Our rankings

On a number of scales we’re regarded as a premier university.

Influential alliances

GROUP OF EIGHT

Monash University is a member of Australia’s Group of Eight. The group’s members produce more than 70 per cent of all basic research conducted at all of Australia’s public universities.

M8 Alliance

Monash University is the only Australian member of the prestigious M8 Alliance of Academic Health Centres and Medical Universities. This global grouping includes Johns Hopkins University, the Sorbonne in Paris, Imperial College London and the Charité in Berlin.

Monash is a five-star plus institution. Receiving 5-star ratings in a range of qualities from employability to sport facilities and community engagement. This means we are not just world-class but an elite destination to which the very best students and faculty worldwide aspire.

Global recognition

IN THE TOP 100 OF WORLD UNIVERSITIES

IN THE TOP 50 UNIVERSITIES WORLDWIDE

IN 18 SUBJECTS

QS World University Rankings by Subject, 2014
Monash University is the first Group of Eight university to have achieved the esteemed ‘triple crown’ business school accreditations by AACSB, EQUIS and AMBA. These globally-recognised accreditations place the university in the elite ranks of the 1 per cent of business schools worldwide with ‘triple crown’ accreditation.

As published in The New York Times, leaders from the world’s most successful companies consistently rate Monash as a preferred university from which to hire graduates.¹

¹ Based on Global Employability University Rankings, 2011 – 2013
Monash University: Undergraduate Course Guide 2015

Who was Sir John Monash?

Sir John Monash was an Australian leader, statesman and nation-builder who contributed to almost every level of Australian life.

As well as a long and distinguished military career, Sir John was a renowned engineer and public administrator. He also features on the Australian $100 note.

He was a man who used education to turn his natural talent into ability, allowing him to realise his daring ambitions. Not only do we carry Sir John’s name, we also take inspiration from his philosophy of life.

Although Monash University is named after an individual, the University is a public government-funded and accredited institution.

Our motto, Ancora Imparo ("I am still learning"), captures the essence of his approach to life.

“Adopt as your fundamental creed that you will equip yourself for life, not solely for your own benefit but for the benefit of the whole community.” – Sir John Monash

Melbourne – the world’s most liveable city.

In a ranking of cities all around the world, Melbourne is consistently ranked number one as the world’s “most liveable” city (Economist Intelligence Unit 2011 – 2013). This ranking is based on standards of education, infrastructure, culture and environment, healthcare and stability.
Live in Melbourne, Australia

Melbourne has a long-held reputation for welcoming international students and providing them with memorable study experiences.

It offers a high standard of living and first-class education, healthcare, public transport, employment rates, safety and security. The city is a rich, multicultural landscape of ideas, skills and personalities. The people are cosmopolitan, fun-loving and friendly. Melbourne hosts a diverse economy known for its strengths in finance, information communications technology, biotechnology, research, manufacturing, automotive, aviation/aerospace and creative industries.

With a population of 4 million there are many opportunities for casual work while studying.

In your spare time the city has something for all tastes, from calm parks and gardens to the edgy arts and music scene. Melbourne is also Australia’s restaurant capital, with more than 3000 restaurants offering cuisines from around the world. Melbourne is home to many international sporting events and festivals and hosts a range of cultural festivals.

visitmelbourne.com
Monash University has five Australian campuses, as well as campuses in Malaysia and South Africa, a Joint Graduate School in China, a learning centre in Prato, Italy and a research centre in Mumbai, India.

We also have a network of university partners across the globe, including the University of Warwick in the United Kingdom.

**Transport to Monash**

**MONASH shuttle bus**
During the academic year, a free Monash Shuttle bus service runs in both directions from:
- Clayton to Berwick
- Clayton to Caulfield
- Clayton to Peninsula
- Frankston Station to Peninsula.

**After-hours buses**
Clayton and Caulfield buses run to designated stops on Monday to Friday evenings from 5.30pm until late. This is a free service for current Monash students.

www.fsd.monash.edu.au/security/your-campus

**Public bus**
All Australian campuses are accessible by public transport. Public transport timetables and maps can be found at ptv.vic.gov.au

**Car**
Parking is available at or near all Australian campuses. Monash Rideshare is a carpooling scheme for students and staff travelling to Berwick, Caulfield, Clayton and Peninsula. Car poolers are eligible for free parking.

**Bicycle**
For details of local bicycle paths and bicycle lanes, refer to the Bicycle Network Victoria website at www.bicyclenetwork.com.au. Designated bicycle parking is provided at all campuses.
Located three kilometres north of Melbourne’s city centre, the Parkville campus houses the Faculty of Pharmacy and Pharmaceutical Sciences, with first-class teaching facilities, innovative learning spaces and research laboratories. The campus is home to the Centre for Medication Use and Safety and the Monash Institute of Pharmaceutical Sciences, which comprises the largest and most experienced group of pharmaceutical scientists in Australia.

Caulfield is the second-largest Monash campus, with about 13,000 students. It’s the main centre for the faculties of Business and Economics, Art Design & Architecture, and Information Technology. Caulfield is nine kilometres from the Melbourne city centre and adjacent to Caulfield train station. The campus has a gym, library and cafes, and is close to several shopping precincts.

Clayton is the largest of Monash’s campuses. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres. The campus can be reached by public transport utilising an extensive bus network combined with train stations in surrounding suburbs.

Berwick is a small, friendly campus with about 2000 students approximately 40 minutes south east of Melbourne. It’s a five-minute walk from the heart of Berwick’s specialty shops, cafes and business services. Berwick campus is a centre for the Faculty of Education.

The Peninsula campus is about 40 minutes south of Melbourne. It is a centre for nursing and paramedic training and early childhood and primary education, and is also being developed as a centre for health science research. There is a bus connection to Frankston train station, and a free shuttle bus runs between Peninsula and Clayton campuses.

For more information go to monash.edu/campuses

All times and distances are approximate and use the most direct driving route from the Melbourne CBD.
At Monash, we let you choose how you study. We provide a range of courses that provide different professional outcomes. We’ll be there to guide you through all the possibilities, so you can graduate with an internationally recognised qualification that can take you anywhere.

Take advantage of our global perspective, exceptional facilities, world-class teachers and industry-based learning.

**Range of majors**
A comprehensive course is flexible and evolves as your interests develop in particular directions.
You can start with units from a range of areas of study and through your choices progressively focus on one or two majors and minors.
Monash guides you through this process so you graduate with a degree that combines breadth and depth of expertise relevant to your interests and aspirations. Your degree may show your majors.

**Specialist focus**
A specialist course offers you focus and depth through specialisation in your area of interest from the start of your studies.
Some undergraduate specialist courses are designed to prepare you to practise in a specified regulated profession upon graduation. Others concentrate on developing particular expertise but may be applicable to a broader range of career options.
You will graduate with a degree that reflects your chosen specialisation.

