional, electro-acoustic, and contemporary solo and chamber combinations. They also write a critical commentary that demonstrates their capacity for research into compositional approaches and musical aesthetics in the context of contemporary music. Through regular work in the studios, students acquire a knowledge of music technology and an understanding of music technology as a compositional tool.

CRICOS code: 048451K

Master of Arts

A Master of Arts by 100 per cent research enables students to undertake substantial independent research on a chosen topic while under the supervision of an academic.

CRICOS code: 038571G
Master of Arts (Music Performance)

Performance is at the heart of the Monash Sir Zelman Cowen School of Music programs and students can engage in a wide cross-section of musical activities, both within and outside formal study programs.

CRICOS code: 080889B

**Master of Arts (Theatre Performance)**

The Master of Arts (Theatre Performance) by 100 per cent research offers the opportunity to combine creative output with practice-based research.

A major requirement is to produce a live performance, normally in one of the fields of directing, theatre making, musicals, dramatic writing or theatre design. The performance will embody the results of research into the contexts, theoretical influences, aesthetic elements and performance-making processes of the project.

CRICOS code: 080888C

**Master of Arts by Research and Coursework**

This combined degree allows students the flexibility to complete part of the course by following a unit-based program and part of the course by completing a research thesis. Students complete coursework in their first semester, then have one year to write a thesis of 20,000 to 25,000 words on a chosen topic.

CRICOS code: 075414B

**Master of Environmental Science by Research and Coursework**

Research emphasises the processes behind human-environment interactions, the development of policy, and the implementation of management strategies favourable to the environment. The program offers a primary insight into the nature of the environmental issues through core coursework units involving interdisciplinary research and an understanding of the social construction of the issues.

CRICOS code: 054587K

**Master of Bioethics**

This research program focuses on ethical issues raised by medicine and the biomedical sciences. It will be of interest to health care professionals, teachers in the health care field, and those with a general interest in the area. Areas of research strength include ethical issues in patient care, the ethics of clinical trials, ethical problems of resource allocation, medical end-of-life decisions, new reproductive technologies, nursing ethics, surrogacy, disability and discrimination, moral psychology and moral development.

CRICOS code: 038569A

**Master of Environmental Science**

The research topics are decided in consultation with staff and will be in the student’s chosen discipline.

CRICOS code: 054586M

**Duration**
- 1.5 years full time

**2014 International fee**
- $A$27,400 p.a.

Business and Economics

The Faculty of Business and Economics at Monash has an enviable reputation for teaching and research excellence across business disciplines. We deliver academic excellence with an emphasis on experiential learning, adding real-world value to our students and the communities they serve.

monash.edu/business-economics

The Faculty of Business and Economics is:

- Ranked 18th in the world for Accounting and Finance QS World University Rankings by subject 2013
- Ranked 26th in the world for Economics and Econometrics QS World University Rankings by subject 2013
- Among the top 1% of business education providers in the world with ‘triple crown’ accreditation
- Our Department of Economics is ranked No. 1 in the Oceanic region for experimental economics Research Papers in Economics (RePEC) and has a five-star ranking in economics Excellence in Research for Australia (ERA)

AACSB accreditation applies to courses in which more than fifty per cent of the program comprises traditional business units. For a full list of courses, and any exclusions, please visit: www.buseco.monash.edu/esg/accreditation/aacsb.html

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/pg-subscribe. Or see monash.edu/coursefinder.

Sarah Oshea
Master of Advanced Marketing

“I knew I would always be working in the marketing industry and that studying a master’s would help me up the career ladder even quicker. Monash also provided the study options that suited my needs, such as after-working-hours study, weekend classes and online tutorials. The highlight of the course has been the guest speaker series. I enjoy listening and hearing from top marketers in their industry, especially the B2C industry. These opportunities always end up giving me ideas about what I could implement in my own role or how I could do something different.”
**Coursework**

### The Monash MBA

The Monash MBA is one of the world’s top MBAs and is highly regarded by organisations and businesses worldwide. The program is specifically developed for emerging professionals with the ambition to move into leadership roles. This individualised education experience is designed to develop corporate and community leaders by developing your individual leadership and personal capabilities and by teaching you how to manage, lead and transform organisations in a unique way.

Leadership and personal development activities complement the academic units and are an integral part of the MBA program. These activities are integrated with each unit of study and are systematically delivered throughout the course.

As part of the program you will have access to exclusive career management workshops designed to provide a framework for evaluating your career to date and devising strategies for the future.

During the final quarter of your MBA studies at Monash, you will participate in an experiential learning component that translates the qualitative and analytical skills covered in the preceding units of the program into practical, real-life activities. This component includes an MBA study tour.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 001461G

### Monash Executive MBA

This course is specifically developed for experienced professionals with the ambition to take their already successful career to the next level. This sophisticated education experience is designed to develop leaders; executives with a global perspective, who are transformational and socially responsible.

During the Monash Executive MBA you will acquire the capabilities required to move into executive management roles. The program develops leadership and personal capabilities, and provides a holistic approach to business challenges and issues alongside conventional discipline-based academic subjects.

Innovative thinking and entrepreneurship will be encouraged and nurtured and management theories will be grounded in practical situations.

The Monash Executive MBA experience brings together experienced professionals, creating an environment where learning from co-students is a key component, supplemented by inputs from alumni and industry figures. The mentoring program links students to senior business professionals and our range of student and alumni activities are intended to promote professional networking.

With units delivered in intensive block mode four days per month (usually Thursday – Sunday), this course will enable you to continue to work full time.

CRICOS code: 079045A
**Graduate Certificate in Business**

The Graduate Certificate in Business is a stand-alone award or a pathway to a graduate diploma or master’s degree. It is designed to give you an introduction to a variety of business disciplines, and allows you to tailor your subjects to a particular area of interest. You can choose any broad four graduate-level units from the Faculty of Business and Economics or four units from a single business discipline to ensure full credit for the four completed units upon articulation to a master’s program.

CRICOS code: 069590E

---

**Graduate Diploma in Business**

The Graduate Diploma in Business is designed to give you an introduction to a variety of business disciplines, and allows you to tailor your subjects to a particular area of interest. This course is a stand-alone award or a pathway to a master’s degree. Typically, you would choose eight graduate units from a single business discipline. All eight units must be completed for full credit to most of the Faculty’s master’s degrees.

CRICOS code: 069579J

---

**Graduate Diploma in Human Resource Management**

This program will provide you with sound knowledge and skills in the field of human resource management (HRM), enabling you to develop expertise across the field of HRM issues, including industrial relations and other management practices. The course is designed for students who are looking to develop HRM skills as well as those who are currently working in human resources or related fields and wish to gain professional qualifications.

Taught in seminar-style classes, this course will provide you with an opportunity to learn from industry-relevant guest speakers and network with other professionals working in the field.

This course provides a pathway for you to continue your studies in the Master of Human Resource Management.

CRICOS code: 039390G

---

**Master of Business**

This course is ideal for people who have just completed an undergraduate program. This innovative and industry-focused course has a strong emphasis on personal development, corporate governance and social responsibility. It provides you with the skills to build on your undergraduate qualification and develop comprehensive business skills.

The course offers one of the largest ranges of specialisations in Australia across information technology, law and responsible business, marketing, risk management, project management, managing human capital, responsible management and supply chain management.

**Recognition for prior learning**

Students may be eligible for up to 48 credit points for previous graduate level studies or an honours degree in business. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 079669B

---

**Master of Business (Science and Technology)**

This is a unique course designed to give you the skills and experience to commercialise scientific and technical knowledge. It is designed for graduates with a background in science or technology, who wish to further develop skills in commercialising science and technology advancements. The course focuses on a mix of legal and business issues, drawing on units from across the Faculty of Law and the Faculty of Business and Economics.

As part of your studies you will participate in projects specifically developed to teach you how to manage and commercialise cutting-edge medical, scientific and technology projects. You will work with organisations such as CSIRO, Walter and Eliza Hall Institute of Medical Research, Baker IDI Heart and Diabetes Institute, Monash Vision Group and Monash Institute of Medical Research.

**Recognition for prior learning**

Students may be eligible for up to 48 credit points for previous graduate level studies or an honours degree in business. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 082330C
**Master of Business Law**

This course is designed for non-law graduates and for those who need specialist legal knowledge, such as those in regulatory, compliance or risk-management positions. The course will provide you with a well-rounded understanding of the legal environment and its impact on business practice in corporate governance, financial regulation, Asian and international business, human resources and workplace relations, marketing and taxation.

The units in the course offer a distinct business perspective on current legal issues and developments, in particular in fields such as regulation, compliance and risk management. You can also choose to complete commercial law units offered by the Faculty of Law.

**Recognition for prior learning**

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 082332A

---

**Master of Diplomacy and Trade**

This course will advance your knowledge across international trade, diplomacy, economics, international law and contemporary international politics. It is designed for graduates as well as people with work experience who are seeking to develop their career.

The Master of Diplomacy and Trade is the only postgraduate course in Australia that offers a combination of foreign affairs and international trade policy subjects, with a focus on international development issues.

You will develop essential skills such as evaluating key trends in foreign and trade policy, understanding the implications of international trade rules and providing policy advice in the areas of foreign affairs, trade and development and international business.

**Recognition for prior learning**

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 082333M

---

**Master of Human Resource Management**

This is a comprehensive course that focuses on developing your expertise in contemporary HR issues. It is designed for current and aspiring HR professionals who are seeking specialist training for career progression. It is ideal if you are looking to develop HRM skills or are working in HRM or related fields, such as industrial relations, employee development, HR planning or leadership.

You will learn how to develop HR policy, deal with organisational change and talent management, manage employment issues such as industrial relations, employee development, HR planning and leadership.

The course includes innovative teaching and learning practices that focus on developing your high-level management and leadership skills.

**Recognition for prior learning**

Students may be eligible for up to 36 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 031152E

---

**Master of International Business**

This course will advance your business and management knowledge and give you the skills to operate from a global perspective. Specifically designed for recent graduates and those in the early stages of their career, this degree will build on your undergraduate credentials.

You will develop vital skills in communications and negotiations across cultures, and understand the implications of international trade rules and providing policy advice in the areas of foreign affairs, trade and development and international business.

**Recognition for prior learning**

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) or Monash South Africa (inquiries@monash.ac.za) for more information on their offerings.

CRICOS code: 082334K
Master of Management

This course focuses on advancing your management, decision-making and problem-solving skills to grow your expertise so you can move into senior managerial positions. The program focuses on changing and dynamic organisational environments, and is suitable for experienced professionals from a range of backgrounds who are seeking to enhance their management skills.

The course has a flexible structure, which allows you to choose from an extensive list of electives, so you can tailor the course to your personal goals or industry.

Recognition for prior learning

Students may be eligible for up to 36 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 001466B

Master of Advanced Marketing

This course is designed for marketing graduates who seek to expand their knowledge of advanced marketing concepts and theories. The course features an advanced suite of marketing units reflecting state-of-the-art knowledge in the discipline of marketing, highly interactive lectures, case discussions and seminars.

The Master of Advanced Marketing is taught by academics who are at the leading edge of research in marketing and industry experts. The course offers opportunities to help you grow your professional marketing networks.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 082508D

Master of Public Policy and Management

The course explores the dynamics between governments and emerging issues that affect all levels of government. It will provide you with a deep understanding of management challenges in government and equip you to respond to public policy issues. It will also provide you with the skills to drive improved performances across the spectrum of public sector activities.

The course is designed for experienced professionals who are working, or aspire to work, in senior roles within the public sector.

Recognition for prior learning

Students may be eligible for up to 36 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 017507M

Master of Marketing

This course is designed for experienced professionals working in any business domain, who seek cutting-edge theoretical knowledge and problem-solving skills in marketing. The course features a comprehensive, intellectually stimulating set of marketing concepts taught by a world-class faculty and will enable considerable advancement in any chosen career.

The range of elective units on offer allows you to customise the course to suit your professional interests and career goals.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 082335J
Master of Business Economics

This course provides you with an advanced theoretical understanding of economics and its application to government and business decision-making. It is ideal if you are looking to extend your knowledge of economic analysis in the global economy, and focuses on areas of business strategy, competition policy, economic policy, project evaluation, pricing, and risk and regulation.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in economics. Exemptions up to 24 credit points may be granted for previous undergraduate studies in economics.

CRICOS code: 082331B

Master of Accounting

In this advanced degree you will extend your knowledge and expertise in accounting and have the opportunity to focus on specific fields of practice, including accounting information systems, financial accounting, forensic accounting, auditing and management accounting. This course is designed for accounting graduates or accountants in the early stages of their careers, and builds on the knowledge developed in your undergraduate degree to provide you with high-level expertise across key fields of accounting practice.

The Master of Accounting offers you a fast-track route to complete your professional recognition with the Chartered Institute of Management Accountants (CIMA).

The course is taught by a team of qualified academic staff, and includes guest lectures and workshops from industry experts and leading practitioners to ensure your knowledge is reflective of current practice. This course also offers a research pathway if you are interested in pursuing a PhD.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in accounting. Exemptions up to 24 credit points may be granted for previous undergraduate studies in finance.

CRICOS code: 082328G

Master of Professional Accounting

This course explores all aspects of business, financial and management accounting as well as providing you with the skills you need to work within the accounting profession. It is designed for recent graduates and professionals in the early stages of their careers who have a bachelor’s degree in another field, and are seeking to complement it with a professional accounting qualification.

The course equips you for a career in accounting and may qualify you for membership with key accounting institutions and industry bodies, such as CPA Australia, the Institute of Public Accountants and the Institute of Chartered Accountants Australia.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 082336G

Master of Economics

The course provides you with skills in advanced economic tools and gives you experience in undertaking independent research. It is designed for recent economics graduates and economists in the early stages of their career. It is ideal if you are interested in pursuing a PhD in economics, as it will give you the opportunity to present research ideas and concepts in a public setting. You will gain valuable research experience through our strong industry links. You will also have the opportunity to participate in exclusive events such as our Distinguished Visitor Series.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in economics. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 077369G

Master of Professional Accounting
Master of Applied Finance

In this course you will acquire advanced expertise in quantitative and qualitative finance, across areas such as global financial markets, financial planning, money markets, and funds management. Designed for recent finance graduates and professionals in the early stages of their finance careers, the course covers specific areas of finance, and is a CFA Program Partner of the CFA Institute, the global association for investment professionals that awards the CFA Financial Analyst® Designation.

As part of the Master of Applied Finance, you can choose from a wide range of elective units, which gives you the ability to explore the areas of finance and business that relate to your personal interests and career goals.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in finance. Exemptions up to 24 credit points may be granted for previous undergraduate studies in finance.

CRICOS code: 082329G

Master of Applied Econometrics

This advanced degree combines coursework and research elements to equip you with the skills and research experience required for applied econometric projects. Designed for recent econometrics and statistics graduates and those in the early stages of their business careers, the course offers a comprehensive curriculum across applied econometrics, time series analysis, financial econometrics, microeconometrics and econometric theory.

The course gives you the skills to design and implement applied econometric projects for the government and business sectors, or pursue a PhD.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in business, economics or statistics. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 082327J

Master of Banking and Finance

This is a comprehensive banking and finance degree that will provide you with a thorough understanding of the banking and finance industry. Designed for people who have limited prior knowledge in finance and are looking to enter the banking and finance industry, the course is ideal if you want to develop strong skills in banking and finance, develop your knowledge of financial institutional issues, and get practical experience in applying your acquired knowledge.

The Master of Banking and Finance offers a range of elective units, which gives you the opportunity to explore specific areas of finance and banking and tailor your degree to your own interests and career goals.

Recognition for prior learning

Students may be eligible for up to 48 credit points for previous graduate-level studies or an honours degree in finance. Exemptions up to 24 credit points may be granted for previous undergraduate studies.

CRICOS code: 079580M

Master of Actuarial Studies

In this course you will acquire advanced expertise in statistics, econometrics, finance, economics and mathematics. It is designed for recent actuarial graduates and professionals in the early stages of their business careers who want to pursue actuarial and risk management roles. The course covers specific areas of actuarial practice, and includes exemptions for parts 1 and 2 of subjects of the Institute of Actuaries of Australia.

As part of the degree, you can choose a wide range of elective units, across the fields of econometrics, actuarial practice, economics, business modelling and finance, which will give you the flexibility to tailor the course to your personal interests and career goals. As well as developing essential mathematical skills, the course also focuses on developing your wider business awareness skills including, communication, critical thinking, actuarial judgement and professionalism.

Recognition for prior learning

Students may be eligible for previous graduate-level studies or an honours degree in business. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 082326K
Master of Applied Finance and Master of Applied Econometrics

In this dual degree you will develop advanced expertise in quantitative and qualitative finance, across areas such as global financial markets, financial planning, money markets, and funds management, combined with the skills and research experience required for applied econometric projects.

Designed for recent finance and econometric graduates and professionals in the early stages of their careers, the course covers specific areas of finance, financial econometrics, applied econometrics and time series analysis. As part of the double master’s degree, you can choose from a wide range of elective units across both finance and applied econometrics, which gives you the flexibility to explore the areas that relate to your personal interests and career goals.

Recognition for prior learning

Students may be eligible for up to 60 credit points for previous graduate-level studies or an honours degree in econometrics or finance. Exemptions may be granted for previous undergraduate studies in econometrics or finance.

CRICOS code: 082638E

Doctor of Philosophy

The principal component of the PhD is a major thesis of up to 100,000 words, embodying the results of a research project. Coursework and training will be a component of the PhD, in all of the disciplines across the faculty.

Our PhD program enables you to complete independent research under the supervision of expert academics. Candidates are supported by a minimum of two supervisors throughout their candidature. The research will culminate in a written thesis that offers a significant contribution to knowledge in your discipline.

The Monash PhD is one of Australia’s first PhDs with career enhancement built into the doctorate. It’s a PhD that will prepare you for work beyond your degree. The Monash PhD includes at least three months of professional development coursework and/or training in addition to a thesis.

The Faculty of Business and Economics offers PhD programs in accounting, banking and finance, business law and taxation law, econometrics and business statistics, economics, management, marketing and specialist streams in economics.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 045341G

Master of Professional Accounting and Master of Business Law

In this dual degree you will develop your knowledge and expertise in accounting and develop the skills to address the wide range of legal issues that arise in contemporary business. You have the opportunity to focus on specific fields of accounting practice, including accounting information systems, financial accounting, forensic accounting, auditing and management accounting, alongside study of the legal environment and its impact on business practice in corporate governance, financial regulation, Asian and international business, human resources and workplace relations, marketing and taxation.

Recognition for prior learning

Students may be eligible for up to 60 credit points for previous graduate-level studies or an honours degree. Exemptions may be granted for previous undergraduate studies.

CRICOS code: 082639D

Master of Philosophy

A Master of Philosophy degree enables you to complete independent research under the supervision of expert academics, including the submission of a thesis.

The principal component of the MPhil is a thesis of up to 50,000 words, embodying the results of a research project. Candidates are supported by a minimum of two supervisors throughout their candidature. Together with supervisors, each candidate is responsible for developing the research program to be followed.

The Master of Philosophy also includes a coursework component, according to the academic discipline, for those students interested in transferring to the Doctor of Philosophy.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

Shenhan ‘Nic’ Song

Master of Teaching in Secondary Education

“What I enjoy most about the Master of Teaching is that it challenges me. The knowledge that we gain throughout the course, we then apply to real world situations when on placement. We are encouraged to learn from the mistakes we make and to always be positive and aspiring. My bachelor’s degree gave me professional knowledge, and my master’s degree lets me use that knowledge to inspire and influence future generations.”
Coursework

Graduate Certificate of Education Studies
This course is designed for students with a first qualification in a discipline other than education. In addition, this course is also suited for students who do not meet the entry requirements for the Master of Education. It orients learners to the broadly defined education discipline. It provides students with an understanding of concepts and contemporary issues in education and of educational contexts and systems, locally and globally. It develops knowledge and understanding of major theoretical and professional debates in specialist areas within the field of education and locates these within contemporary research. Completion of the course positions students to pursue studies in the Master of Education course.

Students will:
- acquire knowledge of foundational concepts and traditions in education
- develop understanding of recent issues and debates in policy and practice
- apply critical perspectives in their evaluation of substantive and contemporary issues and ideas
- demonstrate analytical skills in evaluating, synthesising and communicating academic concepts
- build confidence in academic literacy and demonstrated engagement at an advanced academic level.

All courses offered offshore in Singapore and Hong Kong do not have standard semester delivery.

Graduate Certificate in Educational Research
This course is designed for students with a first qualification in the education discipline area, broadly defined, who wish to pursue learning that will allow them to generate new knowledge and understanding through educational research. It orients learners to educational research and provides them with an understanding of educational research approaches and methodologies. Students apply this understanding through the design and implementation of a research project which demonstrates capacity to undertake and communicate high-level research synthesis, analysis and evaluation. Students who complete the Graduate Certificate of Educational Research at a high level are well placed to commence a successful PhD candidature in the field of Education.

Master of Teaching

The Master of Teaching is a graduate entry course that prepares graduates for careers as an educator in the early childhood sector, primary schools or secondary schools – or even a combination of these. The course is open to applicants with an undergraduate degree in any discipline.

The Monash Master of Teaching prepares students for leadership in education by building their:

- professional knowledge of education systems, theories of learning and teaching, and curriculum content
- professional skills and abilities to teach, organise and manage classrooms, assess and report learning, reflect on and develop evidence-based practice
- professional values to be a compassionate, collaborative, ethical leader committed to lifelong learning.

This course prepares students for educational leadership in an increasingly diverse, complex and changing world. Students engage with contemporary ideas and practices and learn how to foster the learning of children and young people with varied needs. You gain an understanding of how to develop the creative, intellectual, physical, personal and social capabilities of young learners. While learning to handle the complex nature of teaching, you develop your professional knowledge and skills to be able to teach in learning areas including the arts and humanities, English and other languages, mathematics, health and physical education, science, sustainability and technology.

You build your knowledge of teaching and learning by immersing yourself in a minimum of 60 days of teaching practice throughout the course in urban, rural, remote or international settings and schools. This includes opportunities to gain first-hand teaching experience in locations such as the Cook Islands, Malaysia, Italy and South Africa. You become aware of current education priorities and policies and how to respond to these in practice. In these ways, you develop a set of professional values and commitments that position you as a research-informed future educational leader.

You can specialise to teach in the following areas and graduate with an award that reflects your expertise:

- Early Years Education
- Primary Education
- Secondary Education
- Early Years and Primary Education
- Primary and Secondary Education

Early Years Education

This specialisation covers the education of children from birth to eight years of age and will qualify you to teach in childcare, kindergartens and pre-schools and support children’s transition to school.

Based in Clayton.