**Still considering your options?**
Visit monash.edu/futureyou to discover what career or course matches your personality.
FutureYou. The incredibly wise careers guide.
Double degree courses

A double degree course lets you gain skills in two different areas of interest, such as arts and law or science and engineering.

This lets you tailor your qualification to fit your diverse interests and talents and doubles your options when you graduate.

Double degree courses can take up to two years less than if you took the two courses one after the other. This is because the electives from each degree course count towards the other.

You will graduate with two distinct degrees.

Professional entry graduate course

Some courses at Monash prepare you for direct entry to a profession upon graduation with a bachelor's degree.

However, you can also choose a professional entry postgraduate course after you have completed your bachelor's degree that also prepares you for entry to a regulated profession. These are usually master's degrees.

Fields where we offer professional entry courses for graduates include architecture, law, accounting, teaching and nursing. In some professional fields, including law, teaching and nursing, we offer you both options.

See page 18 for more information on postgraduate options.

If you’d like to discuss your options email us at study@monash.edu and let us help you make your choice.
Get more than a degree

While your degree tells an employer *what* you know, the experiences you have during and after your degree give them clues as to *who* you are.

Employers look for a range of things in new graduates: practical experience, people skills, communication skills, problem-solving, adaptability, and the potential for leadership.

Monash offers a range of opportunities to start building your career before you graduate, boosting your appeal to employers. Some of them offer industry-based learning built into the course. These help you to put what you have learned into action. Others are wider in focus and help you to develop the leadership skills, communication skills and problem-solving skills that employers value.

“...individuals, the Ancora Imparo program allows me to learn about leadership from an Australian point of view, broadening my understanding about the world. The program will also provide me with a sense of personal satisfaction as it encourages participants to share the training and experience gained with the whole community.”

Harin Tennakoon, Bachelor of Commerce and Bachelor of Engineering
Industry-based learning programs matched to your study

Professional recognition for your career
For some careers you must register with a professional organisation before you can practise. For instance, completion of the Bachelor of Nursing means you are eligible to register with the Nursing and Midwifery Board of Australia as a nurse. In most of these courses, practical experience is a significant part of your course. Courses that require you to undertake placements in the workforce include teaching, nursing, medicine, pharmacy and law.

Industry-based learning
Many of our courses offer industry-based learning within the degree. Options vary from semester-long subjects to facilitated internships and work experience programs. This experience will help you to understand where your strengths lie and give you insight into specialisations you may want to pursue.

Conditions apply.

Leadership programs
Along with knowledge, problem-solving and communication, leadership is one of the most important skills you can learn. We offer a range of student leadership programs to help you develop your ability to lead and inspire others.

Ancora Imparo
The Vice-Chancellor’s Ancora Imparo program is open to first-year students for participation in second year. Successful students are selected based on a 500-word essay on leadership. Over the course of the year they participate in a three-day residential workshop, forums and presentations, hearing from Australia’s most inspired leaders on the challenges facing effective leaders.

Other leadership programs
There are many other leadership programs run by faculties. Some programs are by invitation, based on your academic achievements, and others are open for application. A full range of leadership programs can be found at: monash.edu.au/about/leadership/student-programs

Expand your international experience
An international study experience shows employers that you are adaptable, resourceful and independently motivated. Your exposure to other cultures often broadens your capacity for creative problem solving.

As an international student, you can expand on your Australian study experience by taking an exchange, study tour, or international internship in another country.

- Monash has 130 partner universities in 30 countries, giving you the opportunity to study in USA, UK, Europe, China or Latin America.
- An intercampus exchange to our Malaysian or South Africa campus means you remain enrolled and receive credit for your overseas study towards your Monash degree.
- China exchange program – Gain experience in the economic powerhouse of China through an exchange with some of China’s most prestigious universities: Peking University, Shanghai Jiao Tong University, Fudan University, Tsinghua University, University of Science and Technology and more.
- International internships to build your work experience:
  - The CRCC Asia Internship China Internship Program is designed for students and graduates to complete a one to three-month internship in Beijing, Sanya, Shanghai or Shenzhen. Programs start every month all year round.
  - AIESEC Monash, an organisation run by students and recent graduates, offers Go Intern to students in their penultimate year. The Go Intern programs are highly competitive internships in areas of project management, marketing and human resources. Businesses range from large multi-nationals to small and medium enterprises. For 2013, AIESEC Monash offers internships specialising in Marketing and IT.
  - A study tour or conference – broaden your horizons by going on a faculty study tour in Italy, Middle East or Asia. Or attend a conference such as the Harvard World Model United Nations Conference.

Scholarships for exceptionally high achievers

At Monash, we believe in unlocking students’ potential to make a difference in the world.

Monash International Leadership Scholarship

The scholarship offers 100 per cent course fee remission to high academic achievers who are able to demonstrate their potential to be an ambassador for the University. The scholarship is open to prospective students who wish to study undergraduate or postgraduate coursework programs. Applicants are also assessed on a separate scholarship application containing a personal statement that must be submitted once they have received a full unconditional Monash course offer. Some courses and qualifications are excluded.

Monash International Merit Scholarship

This scholarship is offered to high achieving prospective and current international undergraduate or postgraduate students who achieve within the top 5 per cent of an international qualification (e.g. A Levels). The scholarship provides A$10,000 per 48 credit points (up to A$50,000) for the duration of the degree. Applicants are also assessed based on a separate scholarship application containing a personal statement that must be submitted once they have received a full unconditional Monash course offer.

For information about scholarships for overseas international students visit monash.edu/new-scholarships

Monash International Scholarship for Excellence

The Monash International Scholarship for Excellence is offered to the top 10 international undergraduate students who achieve an ATAR of 98 or above through IB or Australian year 12 systems in 2014. The scholarship provides A$10,000 per 48 credit points (up to A$50,000) for the duration of the degree. No applications are necessary. Students are automatically assessed for this scholarship.

For a complete list of scholarships offered by Monash University, including honours and research scholarships, scholarships for current students, faculty scholarships and scholarships supported by external providers, visit monash.edu/international-scholarships

Serena Teo, Bachelor of Pharmaceutical Sciences, recipient of the Monash International Leadership Scholarship. Watch Serena share her scholarship story online at mona.sh/tBHVM
Helping you get into Monash

To succeed at Monash, you will need excellent English language skills.

The Monash University English Language Centre offers three different programs, all designed to prepare you for academic study. When you apply, we will assess your present skills and place you in the best course for your level.