Primary Education

This specialisation qualifies you to teach primary school children from 5 to 12 years of age.

Based in Berwick, Peninsula and Off-campus.

Secondary Education

This specialisation qualifies you to teach students in secondary schools from 12 to 18 years of age, in specific curriculum areas.

Based in Clayton and Off-campus.

Early Years and Primary Education

This specialisation qualifies you to teach children from birth to 12 years of age, across childcare, pre-school and primary school.

Based in Clayton.

Primary and Secondary Education

This specialisation offers you the opportunity to pursue a teaching career in both primary and secondary schools, qualifying you to teach children from foundation through to year 12 (5 to 18 years of age).

Based in Berwick.

Professional recognition

Specialisations covering primary and/or secondary education will be accredited by the Victorian Institute of Teaching (VIT) in accordance with the Australian Professional Standards for Teachers. Specialisations covering early years education will be accredited by the Australian Children’s Education and Care Quality Authority (ACECQA). For interstate and overseas positions, applicants are advised to check with local authorities.

# This is an accelerated course where you will be required to undertake more than the Standard Annual Load of 48 credit points in Year 1 in order to complete the course in 1.5 calendar years. The fee quoted is based on 48 credit points of study for one standard year. Therefore you will be required to pay a higher fee in Year 1 where more than the 48 credit points is required.

CRICOS code: 083045M
Master of Education

The Master of Education course addresses the professional learning needs of educators, educational administrators, managers, policy makers and others interested or involved in learning and education or educational work in the wider community, and who may be based either locally or internationally. The course offers a general stream and specialisations that indicate a particular area of focus associated with various learning concepts and learning contexts. The course builds students’ learning through broadening their knowledge of key constructs related to learning, deepens their professional learning in specialist areas and advances their capacity as professional inquirers.

You can specialise in the following areas and graduate with an award that reflects your expertise:

- Digital Learning
- Early Childhood Education
- Educational Leadership and Policy
- Expert Teaching Practice
- Inclusive and Special Education
- Learning Communities and Practice Development

Digital Learning
This area of specialisation engages with the key issues and debates relating to digital technology in education and the application of effective educational technology practices for learning.

Early Childhood Education
This area of specialisation develops the practices of early childhood educators, leaders, policy makers and others interested in advancing their understanding of young children’s learning.

Educational Leadership and Policy
This area of specialisation focuses on leadership practices and policy development within educational contexts.

Expert Teaching Practice
This area of specialisation is designed for those wanting to extend their interest and deepen their knowledge and practice of teaching and learning – in schools, tertiary education, workplaces and in communities.

Inclusive and Special Education
This area of specialisation focuses on building inclusive learning environments. Students will specialise in theories and approaches to inclusion of diverse learners with particular cultural, social, cognitive and emotional needs across learning contexts.

Learning Communities and Practice Development
This area of specialisation focuses on ways to lead and develop communities of learners and their learning – in workplaces, communities and in local, regional, global and virtual spaces. It offers ideas and approaches to enable participation and learning, through formal and non-formal means, and expand and extend practice and skill development in communities.

Recognition for prior learning
If you hold relevant studies and/or work experience you may be eligible to receive up to 4 units of credit into this course, which reduces the duration.

All courses offered offshore in Singapore and Hong Kong do not have standard semester delivery.

CRICOS code: 078862J
Master of Counselling

The Master of Counselling is a skill-based course suited to professional people with an interest in counselling. It is suitable for people from a variety of professions such as human resources, health, social welfare and education. It has an application and skill-based orientation that draws from current evidence-based theory and practice. The Master of Counselling provides a professional qualification and offers real-life counselling experience for people who may not be practising as psychologists or social workers.

The course provides you with:
- advanced knowledge about major counselling approaches,
- training in counselling practice and
- an understanding of ethical and professional issues relating to the counselling profession.

An integral component of the course is the supervised professional placement, which includes contact and non-contact hours. You will spend the equivalent of 35 days undertaking professional placement. Most students start placement in the second year, with the opportunity to commence non-contact hours in first year. Non-contact hours include any counselling-related duties associated with the placement centre that do not involve counselling client/s. Examples include: administrative duties, observation of groups or activities, writing case notes, research into a particular case or attending meetings. Contact hours include client counselling or discussions about clients with those directly involved with those clients including case managers, teachers, social workers and/or family members. Placements offer valuable professional experience and the opportunity for students to establish contacts in the field of counselling.

Professional recognition

Please note Australian Counselling Association (ACA) and Psychotherapy and Counselling Federation of Australia (PACFA) accreditation are currently being sought for this new program.

Email study@monash.edu closer to time of application for more information.

Recognition for prior learning

If you hold relevant studies and/or work experience you may be eligible to receive up to 4 units of credit into this course, which reduces the duration.

---

Master of Leadership

This course develops professionals working across learning contexts to lead learning communities. It proposes participants to be key players in organisations and in communities, to learn and adapt to changing circumstances and to innovate their way into their future. Students learn skills and apply the practices that lead and inspire others to learn, as individuals or within resilient communities.

You can specialise in the following areas and graduate with an award that reflects your expertise:
- Community Learning
- Curriculum and Pedagogy
- Language Education
- Organisational Learning
- Principal Preparation

Community Learning

This specialisation equips aspiring leaders to develop, coordinate and lead the learning of people and their communities.

Curriculum and Pedagogy

This specialisation develops specialist skills in curriculum leadership and professional learning leadership in one area or across the areas of digital learning, literacy, mathematics or science.

Language Education

This specialisation builds teachers’ capacities to teach languages and lead language learning in schools.

Organisational Learning

This specialisation develops leaders to create and foster conditions and capabilities that enable organisational learning and creativity.

Principal Preparation

This specialisation develops teachers for high-performing principalship and/or curriculum leadership in schools.

All courses offered offshore in Singapore do not have standard semester delivery.

Master of Education – Thesis Only

Monash Education research degrees allow students to develop and implement a major research project on a topic of personal interest. This program provides educators and educational administrators, managers and policy makers with the opportunity to undertake research that applies directly or indirectly to their work environment. This degree is particularly suited to you if you have not previously carried out a major research project but would like to eventually progress to doctoral studies in education. You will conduct a substantial study that is smaller than a PhD – with a 30,000 – 40,000 word thesis.

CRICOS code: 075120E

Doctor of Philosophy

Monash University supports, promotes and conducts high-quality research that creates significant impact in Australia and overseas. The PhD is a supervised program that allows students to conceptualise and implement a major research project on a topic of personal interest. Your research will aim to improve professional practice and extend your expertise and skills relating to pressing educational issues. You will undertake a program of supervised research and submit a thesis. The thesis should make a significant contribution to knowledge and theory, and demonstrate your ability to carry out independent research.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 041043E

Master of Education – Coursework/Thesis

Today’s educators are expected to be lifelong learners. They need to operate in the global flow of the knowledge economy where established routines and boundaries are challenged. Monash researchers investigate new learning spaces and transitions in education, training and work – and the increasingly diverse work of educators and other leaders. This program provides you with the opportunity to undertake research that applies directly or indirectly to your work environment. It is particularly suited to you if you have not previously carried out a major research project but would like to eventually progress to doctoral studies in education.

You will complete two coursework units including a compulsory core research methods unit and a 20,000 – 25,000 word thesis.

CRICOS code: 075122C
Kedar Deshmukh  
PhD

Kedar received a Monash New Horizons Research Scholarship.  
He is currently undertaking PhD studies with the Department of Materials Engineering, participating in research that focuses on high-efficiency all-polymer solar cells.  
His own research interests include device and materials physics of organic photovoltaics and organic field effect transistors.

Solving the technological problems of the future is going to require talented engineering professionals.

At Monash we are excited to launch our new Master of Advanced Engineering in 2015. Designed to develop your skills as an engineering specialist and a leader in your particular field. You will develop the relevant corporate and community leadership skills and attributes to help manage engineering solutions in a rapidly changing world. Plus you can combine your engineering interests with a Master in Business, Master of IT or Master of Business Information Systems to give you the edge in a complex job market.

monash.edu/engineering

- Gain your qualification from one of the top 50 universities in the world for Engineering (ARWU 2013)
- Benefit from our industry partnerships and research collaborations with some of the best and brightest
- Be a part of a growing engineering and technology precinct with facilities like the New Horizons building which is home to the Cave2 – a next-generation immersive hybrid 2D and 3D virtual reality environment.

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/pg-subscribe. Or see monash.edu/coursefinder.
Coursework

Master of Bioresource Engineering

This course provides science or engineering graduates who wish to pursue a career in the bioresource industry with an enhanced understanding of the scientific and engineering aspects of the conversion of bioresources into fuel, materials and specialty chemicals.

CRICOS code: 075173C

Master of Advanced Engineering

Specifically designed for engineering graduates and professionals, this degree enables you to choose from a range of specialisations in engineering. You will gain a depth of knowledge beyond at Master’s level as well as advance your technical skills and develop innovative, creative and entrepreneurial skills. The course also allows you to advance your knowledge and skills in engineering leadership, complex problem solving and management as well as gain experience in applying them to a variety of industries.

The Master of Advanced Engineering will be available in: Chemical, Civil (Water and Transport), Electrical and Computer Systems, Materials and Mechanical Engineering. You can also complete a sequential double master’s degree to expand your career prospects with Business and IT. Choose from a Master of Advanced Engineering, a Master of Business, a Master of Business Information Systems or a Master of IT in just two years.

A$6000 Scholarships will be available to all students who commence the Master of Advanced Engineering in 2015.

CRICOS code: 082013E

Research

Doctor of Philosophy

The PhD program may be undertaken in the principal areas of research offered by the Faculty of Engineering, including chemical engineering, civil engineering, electrical and computer systems engineering, materials engineering, mechanical engineering, aerospace engineering and biological engineering. All specialised fields of research at Monash Engineering are at world standard or above and overall research in the faculty is rated well above world standard in the most recent Excellence in Research for Australia assessment.

PhD candidates have access to world-class laboratories, workshops and facilities furnished with highly specialised equipment and software.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 041044D

Master of Engineering Science (Research)

Monash Engineering research is rated well above world standard in the most recent Excellence in Research for Australia assessment. The faculty has a solid, robust profile in a broad range of engineering areas including the traditional, interdisciplinary and emerging fields. Researchers work in collaboration with the community, local and international industries, government bodies, cooperative research centres, consulting firms and research centres. Monash Engineering research is meeting the challenges of the future in areas such as bionic eye vision, nanotechnology, solar cells, aerodynamic testing, sustainable water, transport and advanced manufacturing, among many major research activities. Researchers have access to world-class laboratories, workshops and facilities furnished with highly specialised equipment and software.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 041059G
Monash is the only university in the prestigious Group of Eight with a faculty exclusively dedicated to Information Technology. This allows us to offer both breadth and depth, giving you an excellent choice of courses and units.

Monash sits among the world’s most prestigious universities and is ranked in the top 100 in the world for Computer Science and Information Systems by the 2014 QS World University Rankings.

Join us and apply your creative energies in a field that is revolutionising society.

monash.edu/it

Kartika Angkawijaya
Senior Product Information Specialist, 3M Innovation
Master of Information Technology

After completing an undergraduate degree in her home country of Indonesia, Kartika decided to research different universities in Australia and chose Monash because of its well-known international reputation.

“Having a Monash degree helped me to get more future employer recognition, especially when I decided to move to Singapore to pursue my professional career.”

She now works in the Consumer Business Group eHub team, a digital marketing area which supports the consumer brands all across the Asia Pacific.