- Monash English (ME) – a program with flexible duration designed to build on students’ current English proficiency and prepare them for entry into MEB or University.
- Monash English Bridging (MEB)* – a 10 or 15-week program for students who have met the academic requirements for Monash but have narrowly missed the English language requirements. MEB prepares students for the English and academic expectations of Monash.
- Introductory Academic Program (IAP) – a five-week program for students who have received a full offer to Monash University. IAP is focused on further enhancing the study skills required for success at Monash.

For detailed course information and intake dates visit monashcollege.edu.au/english

Choose your English pathway

![Diagram showing the pathways to Monash University]

* Not accepted for entry into all undergraduate degrees.

The benefits of English preparation

1. Learn not only how to speak in English, but to think in English.
2. Be immersed in English, practise every day by living in Melbourne and become familiar with the city and public transport before you start.
3. Be confident in the Monash teaching and learning style before you commence your degree.

What to do if you don’t get the VCE English as an Additional Language (EAL) score you need

If you are a VCE international student and your VCE EAL score is between 25 and 29*, you may still be eligible for entry to Monash University through the successful completion of the Monash English Bridging (MEB) program.

Email study@monash.edu to find out more about your study options.

* This is only applicable to courses which require an EAL of 30 for direct entry. Some courses do not accept MEB as meeting English language requirements.

By successfully completing the Monash English pathway, Rafael Dextro is now studying biomedical science at Monash University. Watch Rafael share his journey online at mona.sh/iXnKC

For detailed course information and intake dates visit monashcollege.edu.au/english
Monash College. Your path to Monash University.

“The teachers (at Monash College) truly cared about the work I produced and were always there to encourage me to reach my potential. Thanks to my experience at Monash College, I am now pursuing a successful career as a journalist at the Australian Broadcasting Corporation.”

Devi Rajaram, Diploma of Arts, Monash College and Bachelor of Journalism (Honours), Monash University, now a journalist at the Australian Broadcasting Corporation

Our graduates are leaders

**Tim Costello AO**  
Bachelor of Jurisprudence, 1976,  
Bachelor of Laws, 1978 and  
Diploma of Education, 1979

Tim has been the CEO of Australia’s largest aid and development organisation, World Vision, since 2004. He is a leading spokesperson on issues relating to Australia’s response to global poverty and issues relating to social justice, social inclusion and strengthening communities.

**Dr Adeeba Kamarulzaman**  
Bachelor of Medicine and  
Bachelor of Surgery, 1987

Dr Kamarulzaman has dedicated her career to the prevention, treatment and research of infectious diseases and HIV/AIDS. In 2007, she established the Centre of Excellence for Research in AIDS (CERIA), one of the few dedicated HIV research centres in the region. She is also President of the Malaysian AIDS Council (MAC).

**Vice President Boediono**  
Master of Economics, 1972 and  
Doctor of Laws (Honorary), 2013

A renowned Economist and fiscal leader, Dr Boediono is one of Asia’s foremost authorities on financial governance. As Minister for Finance in the Sukarnoputri government (2001–2004) he presided over the rehabilitation of the Indonesian economy in the aftermath of the Asian Financial Crisis. He then became governor of the central Bank of Indonesia before resigning this post in 2009 to become the Vice President of Indonesia.

**James Lam**  
Bachelor of Arts and Bachelor of Laws,  
2004

James is the jet-setting host of one of China’s most popular television programs and the founder of burgeoning clothier Michelozzo. Splitting his time between Melbourne and Beijing, James also finds time to volunteer as part of the Monash Global Contacts Program and contributes to the Monash University Achieving Potential Fund, which provides scholarships and bursaries to Monash students to allow them to achieve their potential.

**Dr Dewi Fortuna Anwar**  
Doctor of Philosophy in Arts, 1990

Dr Anwar is currently Research Professor at the Indonesian Institute of Sciences, Chairman of the Institute for Democracy and Human Rights – The Habibie Center and Deputy Secretary for Political Affairs to the Vice President of the Republic of Indonesia. She has long been active in promoting equal opportunities for women in Indonesia and greater representation for women in government and politics, and was voted one of Indonesia’s most powerful women in 2007.

**Hubert Sie**  
Bachelor of Technology  
(Computer Science), 2003

While studying at Monash, Hubert founded electronics e-retailer CrazySales.com.au. Within five years of establishment, he went from selling his products at Sunday markets to running a company with over 100 employees in two countries and a turnover of over A$25 million.
Education goes beyond the classroom

Clubs and societies

Over 100 student-run clubs and societies run activities, events, competitions, productions, get-togethers, seminars, camps, conferences and more for over 10,000 student members. There is a wide variety of clubs on offer: academic, cultural, spiritual and special interest clubs. Our involvement in over 50 sporting clubs means you can get involved – try our athletics, board riding, gridiron, netball, rowing or bushwalking clubs.

Go to monash.edu/teammonash to learn more.

Some opportunities to be a part of Team Monash include:

- Amnesty
- Chinese Student Association
- Japanese Club
- Medical Undergraduates’ Society
- International Association of Students in Economic and Commercial Sciences (AIESEC)
- Juggling and Firetwirling
- Science Society
- Philosophy Society
- Physics, Astro and Maths
- Students’ Association of Singapore
- Big Band
- Persatuan Pelajar Indonesia Australia
- Choral Society
- Siam Smile Society
- Vietnamese International Students Club
- Monash Association of Debaters
- Engineers Without Borders
- and many more.

Volunteering

Volunteering in the community is a great way to spread the love and see life from another perspective. While helping others, you get some real life experience to build your confidence and resilience, to lead and organise, to identify issues and resolve problems, and a chance to make a difference in someone’s life. Monash has a Volunteer Gateway for these roles so you have access to a huge variety of volunteering opportunities – at the MS Colour Dash, at Ronald McDonald House, in orientation programs or perhaps in the Kenya Slums Youth Development Organization.

“I always wanted to gain skills and knowledge that would allow me to work with disadvantaged communities and make a difference in the world.”

Ame Pocklington, Bachelor of Health Science and Bachelor of Social Work
Accommodation at Monash

Moving to a new country to study can be daunting, especially if you are living away from family for the first time.

We want you to get the most out of your time at Monash. That’s why we offer a wide range of services that support you before and after you arrive in Australia. These include academic support, learning and language support, safety and security services, pastoral care, disability support and a free airport pick-up service to take you to your accommodation. Registration is required.

Find out more at monash.edu.au/study/international/support-services

Jackomos Hall on Clayton campus accommodates 300 residents in single private studio apartments.
Monash Residential Services (MRS) can help you find accommodation whether you decide to live on or off campus.

**On-campus accommodation**

On-campus accommodation gives you a convenient, safe and enjoyable living environment. Living close to campus facilities ensures easy access to classes, libraries and university life. It’s also a great way to concentrate on your studies, and you’re part of a community of people also committed to their courses. You become a part of the programs, activities and pastoral care we offer. It is a secure environment created by a 24-hour Monash security presence, and the costs are highly competitive with all rooms fully furnished.

Places fill quickly, so you should apply for accommodation as early as possible at monash.edu/mrs

**Off-campus accommodation**

The MRS off-campus accommodation service provides guidance, information, resources and advocacy to students of Monash University. The service assists with accommodation-related matters prior to arrival and during the entire time at Monash University.

We can help every step of the way on:

- how to source appropriate accommodation
- tenancy legal information on what tenants need to know prior to and during their tenancy
- support with any difficulties experienced with landlords, agents or housemates
- other accommodation-related matters.

For more go to: mrs.monash.edu/offcampus

**Cost of living**

It is a good idea to plan and prepare a budget before you arrive in Australia. Your tuition and study fees do not include personal costs such as accommodation, food, and other things you will need. These costs can add up to approximately A$22,900+ per year.

For more details visit monash.edu/cost-of-living

Honours

Honours is usually an extra year of study at the end of your degree. You normally apply for honours in your third year of study, but some courses include an honours year in their structure.

Honours will give you a competitive advantage in your career. Most importantly, honours will give you the chance to test all of your thinking, your skills and your knowledge by applying it to your own research project mentored by a Monash expert.

It will also give you an excellent preparation for a higher degree by research (research master’s, or the PhD) to further consolidate your communication and research skills, hone your project management and problem-solving ability, and make you stand out from the crowd as a future leader in your field.

For more information go to monash.edu/study/honours

Postgraduate degrees

You might want to step up in your career, change professional direction, pursue a career as a researcher or academic, or you might want to develop your interests further. Whatever the reason, a postgraduate degree can help you pursue your goal.

Professional entry graduate courses

Monash offers a range of postgraduate courses that prepare graduates to practise in a regulated profession. You can undertake these courses (which are usually at a master’s level) after you have completed a first degree in a different discipline. Areas include accounting, law, medicine, nursing and teaching.

For more information go to monash.edu/postgraduate

Some examples of professional entry graduate courses

- Master of Professional Accounting
- Master of Teaching
- Master of Laws (Juris Doctor)
- Master of Nursing Practice
Monash Art Design & Architecture (MADA) is a place of creative excellence and innovation. Operating out of the Caulfield campus, our vibrant faculty is at the forefront of education in creative arts, architecture and design disciplines.

monash.edu/mada

Yawen Hu
Bachelor of Architectural Design and Master of Architecture

Yawen is studying her Master of Architecture at Monash University, where she also completed her Bachelor of Architectural Design. In her second year, she was named best student of her class and also won the CK Designworks prize – a highly regarded architectural excellence award.

To read more about Yawen’s journey, go to monash.edu/mada/architecture/people.php
Bachelor of Architectural Design

At Monash, architecture is an intensely creative discipline. Creativity is the cornerstone of our three-year course leading to entry into the Master of Architecture, which qualifies you to start your professional practice. You’ll need two years professional practice before you can sit the exam to register as an architect.

Central to the course is the Design Studio, where you investigate ideas and experiment with design processes, mentored by academics and architects from around the world.

Career options

Architects influence where and how we live, study, work and play. They can revitalise a city, make housing affordable or help us live more sustainable lives.

Our graduates work in Australia and overseas, in private practices and for government. Some become specialists – in heritage buildings, sustainable design or commercial projects. They work on homes, complexes, entertainment precincts and purpose-built facilities.

Professional recognition

Upon completion of both the Bachelor of Architectural Design and the Master of Architecture, students will have achieved the Architects Accreditation Council of Australia (AACA) National Competency Standards applicable to university courses and will comply with the Royal Australian Institute of Architecture (RAIA) Education Policy Performance Criteria.

Double degree course options

Engineering (Honours)
Bachelor of Communication Design

Communication designers work with language, images, sound, motion and spatial forms.

This course offers creative studio practice where you develop your interests in print or digital media; in branding and identity design; in 2D and 3D design, motion graphics, audio-video and image-making.

Studies in design theory and criticism will help you generate ideas and develop core skills.

Career options

Graduates may work in design studios, advertising, media, gaming, film, television, publishing or corporate communications. Their work includes branding, typography, illustration, web and app design, packaging and animation.

Monash graduates are running their own studios, as well as designing for others. Their designs, typefaces, animations and illustrations appear worldwide and as part of iconic brands.

Bachelor of Industrial Design

Industrial designers embrace art and technology. They consider form and function to create products that are functional, beautiful and marketable.

In our studio-focused course, you explore innovation and aesthetics to design products that are user-friendly, sustainable, efficient and effective.

Guided by experts, you examine materials and manufacturing, and consider ergonomics and engineering to design products from research to prototype.

Career options

Industrial designers work with engineers, marketers and manufacturers to create products in a range of industries. There is particular demand for industrial designers in the automotive, electronics, furniture, packaging, exhibition, sporting and mining industries.

Monash graduates are taking leading roles designing for brands such as Facebook, Apple, Dyson and General Motors.

Double degree course options

Engineering (Honours)

Bachelor of Fine Art

The core of this program is the exploration and development of your artistic practice in a range of media, including drawing, painting, sculpture, installation, printmaking, performance, film, photography, digital technologies, sound, books, writing, jewellery and glass.

Study takes place in studio spaces with state-of-the-art facilities, and you work closely with recognised and emerging artists to develop the foundation for your career as an artist.

Career options

Many Monash graduates are successful practising artists, but there is a broad range of career options for students with a degree in fine art. Our graduates are using their skills in arts education, curatorship or administration in museums, galleries and community arts programs; they are working in art and design consultancies, theatres, advertising companies and conservation organisations.

Academic pathways

Diploma of Art & Design

The Monash College Diploma of Art & Design is the preferred pathway into the Faculty of Art Design & Architecture at Monash University. The program will give you vital academic and practical skills, such as folio development, that will help you succeed in your chosen degree.

For more information on the Diploma of Art & Design and entry requirements visit: monashcollege.edu.au/diplomas
Arts

With almost 10,000 students and over 40 areas of study, we are the largest faculty of our kind in Australia. One of the benefits of being so big is the extensive choice we offer you, not just in what you study, but where.

monash.edu/arts

Kat Muscat
Bachelor of Arts

Kat completed a Bachelor of Arts majoring in English and philosophy. She is the editor of Voiceworks – a national quarterly magazine that features exciting new writing and art by young Australians – and has also featured in the Emerging Writers’ festival, hosted panels for the Melbourne Writers Festival and run workshops at the National Young Writers’ Festival.

To read more about Kat’s journey, visit http://artsonline.monash.edu.au/future-students/recent-graduates

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/ug-subscribe. Or see monash.edu/coursefinder.
Bachelor of Arts

In arts, you have the freedom to create a course designed to fulfill your academic and career interests.