To learn more about Kartika’s journey visit monash.edu/it/future/student-profiles
Graduate Certificate in Project Management

Projects occur in almost every business. Project management includes all the organisational, business and technical activities in planning and executing projects. Modern project managers are business managers and project management is a common pathway to senior management roles. Project managers take part in almost all business functions, including planning the organisational structure, business strategy development, sales and marketing, cash flow and profit budgets, and the technical activities of planning and executing the projects.

CRICOS code: 079050D

Master of Business Information Systems (Professional)

This course provides students with a previous qualification in information systems with an advanced understanding of information systems design, planning and management, as well as knowledge and information management.

The degree includes the option to complete one of the following:
- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 079054M

Graduate Diploma in Information and Knowledge Management

All enterprises, whether in the private or public sector, need excellent information and knowledge strategies to succeed. This course educates information professionals for a range of careers in information and knowledge management. The course is designed to meet the requirements for professional accreditation from the Australian Library and Information Association, the Records and Information Management Professionals Australasia and the Australian Society of Archivists.

There are different course structures for librarians and related information professionals and records managers and archivists.

CRICOS code: 058487D

Master of Information Technology

This course prepares students for work in the information technology industry at the highest levels. It provides students with a previous tertiary qualification in another discipline area with the knowledge, understanding and skills to enable them to deal effectively with advanced issues involving the application of information technology.

The degree includes the option to complete one of the following:
- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

CRICOS code: 079053A

Master of Business Information Systems

This course prepares students with a previous qualification in any discipline for careers in information systems design, planning and management, as well as knowledge and information management.

The degree includes the option to complete one of the following:
- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 079053A

Master of Information Technology (Professional)

This course enables students with previous degree in information technology to advance their knowledge of information technology on both industry and research issues to the highest levels. It provides students with the knowledge, understanding and skills to enable them to deal effectively with the rapid changes in the information technology.

The degree includes the option to complete one of the following:
- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

CRICOS code: 079242G
Master of Information Technology Professional/Master of Business Information Systems Professional

The double degree of Master of Business Information Systems Professional and Master of Information Technology Professional provides students with previous qualifications in either information systems or information technology the opportunity to gain an advanced understanding of both complementary streams of postgraduate studies in the Faculty of Information Technology.

The degree includes the option to complete one of the following:

- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

CRICOS code: 079051C

Master of Networks and Security

With the proliferation of mobile and pervasive devices with network capability and the popularity and the availability of internet, more and more users and application providers are seeking and providing services with the access and delivery paradigm of anytime and anywhere. In order to harness such rapidly changing technology, one needs to have clear understanding, knowledge and experience that transcends these technologies in order to able to design, deploy and maintain networks and application services.

The degree includes the option to complete one of the following:

- Industry experience
- Research

Students can exit at either graduate certificate or graduate diploma after completion of appropriate units.

CRICOS code: 079052B

Doctor of Philosophy

Information Technology research at Monash has a multi-disciplinary, multi-campus and multi-national approach, providing research students with a unique capacity to reach out further and deeper than at any other institution in Australia.

The degree of Doctor of Philosophy (PhD) is a supervised program designed to allow a student to conceptualise and implement a major research project on a topic of personal interest. The degree is awarded for a thesis that, in the opinion of the examiners, makes a significant contribution to knowledge in the discipline concerned and demonstrates the candidate’s capacity to carry out independent research. Doctoral candidates are supported throughout their degree by a minimum of two supervisors.

The length of the thesis may vary across disciplines, but should not normally exceed 100,000 words. Candidates enrolled on some campuses are required to complete a compulsory program of coursework and/or training. These discipline-specific programs are designed to impart skills and knowledge that will assist candidates to conduct their research.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 041045C

Master of Philosophy

The Master of Philosophy (MPhil) is a University-wide master by research degree administered by the Monash Research Graduate School (MRGS). The MRGS is dedicated to enhancing research opportunities at Monash, and providing support to postgraduate researchers.

Master of Philosophy students in IT are expected to make a contribution to an existing body of information technology knowledge by applying, clarifying, critiquing or interpreting that knowledge.

Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.

CRICOS code: 077608J
Bridget Osho

Master of Laws (Human Rights)

“As one of the recipients of the Australian Government Awards for Africa I had the choice of studying at any Australian University. I chose to study at Monash University because of its reputation as one of the best in the country. It also offered the degree that is perfectly suited to my career goals with a learning flexibility to study subjects outside of my specialisation course. My favourite part of studying at Monash is that I get to study other interesting areas of law which are not only related to my specialisation but are important as they are intrinsically linked. Classes at Monash are very interactive and students’ ideas are taken very seriously. This has built up my public speaking confidence which will be an invaluable tool for my chosen career path as a human rights lawyer and advocate.”
Graduate Diploma in Law

The Graduate Diploma in Law aims to provide further education in the legal profession to update skills and specialise in specific areas of the law for those with a law degree or for those from disciplines other than law. It may also contribute to continuing legal education and professional development.

The course, in terms of structure, teaching methods, class times and venue, is designed with the interests of part-time students particularly in mind.

The flexible nature of this course will allow completion in as little as six months full time (with credit) or two years part time. Graduate diploma students can choose to articulate into most of our other postgraduate law degrees subject to faculty approval.

CRICOS code: 001434K

Master of Commercial Law

The Commercial Law specialisation allows students to choose from an extensive range of commercial law units covering topics across the domestic and international arenas. Our extensive range of commercial law units caters to various career aspirations and interests and provides a springboard from which to launch or further your career in this complex and evolving professional area.

This specialisation focuses on areas that include corporate law, competition law, banking and finance law and tax law.

The Master of Commercial Law specialisation provides a formal course of training for those working in law-related fields (e.g. accountants, company administrators, management personnel, etc) and provides opportunities to obtain a specialist qualification in an area of commercial law.

CRICOS code: 038583C

Master of Human Rights Law

The Human Rights specialisation allows students to choose from an extensive range of units covering topics across the domestic and international arenas. Covering a wide range of traditional and emerging topics, from indigenous and children’s rights to issues relating to terrorism, migration and encroachments on privacy, this specialisation enables students to focus on topical human rights issues confronting governments, international bodies, individuals and corporations and allows students to critically engage in and debate these issues.

It is particularly relevant for those who wish to pursue a career in human rights law and related work. This specialised degree provides in-depth theoretical and practical knowledge of the international human rights legal framework, the organisations that promote and protect it and the mechanisms and processes by which it is enforced.

Students will also develop high-level skills in interpreting and analysing primary and secondary human rights materials, including treaties, treaty body decisions, domestic jurisprudence and scholarly commentary. Our courses, along with the faculty’s support of the Castan Centre for Human Rights Law, have put Monash University at the forefront of this specialised degree.

It is particularly relevant for those who wish to pursue a career in human rights law and related work. CRICOS code: 055071G

Master of Intellectual Property Law

The Intellectual Property specialisation is ideal for graduates wanting to gain accreditation as a Trade Marks or Patent Attorney, and to advance their professional expertise in the ever-evolving area of intellectual property law.

New developments and advances in media, communications and the virtual world require that the law and the ramifications of emerging technology be understood and applied in a practical setting. Students will obtain grounding in the fundamental principles of intellectual property law and address advanced issues, including local and international developments of laws relating to the protection of intellectual property rights.

Monash Law School teaches all the units that are accredited by the Professional Standards Board for Patent and Trade Marks Attorneys to satisfy the knowledge requirements for registration as a Patent Attorney or Trade Marks Attorney.

CRICOS code: 038584B
Master of Laws

The Master of Laws (LLM) program has been developed to offer maximum flexibility and choice for law graduates, with a broad range of subjects that enables students to tailor the master's degree to their interests and professional needs. Students investigate contemporary legal issues from both international and local perspectives.

There are a number of study areas that students can complete as part of their master's degree including:

- Commercial law
- Dispute resolution
- Government law and regulatory practice
- Human rights law
- Intellectual property law
- International and comparative law
- Media and communications law
- Regulatory studies
- Workplace and employment law.

The Monash LLM is ideal for law graduates wanting to develop in-depth knowledge of a particular legal area or those wanting to advance their professional expertise in a current area of practice. This course also provides opportunities for independent legal research.

CRICOS code: 001439E

Master of Regulatory Studies

The Master of Regulatory Studies is offered by the Faculty of Law in conjunction with the faculties of Arts, Business and Economics, Medicine, Nursing and Health Sciences and the Pharmacy and Pharmaceutical Sciences at Monash University. It was specifically designed to address the nature, extent and implications of the regulatory environment in a broad, cross disciplinary approach. The study of regulation is a relatively new discipline that links and transcends the boundaries between economics, law, politics, criminology, sociology, psychology, organisational theory and public administration. This unique degree will provide practitioners and scholars with a core set of ideas, theories and skills to apply to their regulatory activities and manage regulatory challenges.

CRICOS code: 055069B

Master of Workplace and Employment Law

Effective, equitable and safe workplace practices are a growing concern in the global workforce. The Master of Workplace and Employment Law is designed to provide graduates with a thorough grounding in labour law and is relevant for those working, or who aim to work, in the area of workplace and employment law or a related area. It includes a diverse range of units, covering topics such as collective bargaining agreements, individual contracts, occupational health and safety, electronic workplace law, industrial action, unfair dismissal, modern awards and national employment standards, international labour law and discrimination in the workplace.

CRICOS code: 049560G

Master of Laws (Juris Doctor)

The Master of Laws (Juris Doctor), or Monash JD, is a graduate entry law degree designed to teach the knowledge and skills required to practise law. It recognises the individual needs of non-law graduates who wish to study law and offers the transferable skills and knowledge only a law degree from one of Australia’s leading universities can provide. The course focuses on the knowledge, legal skills and professional ethics that may be expected of legal practitioners.

The relatively flexible nature of the Monash JD allows you to work while you study and tailor your workload to suit your professional and personal commitments. The Monash JD can be completed in just 3 years or 2.5 years in accelerated mode. Students who wish to complete their JD in 2.5 years must have a distinction average.

Small seminar-style classes bring together passionate and dedicated individuals with diverse professional experiences in a stimulating and challenging environment.

CRICOS code: 061795K
Doctor of Juridical Science

The Doctor of Juridical Science (SJD) is a professional doctorate program that enables students to complete a research thesis together with a selection of coursework units in a specific area of interest. The program is suited to legal professionals seeking to enhance their expertise through advanced coursework and research. The coursework units allow students to develop some expertise in the area in which they intend to pursue their research before commencing work on their thesis of 50,000 words.

CRICOS code: 041543G

Master of Laws (Research)

The Master of Laws (Research) requires the completion of a thesis normally not exceeding 50,000 words in length. The thesis can be undertaken in any area of research offered by the faculty. It is expected that the thesis should embody the results of an investigation in a field of study approved by the faculty and be carried out by the student under supervision of a nominated supervisor appointed by the faculty; be the original work of the student, except where due reference is made in the thesis; and display a thorough understanding of subject matter and contribute to knowledge and understanding within the field of study concerned.

CRICOS code: 040032E

Doctor of Philosophy

The Doctor of Philosophy (PhD) in the Faculty of Law may be undertaken in any of the principle areas of research offered by the Faculty. It is particularly relevant to those contemplating an academic career in law. Students for the PhD are required to complete a thesis of no more than 100,000 words that must make an original contribution to knowledge. The thesis must demonstrate your ability to carry out independent research and analyse and synthesise legal concepts.