You choose from more than 40 areas of study, including cultures, languages, behavioural and social studies, communications, politics, human rights, and international relations.

You design your major area of study and interest so you build your ideal course.

Career options

Our graduates work in a wide variety of roles and industries, including journalism and publishing; public relations and communications; marketing and advertising; business research and consulting; foreign affairs and international trade; politics; human resources; environmental research and planning; counselling, social welfare — research, policy, planning; education; tourism and hospitality; performing arts, film and television; and library, museum and gallery administration.

Double degree course options

- Accounting
- Aerospace engineering (Honours)
- Banking and Finance
- Business
- Commerce
- Economics
- Education (Honours)
- Engineering (Honours)
- Environmental engineering (Honours)
- Laws (Honours)
- Management
- Marketing
- Music
- Science
- Social work
- Visual arts

Bachelor of Arts Scholars Program

The Scholars Program helps develop high-performing students. You build your ideal course, with all the options that our Bachelor of Arts degree offers.

Then, as a scholar, you benefit from additional options to help you structure your course around your academic interests and career goals, including an academic mentor, invitations to advanced seminars.

Career options

Career options are listed under our Bachelor of Arts degree. In addition, as part of the Scholars program you have the opportunity to develop industry connections while you are studying, through seminars and our mentoring program.

Bachelor of Letters

The Bachelor of Letters is a second undergraduate degree that allows students to specialise in an area of study relevant to their personal, professional or academic development. In the past, for example, engineers have undertaken studies in cultures and languages of countries with which they have trade relations, computer industry professionals have found studies in philosophy (particularly in logic) helpful, and secondary teachers in schools have benefited from developing another teaching discipline.

Career options

The addition of a Bachelor of Letters to your existing qualifications allows you to develop a second area of specialisation which makes you attractive to employers looking for the range of skills you offer.

Admissions

Entry requirements: p66 – 67
**Bachelor of Arts (English Language)**

This course is an explorer’s journey through history to investigate how English has developed in many societies. You analyse language structure, critically assess texts from a variety of perspectives, and develop advanced verbal and professional writing skills.

Linguistics, literary studies and English as an international language are the core areas of study.

**Career options**

As an English language and communications specialist, you open many career opportunities in a world highly reliant on understanding the effective dissemination of information through busy, noisy channels of communication.

Core areas of interest for many graduates include publishing, editing, writing, electronic media, public relations, communications, advertising and language assessment.

---

**Bachelor of Arts (Languages)**

This course gives you entry to languages, cultures and societies to prepare you for a world that increasingly needs skilled multilingualists.

Immerse yourself in a language and gain insights into language structure and the social and cultural aspects of the communities from which the language originates.

Studies include Chinese, French, German, Indonesian, Italian, Japanese, Korean, Spanish and Ukrainian.

**Career options**

With skills in a second language, you’ll be highly sought after in business, diplomacy, foreign affairs, politics, tourism and hospitality, and interpreting and translation.
Bachelor of Journalism

Study in all forms of journalism is available to help you find your niche in the rapidly developing world of new media.

You learn from industry professionals and academics about print, video, radio and online journalism in local to global contexts.

Advanced skills include research and communication for professional practice supported by studying the roles of journalism and the media.

Career options

Our journalism graduates have found work with The Age, ABC Radio, Channel Nine, Channel Ten, Austereo, and community and regional newspapers. There are opportunities in print, radio, television, publishing and electronic journalism within local, regional and international spheres.

Double degree course options

- Business
- Commerce
- Science

International

Bachelor of Arts (Global)

This course is about the effects of globalisation. You study 20th century history and 21st century challenges.

The core of the course is international studies and a global research project. You choose other units of study from the more than 40 areas offered.

As the course is about global culture, you spend from one to three semesters studying overseas.

Career options

With their understanding of global pressures and cultural diversity combined with well-developed language skills, our graduates enter a wide range of fields, including foreign affairs, immigration and customs; journalism, media and broadcasting; intelligence; recruitment; international trade and banking; and policy development.

They work for government, global and commercial organisations.

Double degree course options

- Commerce
- Science

Bachelor of Arts (International)

This course focuses on international relations, languages and intercultural communications.

You explore cultural heritage, interpreting cultures, philosophy, bioethics, social and cultural theory, global change and security, and health, wellbeing and social change.

The course offers language studies in Chinese, French, German, Indonesian, Italian, Japanese, Korean, Spanish and Ukrainian, along with international studies.

You also spend from one to three semesters studying overseas.

Career options

This course meets the demand for people skilled at understanding the challenges of global relations for global businesses.

Our graduates find roles in foreign affairs, intelligence, immigration, customs, trade, banking and manufacturing. As well as working for government and business, they work with Australian Red Cross, World Vision, CARE Australia, Oxfam, Amnesty International, World Wildlife Fund, Greenpeace and The Wilderness Society.
**Bachelor of Music**

At Monash, you learn from gifted musicians – including musician, conductor and composer Paul Grabowsky – and teachers who have studied at London’s Royal Academy of Music and the Manhattan School of Music. You receive individual instrumental teaching to develop your solo and ensemble performance skills in a performing arts centre that offers you practice studios and concert halls.

Study options include composition, music technology, music history and the music of different cultures.

**Career options**

A degree in music from the Sir Zelman Cowen School of Music at Monash leads to careers in performance, music instruction, composing and conducting, arts administration, policy and planning, music retailing, research and archiving, artist management and music technology.

**Double degree course options**

- Arts
- Commerce
- Education (Honours) in Secondary Education
- Laws (Honours)

**Academic pathways**

Monash College is the preferred pathway for students who aspire to study a degree in the Faculty of Arts at Monash University. Depending on your current level of study and future aspirations, you may be eligible for either:

**Monash University Foundation Year**

A pre-university program designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen arts degree.

**Diploma of Arts**

A specialised program designed to prepare you for success in your arts degree. During the program you will study the same curriculum and complete the same assessments as first-year undergraduate students. After successfully completing Diploma Part 2 and achieving the required marks, you will be guaranteed a place in the second year of your chosen arts degree.

For more information on Monash College academic pathways and for entry requirements visit: monashcollege.edu.au
Business and Economics

The Faculty of Business and Economics is one of the largest faculties of its kind in Australia and offers the greatest range of professionally-recognised business degrees of any Australian university.

monash.edu/business-economics

Jacqueline Bastiani
Bachelor of Laws and Bachelor of Commerce

“I studied a double degree, which allowed me to explore two areas of interest. But it was the practical experience – in my third and fourth years of my commerce degree as a vacation student in the tax team at Ernst & Young – that helped me realise I wanted to be an economist rather than a solicitor. Now I’m a Senior Economist in the Department of Treasury and Finance.”