CRICOS code: 041046B

Master of Philosophy

The Master of Philosophy in the Faculty of law requires the completion of a major thesis 50,000 words in length, which may be undertaken in any area of research offered by the faculty. It is suitable for law or non-law graduates who wish to pursue a major scholarly research project. It is particularly suited to students seeking to undertake an inter-disciplinary research project. It is expected that the thesis will meet a standard comparable to legal writings found in learned journals, and demonstrate the student’s ability to carry out independent research and to analyse and synthesise legal concepts.

CRICOS code: 046125G
Two years ago Lee was running his own plant nursery. Now the horticulture graduate is back at university studying for a new career as a nurse. Having enrolled in Monash University’s new Master of Nursing Practice – an accelerated program for graduates with non-nursing backgrounds – Lee feels that for the first time he is doing what he should be doing.

“The relief that you see in a patient’s eyes when they realise you are not going to compromise their dignity, or the gratitude from a family when you help make a dying patient more comfortable, is really rewarding.”

Students in the Master of Nursing Practice spend half the week in class and the other half in clinical practice. Lee said the curriculum was well matched to the clinical experience, giving students an opportunity to immediately apply academic knowledge.
Bachelor of Medicine and Bachelor of Surgery (Honours) (Graduate Entry)

Our graduate entry medical program gives you the opportunity to commence your medical studies after completing another degree.

To be eligible for entry into this program applicants must have completed, or be in the process of completing, a degree with a significant amount of biomedical science content. A list of degrees that are deemed as clearly accepted can be found at: med.monash.edu.au/medical/gippsland/mbbs-pathways

Other degrees will be assessed on a case by case basis for entry.

CRICOS code: 082977G

Master of Biomedical Science Preliminary

The Master of Biomedical Science Preliminary is a qualifying degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty’s research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff.

CRICOS code: 081809K

Master of Clinical Embryology

This 12-month, intensive course provides students with the essential postgraduate knowledge and practical skills necessary to contribute competently to human infertility clinical services. Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required to ensure maximum success for IVF patients. The guidelines, protocols and regulations that steer and control human infertility services are also presented. In addition to attending lectures and self-directed study, students are required to undertake continual practical skills training and also undertake a minor research project. Students will not only be equipped with practical skills required for work in an IVF laboratory but also gain a greater understanding of research applications within the field of reproductive or developmental biology. Research-related tasks contribute to the overall assessment for specific coursework units.

CRICOS code: 028955G
Master of Clinical Research Methods

Clinical epidemiology attempts to answer questions relevant to the daily practice of medicine and other health sciences and to improve patient care. This course assists health professionals to make rational evidence-based decisions in clinical practice and undertake small clinical research projects. It focuses on individuals or groups of patients in clinical settings. Above all, graduates should be able to critically evaluate their own efforts and the efforts of others towards the achievement of better health outcomes. Students may exit from the course with the Graduate Diploma in Clinical Research Methods or the Graduate Certificate in Clinical Research Methods. Students who successfully complete the research stream and achieve an overall average of high distinction may apply to progress to a PhD or other Higher Degree by Research.

CRICOS code: 072000D

Master of Health Services Management

Management of health services is engaging health professionals, as responsibility for the delivery of effective and efficient health care has become more important. This course provides management training tailored to the specific needs of health care professionals working as medical or general hospital administrators, clinicians, quality assurance managers, team leaders, senior nursing administrators, unit managers, case managers or general task coordinators within the health care system. Students may be eligible to exit from the master’s with the Graduate Diploma in Health Services Management or the Graduate Certificate in Health Services Management.

CRICOS code: 038564F
Master of Nursing

This course prepares advanced practice nurses with leadership skills to plan, implement, coordinate and evaluate health care, as well as formulate policy for a diverse and multicultural society. Graduates will be well equipped to contribute to the health of individuals, families, communities and the development of the profession. The program is designed using flexible teaching delivery options and provides for a range of individual career pathways, including specialist clinical nursing, education, research or management positions within industry, government or independent professional practice. The program can be taken by (a) coursework, or (b) coursework and a 15,000 word research project, or (c) coursework and a 25,000 word research thesis. Major study options are available to prepare nurses for advance practice roles in a range of clinical and non-clinical specialties.

Admission restrictions

This course is only available for international student visa holders at the Peninsula campus.

CRICOS code: 075545B

Master of Nursing Practice

The Master of Nursing Practice will provide a professional nursing qualification for individuals who have gained an undergraduate degree. This program builds on prior knowledge and skills and facilitates the development of professional nursing practice through engagement with expert clinical nurses, contemporary nursing theory and evidence.

CRICOS code: 069373J

Master of Occupational and Environmental Health

This program aims to provide you with skills to practise quality occupational health and safety services; identify and manage occupational and environmental health risks, and assist to systematically control related hazards and exposures, within a broad range of workplace and community environments. It aims to enable you to take responsibility for high-level independent judgements, and initiate, implement and evaluate risk management interventions within varied occupational and environmental contexts. The master’s is applicable to medical practitioners, nurses, allied health professionals, scientists or OHS managers wishing to further develop their skills as autonomous, responsible and accountable OHS and environmental health practitioners.

The degree is recognised by the Australasian Faculty of Occupational Medicine and the Australian College of Occupational Health Nurses. Students may be eligible to exit with the Graduate Certificate in Occupational Health or the Graduate Diploma in Occupational and Environmental Health.

CRICOS code: 028957E

Master of Occupational Therapy Practice

This two-year, accelerated learning program will enable students with a first degree other than Occupational Therapy, but in a related field, to obtain a professional, entry level qualification at a postgraduate level of study, to practise as an Occupational Therapist. The Master in Occupational Therapy Practice (MOTPrac) will require full-time enrolment over two years from July to May (mid year intake). It will operate over 72 weeks and include 1000 hours of fieldwork education commensurate with World Federation of Occupational Therapists (WFOT) Minimum Standards for the Education of Occupational Therapists.

The course is an integrated curriculum centred on Scenario-Based Learning (SBL). The two years of the SBL curriculum will be organised into the following units: Foundations of Occupational Therapy, Humans as Occupational Beings, Occupational Performance, Enabling Change in Human Occupation, Transition to Practice and Advanced Professional Practice.

Students complete an extensive practice-based project. Higher-achieving students are eligible to complete this research to the equivalent of honours standard to be eligible to apply for a research master’s or PhD program on completion.

CRICOS code: 070265M
Research

Doctor of Medicine (supervised)

The Doctor of Medicine (MD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty’s principal research areas and strengths. Candidates in the MD (supervised) mode undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Master of Public Health

This 12-unit course provides students with the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It especially focuses on developing skills in the quantitative methods of the population-based health sciences and their problem-solving application for disease prevention, health promotion and primary care provision in both Australia and for developing countries. Students can exit with a Graduate Diploma or Graduate Certificate providing the approved selection of units are completed.

CRICOS code: 021280B

Master of Social Work (Qualifying)

The MSW (Qualifying) curriculum meets the Australian Association of Social Workers (AASW) requirements and builds on Monash Social Work areas of strength, especially in gender studies, sustainability, child wellbeing and health. The degree includes considerable emphasis on community engagement and leadership, and provides opportunities to work with organisations to complete projects and research. The MSW (Qualifying) is a coursework degree with theoretical, skills development and supervised professional practice units. The course provides opportunities for group-based research and integration of theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice units introduce students to contemporary social work practice.

Doctor of Psychology in Clinical Neuropsychology

The Doctor of Psychology in Clinical Neuropsychology is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The discipline of clinical neuropsychology applies knowledge of cognition, emotion and behaviour to the assessment and treatment of children and adults with conditions affecting the brain.

A feature of the Doctor of Psychology (DPsych) in Clinical Neuropsychology course is that training in clinical neuropsychology is extended through specialisation in a choice of areas, including rehabilitation, child and adolescent neuropsychology, geriatric neuropsychology and psychiatric neuropsychology.

CRICOS code: 040812K

Doctor of Psychology in Clinical Psychology

The Doctor of Psychology in Clinical Psychology is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. This course prepares psychologists for research in applied areas of psychology and to work as clinical psychologists in the assessment and treatment of adults and children with relatively severe emotional and/or behavioural disorders. A feature of the program is that training in clinical psychology is extended through specialisation in either child, adolescent and family psychology or advanced adult clinical psychology.

CRICOS code: 073634F

Master of Biomedical Science

The Master of Biomedical Science (MBiomedSci) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty’s principal biomedical research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research. Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia info@monash.edu.my for more information on their offerings.

CRICOS code: 039994J

Master of Nursing (Research)

The Master of Nursing (Research) is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Master of Surgery

The Master of Surgery is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Cisco code: 049254G
Maria Chan

Senior Clinical Pharmacist, Royal Children’s Hospital, Bachelor of Pharmacy, Master of Clinical Pharmacy.

“Since registering as a pharmacist in 2001, I’ve worked extensively in paediatric hospital pharmacy and gained significant practical clinical experience. I chose to study the Master of Clinical Pharmacy to give me the skills to determine best current practice, develop guidelines to promote safe and effective use of medication and improve patient care and outcomes.

“The course enabled me to ‘speak the same language’ as other healthcare professionals and qualified me for more complex roles and to take on greater responsibility such as teaching and supporting junior staff. The best thing for me was learning problem solving and analytical skills that I can apply in my clinical practice.”
Doctor of Philosophy

Monash’s Faculty of Pharmacy and Pharmaceutical Sciences is internationally renowned as a key research centre. It is home to the Monash Institute of Pharmaceutical Sciences, the largest and most experienced group of pharmaceutical scientists in Australia. The faculty’s research students have access to dedicated research buildings, modern laboratories, an extensive library and first-rate research equipment.

The faculty offers research programs in the areas of:
- Drug candidate optimisation
- Drug discovery biology
- Drug discovery, disposition and dynamics
- Medicinal chemistry and drug action
- Medicine use and safety.

Research students are supervised by leading international experts in the field, and the research conducted by research graduates is highly regarded within Australia and internationally.

The faculty has established a strong reputation with industry, both nationally and internationally, and acts as a resource for industry and research institutes involved in the pharmaceutical and biomedical sciences.

The PhD program is offered to elite applicants with high academic standing, normally a master’s degree or an honours degree at H1 or H2A level in a relevant discipline.

Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

CRICOS code: 041048M

Doctor of Philosophy

**Doctor of Philosophy (Joint Award and Doctoral Training Centre with The University of Nottingham)**

Together Monash and the University of Nottingham have assembled the world’s leading G protein-coupled receptor (GPCR) biology, allosterism and cell signalling expertise to train the next generation of international leaders in molecular pharmacology and drug discovery biology.

The new Joint International PhD in Molecular Pharmacology and Drug Discovery Biology is an elite PhD program developed for the world’s brightest biomedical science students to enable them to develop more effective and selective therapies to tackle diseases of global relevance to human suffering. Participants in the Joint Award PhD will be members of our new Doctoral Training Centre (DTC) for Molecular Pharmacology and Drug Discovery Biology. Core training delivered in the first year will provide students with skill sets that are essential for their development as creative and independent scientists. Further training and workshops in molecular pharmacology and drug discovery biology delivered in years 2 to 4 will provide specialised training in specific aspects of pharmacology. An advanced skills workshop in year 4 will equip students with the necessary skills to compete for prestigious positions in academia and industry.

This program will also offer laboratory rotations in year 1 and industry rotation during year 4.