To read more about Jacqueline’s journey, visit monash.edu/business-economics/undergraduate/afteryougraduate/meet-our-alumni.html

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/ug-subscribe. Or see monash.edu/coursefinder.
Bachelor of Business (Accounting)

This degree gives you the combination of business and accounting skills to enable you to conquer the challenges of evolving business environments.

You study core business subjects: marketing, management, business statistics, business law and economics, and a major in accounting. You can also choose additional units, or a second major from another area of business.

You have opportunities to study overseas, undertake an internship, and participate in leadership and development programs.

Career options

Our graduates work all over the world in banking, insurance, accounting and finance. They work for government, companies, accounting and consultancy firms, and themselves. Their roles include accountants, bookkeepers, business analysts and entrepreneurs developing their own business ideas.

Double degree course options

- Arts
- Business (Accounting)

Bachelor of Business (Banking and Finance)

This degree focuses on banking and finance, particularly commercial and investment banking, corporate finance, stock, capital and derivative markets.

You also study core business units, including management, accounting, marketing, business statistics, business law and economics, and can choose additional units from other courses.

You have opportunities to study overseas, undertake an internship, and to work in our STARlab to gain practical experience in financial decision-making.

Career options

A degree in banking and finance offers a wealth of roles across the financial sector.

Our graduates work all over the world in banking, insurance, accounting and finance. They work for government, companies, accounting and consultancy firms, and themselves. Their roles include banker, trader, investment banker, financial planner, stockbroker, lease finance expert and treasury manager.

Double degree course options

- Arts
- Business (Accounting)

Bachelor of Commerce

(Accounting and Finance)

This course gives you a big-picture understanding of the economy and the commercial environment, with a particular focus on accounting and finance. You will explore the impact of business decisions in economic, political, social, cultural and technological terms.

Your accounting and finance studies are supported by study of core commerce units, including business law, economics, management, marketing and business statistics.

In addition, you have opportunities to undertake an internship, study overseas, or participate in leadership programs.

Career options

Our graduates are employed around the world in banks and consulting firms, multinational corporations and small boutique organisations, and in government agencies and stock exchanges. They work as operations managers, accountants, stockbrokers, treasury managers, financial advisers, analysts and accountants.
Bachelor of Business (Accounting)/Bachelor of Business (Management)

Accounting is the language of business. Accurate and innovative accounting forms the basis for decision-making by owners and operators of small and large enterprises. This double degree will give you a rigorous education in accounting and management, while also preparing you to meet the challenges of a rapidly changing business environment.

Career options

Graduates from this double degree will have a diverse range of career options, particularly management opportunities. Our graduates work all over the world. They work in middle and upper-management positions in banking, accounting, finance and insurance. They work for the government and major corporations. The range of career options depends on the subjects chosen and graduates will be able to explore many career paths.

Bachelor of Business

In this course you learn the skills for success in business, and can choose from 13 different majors. You learn how to analyse and make decisions. You can also undertake internships, study overseas and participate in leadership and development programs. This mix of skills makes you an asset to any business.

This course is also offered in Problem-Based learning mode at Peninsula campus.

Career options

A business degree offers a wealth of roles across a very broad spectrum, as all industries need people with business skills. Our graduates are employed around the world in banks and consulting firms, multinational corporations and small boutique organisations. They work as auditors, human resource specialists, management trainees, accountants, analysts, marketing coordinators, HR managers, or as entrepreneurs running their own businesses.

Majors available

- Accounting
- Banking and Finance
- Business law
- Business strategy
- Econometrics
- Economics
- Human resource management
- International business
- Management
- Marketing
- Marketing and communication
- Psychology (can only be taken as a second major)
- Sports management

Double degree course options

- Arts
- Visual arts
- Health science
- Journalism
Bachelor of Business Administration

This course is about understanding the functions of businesses. You study the key principles of business and can focus on marketing, accounting or finance and economics. You can choose additional subjects from another course to support your particular area of interest. You also have opportunities to study overseas and undertake internships.

Career options

Business administration graduates are employed around the world in banks and consulting firms, multinational corporations and small boutique organisations. They work as accountants, marketers, finance advisers and business analysts.

Bachelor of Business (Management)/Bachelor of Business (Marketing)

Management and marketing professionals are responsible for the identity of a business or organisation, and how it relates to its customers. This double degree aims to give you high-level skills in a range of key business disciplines, with an emphasis on developing your management and marketing skills. Whether you want to lead a small team, a department, or a large company, our double degree program will give you a head start.

Career options

Graduates from this double degree have a diverse range of career options, with an emphasis on management and marketing opportunities. Our graduates work all over the world. They work in middle and upper-management positions in communications, marketing, logistics, retail and human resources. They work for the government and major corporations. The range of career options depends on the subjects chosen, but given we offer open electives and majors in marketing and management, graduates will be able to explore many career paths.

Business Law

In this course, you will learn how to navigate the legal and taxation challenges facing business. The focus of your study is business and business law. You will develop an understanding of the legal and taxation issues facing business and the key principles of business statistics, management, accounting, marketing and economics. You can also choose additional units from other disciplines.

Career options

Business and law is a dynamic combination suited to a range of roles. Our graduates work all over the world in business and corporate law. They work for governments and corporations, in roles such as paralegal administrators, trade practice compliance officers, legal policy advisers, business analysts and regulatory consultants.

* This degree does not qualify you to act as a solicitor or barrister.
Bachelor of Commerce

This course gives you a big-picture understanding of the economy and the commercial environment. You will explore the impact of business decisions in economic, political, social, cultural and technological terms.

In addition, you have opportunities to undertake an internship, study overseas, or participate in leadership programs.

Career options

Commerce offers a wealth of roles across a broad spectrum.

Our graduates are employed around the world in banks and consulting firms, multinational corporations and small boutique organisations. They work as auditors, management consultants, actuaries, marketing coordinators, or entrepreneurs running their own businesses.

Majors available

- Accounting
- Actuarial studies
- Business modelling
- Econometrics and business statistics
- Economics
- Finance
- Financial and insurance mathematics
- International commerce
- Management studies
- Marketing
- Sustainability
- Philosophy and politics
  (can only be taken as a second major)

Double degree course options

- Aerospace engineering (Honours)
- Arts
- Arts (Global)
- Biomedical science
- Business information systems
- Economics
- Education (Honours) in Secondary Education
- Engineering (Honours)
- Environmental engineering (Honours)
- Journalism
- Laws (Honours)
- Music
- Science

Bachelor of Economics

Economists analyse the production, distribution and consumption of goods and services to determine how economies work.

In this course, you analyse economic issues and specialise in an area such as economics, econometrics and business statistics, financial and insurance mathematics or actuarial studies.

You look at how the decisions of individuals, business and government influence the behaviour of the economy. You can also undertake a second major in Philosophy and politics.