CRICOS code: 080030J

Doctor of Philosophy

**Doctor of Philosophy (Joint PhD with The University of Warwick)**

Spread over the traditional duration of three years, with a minimum of one year to be spent at The University of Warwick and the rest of the time in the Faculty of Pharmacy and Pharmaceutical Sciences, this Joint Doctoral Programme (JDP) allows you to study at two innovative and internationally renowned institutions. You will undertake research in areas that are current and of real global importance. Guided by academics at both Warwick and Monash, you will be able to carry out work of the highest calibre, in the company of an elite group of academics and postgraduate researchers. As well as producing an outstanding contribution to your field of research, you will engage in personal, professional and academic training delivered by colleagues with expert knowledge of the demands of the global job market. Graduates of this degree will be awarded a joint Doctoral testamur from both Monash University and The University of Warwick. The faculty offers research programs in the areas of:
- Drug candidate optimisation
- Drug discovery biology
- Drug discovery, disposition and dynamics
- Medicinal chemistry
- Medicine use and safety.

* Candidates also must be successful for a scholarship

CRICOS code: 079266K

Science

Your postgraduate studies at Monash enable you to pursue your individual area of interest in depth and contribute to the advancement of knowledge within this specialist field. Through supervised research, you will become a part of a community of scholars working on finding solutions to real-world problems. Many exciting discoveries have been made while undertaking postgraduate studies at Monash. You, too, could be a part of this, enhancing your career prospects and, in your own way, making a difference to the world around us.

Take your passion for science to the next level.
monash.edu/science

- Address some of society's greatest challenges through world-class research programs
- Find the support and stimulation you need to push the boundaries
- Build an enviable reputation through your research achievements
- Join our internationally respected community of scientists

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/pg-subscribe. Or see monash.edu/coursefinder.

Rosemarie Herbert
Bachelor of Science and a Bachelor of Biomedical Science, Current PhD in Science

“I loved the Biomedical science units and I did some summer vacation work in biochemistry, and that helped me make a decision that I wanted to do research. My ultimate goal is to combine research and teaching.

“My research is in the Eliminate Dengue lab. The research that we do is injecting Wolbachia bacteria into mosquitoes to block Dengue virus transmission, and my research is thinking about what kind of genes are regulated when mosquitoes have Dengue virus. I’m also working in the insectary raising mosquitoes for my experiments, which involves making sure I have the human volunteers to feed my mosquitoes.”
### Doctor of Philosophy

A PhD in the Faculty of Science allows candidates to independently formulate and investigate a research problem that will make a significant contribution to the discipline in which the candidate is enrolled. Monash Science PhD graduates are highly employable, with many pursuing careers in academia and industry around the world. Your PhD research project should be conceived from the outset as clearly achievable within three years equivalent full-time study, with candidates expected to complete their degree within four years of equivalent full-time study.

**Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.**

### Master of Science

The Master of Science degree allows candidates to undertake independent research in a specific area of science over a shorter period of time than a PhD. If you are unsure whether a PhD is right for you, a Master of Science can give you the experience of what studying for a doctorate might be like, while developing your skills and earning a degree that will enhance your employment prospects. If you decide that you are passionate about your research, the option of upgrading to a PhD after the first year of the degree is available.

**Fee and duration quoted are for study at Australian campuses only. Please contact Monash University Malaysia (info@monash.edu.my) for more information on their offerings.**

### Master of Philosophy

This master’s by research degree is available as an alternative to the faculty-based Master of Science (by research) degree. The Master of Philosophy permits students to show independence of thought and demonstrate their ability to carry out research in their chosen discipline.

Admission

Admission and application

Before you apply
Use the Monash Course Finder to check:
- the international entry requirements
- extra documentation required, for example, details of relevant work experience
- fees
- closing dates
- when courses start.

Applying for postgraduate degrees by coursework

When should I apply?
Apply as early as possible. Some courses have application closing dates two to four months prior to the start of the course, while others have quotas. Aim to have your application received by International Recruitment at least two to four months prior to the course start date. This allows time for your application to be processed and can help to ensure that you secure a place if your preferred course has limited places. Applying early also gives you time to get your student visas, which can take up to six months for some nationalities and countries.

Step 1: Apply
To apply online please refer to the following website for a step by step guide: monash.edu/study/apply/guide.

To submit hard copy application to Monash University Australia, complete the International Application Form located at the back of this guide, ensuring that all sections are completed and the declaration is signed and dated before you send the application.

You may wish to apply through a Monash registered agent. Some agents may charge a fee for additional services so please ask what these costs are before you make an appointment.

To find a Monash registered agent near you please visit monash.edu/agents

Step 2: Your application is assessed
When your application is received, Monash University will assess your application according to university entry requirements. If your application is successful, you will receive a conditional or full International Student Course Agreement (ISCA) via email.

Step 3: Accept your offer
To accept your offer, follow the instructions in your ISCA. You must complete, sign and return Part B of your ISCA along with payment and a photocopy of the personal details page of your passport before the offer lapse date.

Step 4: We send you an Electronic Confirmation of Enrolment (eCOE) and enrolment package
An eCOE will be emailed to you or your Monash registered agent when you accept your full ISCA or packaged ISCA (with no academic conditions specified) and we have undertaken the necessary student genuineness checks as required by the Department of Immigration and Border Protection (DIBP). You will need the eCOE to apply for a student visa.

After you have received your eCOE, you will receive an enrolment package that includes:
- a welcome letter
- Passport to Monash – your complete guide to living in Australia and studying at Monash University.

Step 5: Arrange your Student Visa
Monash University partners with the Department of Immigration and Border Protection (DIBP) in the Streamlined Visa Processing (SVP) arrangements. If you are eligible for SVP then your visa application will be assessed as if you are an Assessment Level 1 (AL1) student. For information on SVP and its criteria please refer to the following website: monash.edu/study/international/apply/visa.

To be eligible for Streamlined Visa Processing (SVP), you are advised not to commence the visa application process until you have been issued with your electronic Confirmation of Enrolment (eCOE).

If you are not eligible for SVP, your visa subclass and country assessment level will determine the visa application form you need to complete and the documents that are required to process your student visa. Assessment levels are available at www.immi.gov.au/allforms/pdf/assessment-levels.pdf.

Student visa applications may take up to six months or more to process depending on nationality and country of residence. Additional visa information and application forms can be obtained from an Australian Diplomatic Mission or from the Department of Immigration and Citizenship website (www.immi.gov.au/students).

Step 6: Plan your arrival
Make your own travel arrangements timing to arrive in Melbourne at least 14 days prior to enrolment. This will make it easier for you to settle in and prepare for the start of classes. If you wish to use our airport reception service and temporary accommodation service, you need to and return the request form available at monash.edu/study/international/preparing/reception.

Step 8: Start your studies
On arrival at Monash University, you will be assisted through the process of enrolment. Further details about the enrolment process are available at monash.edu/study/international/arriving/enrolment.

There will be a orientation program to help you familiarise yourself with the university and your new surroundings.

Applying for postgraduate degrees by research

PhD, Master of Philosophy, Master’s by Research, Professional Doctorate.

All research degree and scholarship applicants must apply using the online form at monash.edu/study/research

Applicants intending to study at the Sunway campus (Malaysia) should access the form through the campus website at, monash.edu.my/research

For applications to Sunway campus, (Malaysia) a fee of MYR100 is payable to Monash University Malaysia.

When should I apply?
Research degree-only applications may be submitted at any time of the year, but restrictions may apply to your course commencement date if you must complete any coursework as part of the degree. Applications for the university’s two research scholarships rounds close on 31 October and 31 May each year. Scholarship applicants will be notified of the outcome of their application approximately six to eight weeks after the closing date.

Step 1: Check your eligibility
Once you know the degree you are interested in, check your eligibility for the course and a scholarship. Refer to monash.edu/migr/apply/eligibility

Our scholarship rounds are very competitive. Most scholarships require the equivalent of a first-class honours degree from Monash University. You’re assessed for all scholarships and grants for which you are eligible when you apply.

Step 2: Find a supervisor and submit a research proposal
Research degree applications may only be submitted once you have obtained an invitation to apply from the faculty at which you will be enrolled. In order to obtain an invitation you will need to:
- complete an expression of interest and/or
- find a supervisor who agrees to supervise your research.

It may take you up to four weeks to obtain an invitation. You should initiate the process to obtain an invitation not less than four weeks prior to the date on which you expect to submit your application. Scholarship applicants are required to initiate this process no later than 30 April and 30 September for the mid-year and end of year rounds respectively.

Different faculties have different processes, so it is important that you read and follow the instructions that each faculty provides. This information is available at monash.edu/migr/apply/invitation

We encourage you to seek further information about the research expertise of academic staff through the websites and brochures of research centres, faculties, schools and departments.
Admission

Step 3: Apply online
Apply for entry into a research degree online at: monash.edu/migr/apply.
If you need assistance completing the form please check the guide to completing the online form at monash.edu.au/migr/apply/application/guide.
You apply for our research degrees and scholarships online using the same application form.

Step 4: Your application is assessed
Once you have submitted your application it will be assessed and approved by the Monash University Institute of Graduate Research, the faculty and academic unit at which you will be enrolled. The duration of this process can vary but should take no longer than six weeks. If your application is successful, you will be sent an offer pack including:
■ an offer letter
■ an acceptance form and instructions
■ visa information
■ registration and enrolment details.

Step 5: Accept your offer
Read your offer letter and offer pack carefully to know how to accept your offer and enrol in your course. International students need to pay their Overseas Student Health Cover and a course-fee deposit before we provide an electronic Confirmation of Enrolment (eCoE), which you need for your student visa application.

Step 6: Arrange a Student Visa
Monash University partners with the Department of Immigration and Border Protection (DIBP) in the Streamlined Visa Processing (SVP) arrangements. If you are eligible for SVP then your visa application will be assessed as if you are an Assessment Level 1 (AL1) student. For information on SVP and its criteria please refer to the following website: monash.edu/study/international/apply visa.

To be eligible for Streamlined Visa Processing (SVP), you are advised not to commence the visa application process until you have been issued with your electronic Confirmation of Enrolment (eCoE).

If you are not eligible for SVP, your visa subclass and country assessment level will determine the visa application form you need to complete and the documents that are required to process your student visa. Assessment levels are available at www.immi.gov.au/allsforms/pdf/assessment-levels.pdf

Student visa applications may take up to six months or more to process depending on nationality and country of residence. Additional visa information and application forms can be obtained from an Australian Diplomatic Mission or from the Department of Immigration and Citizenship website (www.immi.gov.au/students).

Step 7: Enrolment pack
After accepting your offer to join the Monash research community, you must formally enrol. Details of the enrolment process you need to follow will be provided in your letter of offer. International research candidates complete their enrolment once they have arrived on campus.

English language requirements

English language requirements for coursework degrees
All students who apply for a Monash University course must satisfy English entry requirements. Different English entry levels apply to Monash courses.

If a student has completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered.

For more information regarding admission to coursework courses and units of study procedures please refer to the following link: www.policy.monash.edu/policybank/academic/education/admissions/admission coursework-courses-units-ofstudy-procedures.html.

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements.

English language requirements for research degrees
Research degree applicants must demonstrate successful completion of a course of tertiary studies of at least two years’ duration conducted entirely in English and involving formal assessment of written work in a country where English is the official language. Evidence in the form of a letter or certificate issued by the university Registrar’s office will need to be provided. Studies must be completed within the five-year period prior to application.

For applications to the faculties of arts and law (for degrees by research), studies must be completed within the two year period prior to application.

Applications where studies have been conducted entirely in English and involving formal assessment of written work in a country where English is one of two or more official languages of that country are considered on a case by case basis.

The World Factbook located at www.cia.gov/library/publications/the-world-factbook lists the official languages of all countries.

English is the language of instruction
Postgraduate coursework applicants can meet the English language requirement if they have undertaken the following studies at an institution where English is the language of instruction, communication and assessment for the entire institution by satisfactorily completing:
■ the equivalent of one standard full-time year (48 Monash credit points) of postgraduate study which must be taken within 2 years prior to the course commencement date
■ the equivalent of a minimum of three standard full-time semesters (72 Monash credit points) at Australian VET diploma level or higher which must be taken within 2 years prior to the course commencement date.

Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

English Proficiency Tests
The following English proficiency tests are accepted by Monash University:
■ Academic IELTS (International English Language Testing System). For more information visit www.ielts.org
■ Internet/Paper Based TOEFL (American Test of English as a Foreign Language). For more information visit www.ets.org
■ Pearson Test of English (Academic). For more information visit www.pearsonpte.com
■ Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE). For more information visit www.cambridgeenglish.org

Monash University will only accept English proficiency tests taken within 24 months prior to the course commencement date.
### English Language Categories

Postgraduate English categories for IELTS and TOEFL are detailed in the below table. Refer to the English category column in the 'Entry requirements by faculty' section from page 64 of this guide.

### Monash English Bridging (MEB) – for postgraduate

The Monash University English Language Centre (MUELC) offers MEB to students who have met the academic requirements for direct entry into Monash University postgraduate courses, but have narrowly missed the English language requirements.

Upon successful completion of MEB, students will gain the proficiency needed to succeed at Monash University and have guaranteed entry into selected university postgraduate courses.

Please note MEB is not accepted for entry into all postgraduate courses. Entry requirements for Monash University are subject to change.

<td>Doctor of Philosophy</td>
<td>J</td>
<td>The PhD is a university award administered by the Monash University Institute of Graduate Research. For either mode, the minimum qualifications for admission to PhD candidature are: a bachelor’s degree (at least four years of full-time study), which normally includes a research component in the fourth year, leading to an honours degree class 1 or 2A level; or a course leading to a master’s preliminary qualification at a level rated by the faculty as equivalent to an honours class 1 or 2A; or a master’s degree that entailed work, normally including a significant research component, at least equivalent to an honours degree. Under exceptional circumstances, the Graduate Research Committee may accept candidates with a degree of a lower grade than honours 2A if they have demonstrated an ability to undertake research at the PhD level. Applicants for the studio research PhD must be accompanied by 12 – 20 images of recent original work, clearly numbered, with a corresponding list of details attached.</td>

Law

Coursework | English category | Entry requirements/Admission restrictions
--- | --- | ---
Master of Commercial Law | C | A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience; or An undergraduate degree or equivalent qualification in any discipline and at least two years of relevant work experience.

Master of Human Rights Law | C | Relevant work experience: To adequately demonstrate your experience, please ensure that you have outlined your job title, the organisation name and department and the type, the number of employees, the duration of your tenure and the type (e.g. full time, part-time, casual), a description of the tasks for which you were responsible, and how they relate to the units you may be interested in studying or how they relate to analysis, problem-solving and the logical development of arguments in writing. You are required to submit one original employment reference that supports your CV (if you were self-employed, you should submit original references from two clients). You should also provide a URL of your organisation.

Master of Intellectual Property Law | C | A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience. Relevant work experience: To adequately demonstrate your experience, please ensure that you have outlined your job title, the organisation name and department and the type, the number of employees, the duration of your tenure and the type (e.g. full time, part-time, casual), a description of the tasks for which you were responsible, and how they relate to the units you may be interested in studying or how they relate to analysis, problem-solving and the logical development of arguments in writing. You are required to submit one original employment reference that supports your CV (if you were self-employed, you should submit original references from two clients). You should also provide a URL of your organisation.

Master of Laws | C | A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience. Relevant work experience: To adequately demonstrate your experience, please ensure that you have outlined your job title, the organisation name and department and the type, the number of employees, the duration of your tenure and the type (e.g. full time, part-time, casual), a description of the tasks for which you were responsible, and how they relate to the units you may be interested in studying or how they relate to analysis, problem-solving and the logical development of arguments in writing. You are required to submit one original employment reference that supports your CV (if you were self-employed, you should submit original references from two clients). You should also provide a URL of your organisation.

Master of Laws (Jural Doctor) | C | An undergraduate degree, in any discipline. Selection is a competitive process made primarily on academic merit. As a guide, an undergraduate degree with a minimum GPA of 5.2 on a 7-point scale is required to be considered for a full-fee place. Consideration may also be given to a subsequently completed degree with required grades. For applicants who have not completed their studies within the past eight years, consideration may be given to personal and professional achievements, communication skills and motivation and reasons for undertaking the course. A limited number of Commonwealth Supported Places (CSP) are awarded on academic merit alone. The minimum requirement to be considered for a CSP is a GPA of 6.4. However, the actual GPA required depends on the number and standard of applications received during that selection period. Students wishing to transfer from a JD course at another university are assessed on their entire academic history.

Master of Regulatory Studies | C | A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience; or An undergraduate degree or equivalent qualification in any discipline and at least two years of relevant work experience.

Master of Workplace and Employment Law | C | Relevant work experience: To adequately demonstrate your experience, please ensure that you have outlined your job title, the organisation name and department and the type, the number of employees, the duration of your tenure and the type (e.g. full time, part-time, casual), a description of the tasks for which you were responsible, and how they relate to analysis, problem-solving and the logical development of arguments in writing. You are required to submit one original employment reference that supports your CV (if you were self-employed, you should submit original references from two clients). You should also provide a URL of your organisation.

Research

Doctor of Juridical Science | E | A Bachelor of Laws with a minimum of honours 2A; or a minimum average level of distinction in four Master of Laws degree units; or other qualifications which the Graduate Research Committee is satisfied are equivalent to a satisfactory substitute; and to the satisfaction of the Graduate Research Committee, have the high level of research and writing competence required for the degree.

Doctor of Philosophy | E | A bachelor’s degree with honours with a grade of H1 or H2A, or an equivalent qualification considered appropriate by the Monash University Institute of Graduate Research.

Master of Laws (Research) | E | A degree in Bachelor of Laws with upper H2B (a mark of 65 or above) in an honours year; or an equivalent legal qualification at a level considered appropriate by the Monash University Institute of Graduate Research (MIGR).

Master of Philosophy | E | Qualified for a bachelor’s degree with a minimum upper H2B (a mark of 65 or above) in an honours year in a relevant field or its equivalent; or qualifications which in the opinion of the Monash University Institute of Graduate Research (MIGR) are equivalent or satisfactory substitute.

Medicine, Nursing and Health Sciences

Course | English category | Entry requirements/Admission restrictions
--- | --- | ---
Bachelor of Medicine and Bachelor of Surgery (Honours) (Graduate Entry) | D | Applicants must have completed or be in the final year of a bachelor’s degree with a significant biomedical science component. Applicants must have achieved a weighted GPA of 5.5 out of 7.0 in their degree to be eligible. Please see http://med.monash.edu.au/medical/gippsland/mbbp-pathways.html for information.

Master of Biomedical Science Preliminary | J | Applicants must have completed a bachelor’s degree in a relevant field with an average of 60% or higher in at least 24 points of third-year level relevant units. Applicants must not have failed an honours degree. Students applying for admission based on comparable qualifications will need to demonstrate that they have achieved an appropriate standard in comparable studies. The entire academic record will be examined, with a focus on the final year of studies.

Applications for this course should be made directly to Monash or via a Monash-registered agent.

Helping you get into Monash

To succeed at Monash, you will need excellent English language skills.

The Monash University English Language Centre is dedicated to preparing students for success by helping them gain fluency in English and confidence in the academic skills required at Monash.

The Centre offers three different programs, all designed to meet the specific requirements of the Monash course you’re aiming to enter. When you apply, we will assess your present skills and place you in the best program for your level.

> Monash English (ME) – a program with flexible duration designed to build on students’ current English proficiency and prepare them for entry into MEB or the University.

> Monash English Bridging (MEB)* – a 10 or 15-week program for students who have met the academic requirements for Monash but have narrowly missed the English language requirements. MEB prepares students for the English and academic expectations of Monash.

> Introductory Academic Program (IAP) – a five-week program for students who have received a full offer to Monash University. IAP is focused on further enhancing the study skills required for success at Monash.

For entry requirements, detailed course information and intake dates visit monashcollege.edu.au/english

Choose your English pathway

Enter with a Monash English Placement test or an IELTS (or equivalent) score -> Monash English

Enter with an IELTS (or equivalent) score -> Monash English Bridging*

Enter with a full offer to Monash University -> Introductory Academic Program

IELTS Test

Postgraduate degrees at Monash University

* Not accepted for entry into all postgraduate degrees.

The benefits of English preparation

1. Learn not only how to speak in English, but also to think in English.
2. Be immersed in English, practise every day by living in Melbourne and become familiar with the city and public transport before you start.
3. Be confident in the Monash teaching and learning style before you commence your degree. Benefit from our student-centric teaching style, giving you access to your tutors for immediate and personalised feedback.
4. Be better prepared for your Monash studies by learning academic skills essential to all degrees such as:
   - how to write essays and academic reports
   - how to reference your sources
   - how to deliver presentations.

By successfully completing the Monash English Bridging pathway, Ali Hani is now studying his PhD in Anatomy and Developmental Biology at Monash University. Watch Ali share his journey online at mona.sh/vuMhL.
Complete this form if you are an international student applying for an undergraduate or postgraduate course at one of Monash University’s Australian campuses.

A non refundable application fee of A$100 must be paid when you submit this form.

Do not use this form for Monash research degrees. The correct form is available at monash.edu/migr/apply

PLEASE WRITE CLEARLY IN BLACK INK USING CAPITAL LETTERS IN ENGLISH

Section A: Your application

1. Are you a citizen of Australia or New Zealand or a permanent resident of Australia?  Yes No
   If YES, do not fill in this form. Instead refer to www.vtac.edu.au

2. Do you have a Monash student ID number?  Yes No
   If YES, please state

3. Are you a currently enrolled Monash student?  Yes No

4. Are you currently in Australia?  Yes No

Section B: Personal details

We will contact you by email, post or telephone. To avoid delays in your application, it is important you complete ALL of your details clearly including your email address. Your name and date of birth should match those in your passport. If you apply through an agent, ensure all of your details are also provided in addition to those of the agent.

Family name:    Date of birth:    Male    Female
Given names:    

Permanent address in home country (required) must include postcode:

Telephone:    Mobile:    
Fx:    Email (Mandatory):    

Address for correspondence (only if different from your permanent address in your home country – not including agent’s address):

Telephone:    Mobile:    
Fx:    Email (Mandatory):    

Monash Registered Agents

If you apply through an agent please ensure that your agent is registered with Monash University or you may experience delays in your application. For details of registered agents in your country please go to www.msr.monash.edu.au/monash_agents.

Agency name:    Registered Agent’s Stamp
Country:    
Agent staff name:    
Email (for correspondence):    
Telephone:    

Section C: Citizenship and other information

Country of citizenship (as stated in passport):    Country of birth:    

You must submit a translated, certified true copy of the personal details page of your passport or birth certificate.

Have you applied for OR do you hold any type of Australian visa:  Yes No

Visa type:    Expiry date (if applicable):    

Have you been refused an entry visa to any country:  Yes No
   If yes, please attach evidence.