Career options

An economics degree offers a wealth of roles across a very broad spectrum, including policy, trade, international and development economics.

Our graduates are employed around the world in banks and consulting firms, multinational corporations and boutique organisations, and in government agencies and stock exchanges. They work as economists, economic advisers and market and trade analysts.

Double degree course options

- Arts
- Commerce
Bachelor of Business (Marketing)

Business success relies on strategic marketing. This course develops your understanding of fundamental marketing principles, while also giving you a business base in accounting, management, business law, business statistics and economics. Your training includes skills for researching, planning and delivering marketing strategies. You can also choose additional units from other courses.

Career options

Our graduates work all over the world in marketing, management, advertising and communications. They work for governments, corporations and in consultancies. Their roles include marketing consultant, business analyst, communications officer, market researcher, digital communications manager, and e-commerce developer.

Double degree course options

- Arts - Business (Management)

Bachelor of Business (Psychology)

Understanding how people think and how their decisions can impact businesses is a highly sought-after skill. This course gives you the knowledge and confidence to apply psychology in business environments and develops your knowledge of the core principles of business, including marketing, accounting, business statistics, management, business law and economics. You will also study a major in marketing or management as part of this course.

Career options

Our graduates work all over the world for governments, clinics and corporations. Their roles include counsellor, workplace psychologist, human resources officer, business analyst or employment consultant.

Note that extra qualifications are required to practise as a psychologist. Speak to your course adviser for more information.

Monash University Foundation Year

A pre-university program designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen degree.

Diploma of Business

A specialised program designed to prepare you for success in your business and economics degree. During the program you will study the same curriculum and complete the same assessments as first year undergraduate students. After successfully completing Diploma Part 2 and achieving the required marks, you will be guaranteed a place in the second year of your chosen degree.

For more information on Monash College academic pathways and for entry requirements visit: monashcollege.edu.au
“My course at Monash really helped me develop the confidence to work anywhere in the world. As part of my degree I did an international study tour in China and travelled to Prato in Italy to study business law. Each trip allowed me to better understand different cultures and people and learn to adapt to situations with more confidence.”

Priyanka Chadha, Bachelor of Business
Education

Education at Monash was rated “above world standard” in the 2010 and 2012 Excellence in Research for Australia (ERA) Government report. Monash University also ranked 6th in the subject of Education in the 2014 QS World University Rankings. These results recognise the outstanding teaching and research produced by the Faculty of Education at Monash University. Our graduates become leaders in teaching practice, public debate, policy development and community action across the world.

monash.edu/education

Upkar Bains

Bachelor of Education, specialising in Primary to year 10 education

“The most important aspect of the course is to not only learn the theory but know how to implement this in the classroom – that’s why the placements have been such a highlight for me. I am highly passionate and motivated to teach and I believe that I have really benefited from what I have learnt from my course.”

To read more about Upkar’s journey, visit monash.edu/education/about/our-students
**Education**

**Bachelor of Education (Honours)**

This four-year course will prepare you for a career as an educator in the early childhood sector, primary schools or secondary schools, or in some cases a combination of these. You will learn how to work with children and young people with varied needs to develop their creative, intellectual, physical, personal and social capabilities, and how to foster their learning in diverse ways.

You will build your knowledge of teaching and learning through practical experiences throughout the course in urban, rural, remote or international settings and schools. This includes opportunities to gain first-hand teaching experience in locations such as the Cook Islands, Malaysia, Italy and South Africa. By the end of your course, your qualification will enable you to teach in local settings and across the world.*

**Career options**

Our graduates become leaders in teaching practice, public debate, policy development and community action across the world. Combining your studies with a partner degree will allow you to broaden your career options.

You will develop skills and knowledge to be able to teach in learning areas including the arts and music, English, mathematics, civics and citizenship, physical education, health and wellbeing, science, languages other than English and humanities. You will also develop knowledge in a range of education priority areas such as understanding Aboriginal and Torres Strait Islander peoples and cultures, embedding information and communication technologies in learning, engagement with Asia and education for sustainability.

**Professional recognition**

All specialisations for primary and secondary programs are accredited by the Victorian Institute of Teaching (VIT). They are also in line with the Australian Professional Standards for Teachers developed by the Australian Institute for Teaching and School Leadership (AITSL). Graduates may seek registration with the VIT or the relevant regulatory authorities in other states and/or territories and/or overseas.* Specialisations in early childhood are accredited by the Australian Children’s Education and Care Quality Authority (ACECQA).

* If you want to teach interstate or overseas, you should check the registration requirements with local authorities.

**Double degree course options**

- Arts
- Commerce
- Music
- Science
- Visual Arts

---

**Specialisations**

**Early childhood education**

You will be qualified to care for and teach children from birth to eight years of age in early childhood settings, including childcare, kindergarten and pre-school. You will study how to engage children in meaningful learning through innovative teaching practice. Graduates attain the knowledge and skills to take on leadership and management roles in the early childhood sector. This specialisation is only available to applicants who have completed an approved graded Diploma of Children’s Services or equivalent.

**Early childhood and primary education**

You will be qualified to work as an educator spanning both the early childhood and the primary years, teaching children from birth to 12 years of age. You will be able to work in a range of settings, including kindergartens, preschools and primary schools. You will explore in depth how to engage children in meaningful learning through innovative teaching practice.

**Primary education**

You will be qualified to teach primary school children from five to 12 years of age. You will develop an understanding of teaching and learning theories for primary school children, and how to critically reflect on contemporary education issues and child development with a focus on the key elements of the primary curriculum.

You can also choose to undertake your primary education degree as a double degree with the Bachelor of Arts, Bachelor of Science or Bachelor of Visual Arts. In these cases, the discipline studies requirement of the Bachelor of Education is completed in the partner degree.

**Double degree course options**

- Arts
- Science
- Visual Arts

**Primary to year 10 education**

This specialisation offers you the opportunity to pursue a teaching career in both primary and secondary schools. You will be qualified to teach children from foundation through to year 10 (five to 16 years of age). You will focus on building foundational knowledge and skills specific to educating young people, including learning and educational enquiry, child and adolescent development, classroom practice, and inclusive education with a focus on how primary school aged children learn and how they can be effectively and creatively taught in key learning areas.
Special education (F-10)

Similar to Primary to year 10 education, this specialisation offers you the opportunity to pursue a teaching career in both primary and secondary schools. You will be qualified to teach children from foundation through to year 10 (five to 16 years of age). In addition you will complete a sequence of units in special education, to equip you with specialist knowledge and skills for working in inclusive and special education settings.

Health and physical education (F-10)

This specialisation qualifies you to teach in primary and secondary schools from foundation to year 10 (five to 16 years of age) with specialist knowledge and skills in health and physical education. You will be qualified to teach in two disciplines: Health and Human Development, and Health and Physical Education. In addition you will be qualified as a generalist teacher from foundation to year 10.