Which Australian Immigration Office issued your visa?
Have you breached any visa conditions in any country?:

☐ Yes  ☐ No  If yes, please explain:

Do you have any medical or health issues that may prevent you from obtaining your visa?

☐ Yes  ☐ No  If yes, please explain or attach relevant documentation.

In answering this question go to www.immi.gov.au/allforms/health-requirements that lists medical and health conditions of concern to the Australian Government. Also note that health insurance in Australia will not extend to a pre-existing medical condition.

Do you have any physical or mental health condition or other issue which may prevent you to undertake full time study?  

☐ Yes  ☐ No

Have you been issued a protection visa in any country to date?  

☐ Yes  ☐ No  If yes, please attach evidence. Translated into English (if required) and certified.

Have you been convicted of any crime or offence in any country?  

☐ Yes  ☐ No  If yes, please provide ALL relevant details. Translated into English (if required) and certified.

Section D: Course preferences

Choose up to three courses you would like to study and list them in order of preference. Check the entry requirements and prerequisite subjects for each to see if you qualify. If you meet the requirements of your first choice, you will not be assessed for your second and third choices. If you do not meet the entry requirements of any of your preferences your application will be automatically assessed for alternative or pathway courses within the relevant study discipline. Use www.monash.edu/coursefinder to assist in your selection.

Campus codes: Berwick BE, Caulfield CA, Clayton CL, Parkville PA, Peninsula PE

Section E: Students with disabilities

Do you have a disability, impairment or long-term medical condition that may affect your studies?

☐ Yes  ☐ No

If yes, Monash will require translated and certified medical documentation from a relevant treating professional outlining the impact of your condition on your ability to meet the academic demands in the university environment. Disclosure of disability is treated confidentially and will not be used to disadvantage you. The Disability Liaison Unit at Monash may contact you to discuss the services available. For more information, visit: www.monash.edu/equity-diversity/disability.

Section F: English language proficiency

You must provide proof of your English proficiency to the required standard of your chosen course. There are a number of ways to satisfy these requirements. For details, visit: www.policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html. Some of the main pathways are:

**English as the language of instruction**

You have studied in an institution where English is the language of instruction and assessment for the entire institution. Applicants are required to provide evidence from the institution on official letterhead and signed by the registrar (or other authorised person) of the educational institution to the satisfaction of the Academic Board.

**Academic IELTS/TOEFL/PEARSON TEST OF ENGLISH (ACADEMIC)**

Attach original results or documents (request results to be sent to Monash University by testing centres). Please note that only results achieved within two years prior to the course commencement date will be considered. If you have not yet sat an ACADeMIC IELTS/TOEFL/PEARSON TEST OF ENGLISH (ACADEMIC) exam please indicate when you will sit one below.

☐ I will sit/have sat an English language proficiency test

☐ ACADEMIC IELTS  ☐ TOEFL (Paper Based/Internet Based)  ☐ PEARSON TEST OF ENGLISH (ACADEMIC)

Date taken: __/___/____  OR  __/___/____

☐ I will apply for a Monash English Language Centre course in Section G.

If you narrowly missed the course English requirements, you may be eligible for Monash English Bridging packaged with a direct entry into your desired course. If so, Monash will indicate this in your letter of offer.

Section G: Application for additional English studies and university preparation

Monash English Placement Test

The Monash English Placement Test is ideal for students who do not have an IELTS or approved international test score. The test provides an accurate calculation of the number of weeks of Monash English you will need to meet the requirements of your Monash destination course. The MEPT must be accompanied by a Monash University or Monash College application form. The MEPT is available from registered Monash agents http://register.monash.edu/agents-database.

Additional tuition fees apply for Monash University English Language Centre courses. For details of fees, courses and start dates, visit: www.monashcollege.edu.au/englishlanguage
Section H: Academic qualifications

Check the academic/English entry requirements, prerequisites and additional requirements for the courses for which you are applying. Additional requirements include submission of a statement of purpose, curriculum vitae, work reference letters, folio, supplementary forms, additional faculty application forms, interviews and auditions.

For undergraduate entry requirements refer to the admissions tables in the Monash University Undergraduate Course Guide for international students or the Monash Course Finder.

For postgraduate entry requirements refer to the Monash Course Finder (www.monash.edu/coursefinder).

Include details of your previous academic qualifications in the relevant sections below. Please ensure commencement and completion dates are specified, or if you are yet to complete your studies, please include your intended completion date. You are also required to supply supporting translated and certified documents to verify your academic qualifications.

Are you transferring within the first six months of your principal course in Australia?

Your principal course is the main course of study to be undertaken where you have been issued a student visa for multiple courses of study.

The principal course would normally be the final course of study. If yes, please attach a release letter from your current provider.

If your final year of study was completed more than six months ago, please attach separately a detailed account of activities/work experience undertaken since then.

Section I: Required documentation

Certified copies of academic qualifications must be attached to this application, including academic transcripts, graduation certificates and grading systems. If the qualifications are in a language other than English, please also supply certified translated copies. Monash prefers NAATI qualified translators. For more information on NAATI translators, please see: www.naati.com.au.

If the course you have applied for requires work experience please provide a translated and certified copy of your curriculum vitae along with work reference letters issued by your previous employer on original company letterhead stating your job title, the basis of employment (full-time/part-time), a precise description of duties performed, duration of your employment (including dates), and the full name, title and signature of the writer.

Monash University only accepts faxed or emailed certified documents sent via Monash Registered Agents. If you are a direct applicant (and did not apply through a Monash Registered Agent), you will be required to send your original certified documents by mail. All documents submitted with your application remain the property of Monash University.

Certification of documents

All documents submitted for assessment must be properly certified on every page.

Who can certify documents?

Documents submitted within Australia: Solicitor, pharmacist, justice of the peace, member of the police force, doctor, school principal, bank manager, chartered accountant

Documents submitted outside Australia: Monash University registered agent, Monash staff member, solicitor, commissioner for declarations, government official, public notary, university staff (head of department, dean, or registrar)

Applicants have the option to ask their current or previous education institution to send copies of their academic transcripts, graduation certificate and grading systems direct to International Recruitment Services in a sealed envelope sent directly from the institution.

What does the certifier need to do? Approved certifier (from list above) must sight the applicant’s original academic transcripts, graduation certificates and grading systems etc. and check that the copies are true and unchanged copies of the original documents.

The certifier must then certify every page of the documentation as follows:

1. Certifier must write a statement acknowledging or apply a stamp that shows they have sighted the original documents using words such as “certified true copy of the original” OR “original sighted”.
2. Certifier must sign the document.
3. Certifier must write their full name.
4. Certifier must apply the agent/organisation stamp.
5. If the certifier is not a Monash Registered Agent, the position title of the certifier must be indicated.
6. Certifier must date the document.

If you have a Chinese qualification, documents submitted for assessment must be:

- Certified by the Notary Public Office. Notary certification must include a certificate stating that translations of all documents in to English are authentic and in conformity with the original in Chinese; OR
- Your transcript/s, degree certificate and graduation certificate/s can be sent to Monash, International Recruitment Services in a sealed envelope directly from your university; OR
- Photocopies of original notarised documents can be submitted by a registered agent. Documents must be certified by the agent. Information regarding registered agents can be viewed at: www.msr.monash.edu/monash_agents.

Monash University reserves the right to refuse documentation on the grounds of incorrect certification and translation.
Section J: Credit transfer
Do you wish to apply for credit transfer/advanced standing from your previous studies? □ Yes □ No
If you have ticked yes, please provide the following:
1. Complete the Credit Transfer Application Form available at www.monash.edu/service-centre/assets/docs/forms/credit.pdf.
2. Submit detailed course syllabus/unit outlines/curriculum for the units your are seeking credit exemptions for.
Further information may be requested from you if your previous course/institution has not been previously assessed by Monash University for credit evaluation assessment.

Section K: Scholarship/sponsorship information
Have you applied for a scholarship/sponsorship from an organisation external to Monash University to support your studies? □ Yes □ No
Please state the name of the external scholarship/sponsorship:
What is the status of your external scholarship/sponsorship application? □ Approved □ Pending □ Not approved
If the external scholarship/sponsorship has been approved please provide a copy of the official letter with this application.

Section L: Application fee payment
You can pay the A$100 application fee by credit card, money order or bank draft payable to Monash University.
Bank drafts/money orders will need to be mailed or delivered in person to International Recruitment Services. Please ensure you include your full name and date of birth on the back of the bank draft/money order.
Credit card payments can be made at the following link: www.monash.edu.au/fees/payment/payment-options.html.
If you have made payment using the online credit card service (from the above link), please print a copy of the payment confirmation email and attach to this application form upon submission.
If your A$100 application fee has been waived by Monash recruitment staff please insert the valid fee waiver promotion code or obtain the recruitment staff signature here:
Staff signature: ___________ Waiver promotion code: ___________

Section M: Privacy and student declaration
General privacy statement:
The information collected on this form is used to assess your application for entry to a Monash University course. It is also used to create an enrolment record on the student database, to prepare statistical analysis and to inform you about your course and other university courses/events. If you do not complete all the questions on this form, it may not be possible to process your application. Personal information may be collected from or disclosed to relevant bodies for the verification of your previous qualifications, and it may be disclosed to government agencies (e.g. DIWP), as required by legislation or pursuant to obligations under ESOS Act 2000 and the 2007 National Code of Practice or for your visa application. Information may be shared with the registered agent you appoint to assist with your application for entry or visa processing. You have the right to access personal information that Monash University holds about you, subject to legislation, by contacting the Monash University privacy officer at sss.privacy@monash.edu.
Privacy legislation only applies to students who study in Australia. Due to privacy regulations we are unable to disclose information to any other third parties such as friends, relatives and parents. All documents provided to Monash University become the property of the University and will not be returned to you.

Declaration
I warrant that the information on this form, or provided in support of my application, is correct, complete and up to date in every detail. I acknowledge that the provision of incorrect information or the withholding of relevant information relating to my application, including academic transcript/s, might invalidate my application and that the University may refuse to assess my application, withdraw an offer of a place or cancel my enrolment in consequence. Should the University determine that I have submitted a false document, I consent to the University disclosing this information to other relevant tertiary institutions.
I consent to any educational institution at which I have previously been a student and/or my current or any past employer providing Monash University with information which that institution or employer holds about me for the purpose of Monash verifying my grades and/or qualifications or experience.
I declare that I am a Genuine Temporary Entrant (GTE) and a Genuine Student and that I have read and understood the conditions in relation to these requirements as defined on the following website: www.immi.gov.au/students/_pdf/2011-genuine-temporary-entrant.pdf. I understand that if the university forms the opinion that I am not a Genuine Temporary Entrant it may refuse to assess my application, withdraw an offer of a place or cancel my confirmation of enrolment.
I am aware of the estimated total course fees at Monash University and living costs for my stay in Australia. I understand that the total course fees do not cover the cost of books, materials, field trips or any additional cost related to my course, unless otherwise specified.
I declare to have sufficient funds to support myself and my family unit members (if applicable) for the TOTAL period of my stay in Australia including proposed course fees for myself and any school-aged family members, Overseas Students Health Cover, living costs and travel costs, regardless of whether my dependents intend to accompany me in Australia.
I agree to abide by the statutes, regulations and policies of Monash University.
I have read and understood the above conditions and accept them in full.

Parent or guardian contact details:
Name of parent/guardian: (circle as applicable)