Health and physical education (Secondary)

This specialisation qualifies you to teach in secondary schools with specialist knowledge and skills in health and physical education. In addition, this course provides you with the option to gain a third discipline area by including outdoor education and environmental studies, biology, business, geography, mathematics or social education.

Secondary education

This specialisation qualifies you to teach students in secondary school years in specific curriculum areas. It is taken as a double degree and the subjects you will be qualified to teach will depend on which degree you choose to pair it with and what subjects you choose to study in your partner degree.
You will focus on adolescent learning, curriculum and assessment, student diversity and inclusion, professional engagement and researching educational practices.
You will learn to develop teaching and learning strategies that you will then translate into your teaching practice.

Double degree course options

- Arts
- Science
- Commerce
- Music
- Visual Arts
Theme studies

Your education degree covers four themes. Each theme focuses on a different element, ensuring you are thoroughly prepared for a career as an educator.

Education studies

The Education studies theme will give you a comprehensive understanding of the theory of education in varied settings. You will learn by researching the relationship between education and society at local, national and global levels. By the final year you will have the knowledge and skills required to take on leadership roles in education settings and schools.

Curriculum studies

The Curriculum studies theme encourages you to become skilled, critical and effective educators through understanding what and how children and young people learn in particular areas. You will learn how to design, plan and implement engaging, innovative and productive educational experiences and how to teach to meet diverse learners’ needs.

Discipline studies

The Discipline studies theme focuses on developing your content knowledge in the areas you will teach, whether in schools or other education settings. In some specialisations your discipline studies will be a part of your curriculum studies units, while in others you will take them separately. For example, if you are studying a double degree, such as with the Bachelor of Arts, then your companion degree will be your discipline studies.

Professional studies

The Professional studies theme is where you gain your practical teaching experience so you are classroom-ready on the day you graduate. You will complete a minimum of 80 days of supervised placement in settings relevant to your teaching specialisation. These placements will enhance what you learned in your Theme studies with the practical aspects of teaching and learning. Professional studies also covers research units where you learn to independently research education topics, and may provide a pathway to further research-based study.

Academic pathways

Monash University Foundation Year

The Monash University Foundation Year is the preferred pathway into the Faculty of Education. The program is designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your education degree.

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year

Discipline studies

The discipline studies theme focuses on developing your content knowledge in the areas you will teach, whether in schools or other education settings. In some specialisations your discipline studies will be a part of your curriculum studies units, while in others you will take them separately. For example, if you are studying a double degree, such as with the Bachelor of Arts, then your companion degree will be your discipline studies.

Professional studies

The Professional studies theme is where you gain your practical teaching experience so you are classroom-ready on the day you graduate. You will complete a minimum of 80 days of supervised placement in settings relevant to your teaching specialisation. These placements will enhance what you learned in your Theme studies with the practical aspects of teaching and learning. Professional studies also covers research units where you learn to independently research education topics, and may provide a pathway to further research-based study.

Double degrees

The Bachelor of Education (Honours), in the Primary and Secondary specialisations only, can be studied as part of a double degree. A double degree means you graduate with two qualifications instead of one. And it may be done in the same time as completing a single education degree.

Solving the technological problems of the future is going to require talented engineering graduates. At Monash we offer more choice and greater flexibility. We are known for our ideal integration of practical, hands-on training with theoretical learning. It’s this balanced approach that will help transform you into an adaptable, innovative and highly valued professional.

monash.edu/engineering

Ying Gao
Bachelor of Engineering (Honours) in Civil Engineering

Using an aircraft simulator of a new NASA satellite, research student Ying Gao is developing the satellite technology that will lead to improvements in weather and flood forecasting. Ying is currently undertaking PhD studies with the Department of Civil Engineering which she commenced in 2011, and is the recipient of a living allowance scholarship.
**Bachelor of Engineering (Honours)**

When you study the Bachelor of Engineering (Honours) at Monash University, you select an engineering discipline at the end of your first year. This gives you time to learn more about the engineering profession and its different fields before deciding what to pursue. Starting with a foundation in mathematics, physics and chemistry, you build toward engineering study area you chose to study.

Following a common first year, which lays the foundation in the basic sciences of mathematics, physics and chemistry, you can pursue one of the following disciplines from your second year of study:

- Chemical Engineering
- Civil Engineering
- Electrical and Computer Systems Engineering
- Materials Engineering
- Mechanical Engineering
- Mechatronics Engineering.

**Career options**

Engineering graduates are among the first employed and best paid of all Australian university graduates. Career opportunities are wide and varied depending on the engineering study area you chose to study.

**Areas of study**

Following a common first year, which lays the foundation in the basic sciences of mathematics, physics and chemistry, you can pursue one of the following disciplines from your second year of study:

- Chemical Engineering
- Civil Engineering
- Electrical and Computer Systems Engineering
- Materials Engineering
- Mechanical Engineering
- Mechatronics Engineering.

**Double degree course options**

- Architectural Design
- Arts
- Biomedical Science
- Commerce
- Industrial Design
- Law (Honours)
- Pharmaceutical Science
- Science

**Bachelor of Aerospace Engineering (Honours)**

Aerospace engineering is committed to innovation as it improves operations and reduces environmental impact. Your study covers the design, development and maintenance of flight vehicles. It encompasses aerodynamics, aerostructures, avionics, propulsion, flight control and material science. Monash’s unique facilities include a huge wind tunnel to test aerodynamics.

**Career options**

When you graduate, you are likely to work in design and manufacturing; research and development; or airworthiness operations. You might join a large aerospace company or a company that contracts to the aerospace industry. You might work at an airline or a government aerospace laboratory or research centre. Formula One and racing car teams also employ aerospace engineers.

**Double degree course options**

- Arts
- Commerce
- Law (Honours)
- Science

**Bachelor of Computer Systems Engineering (Honours)**

Computer systems engineers are at the forefront of analysing, designing, developing, manufacturing and maintaining all kinds of digital products and systems. At Monash, you learn how to plan, design, commission, monitor, optimise and manage computer and telecommunications systems, and how to solve problems using the best mix of hardware and software for a range of products and industries.

**Career options**

You could work locally or internationally in a wide range of industries, including industrial and power electronics, automation systems, computer programming, or robotics.

You can also find employment in the manufacturing sector, electrical power companies, transportation, IT, travel, and the entertainment industry.
Bachelor of Environmental Engineering (Honours)

Environmental engineering is about finding innovative solutions for sustainable development. Your course study encompasses water and air pollution control, recycling, water supply, waste disposal, land management, transport and the built environment, process engineering and public health issues.

Monash offers specialist resources to support your studies, and a range of complementary enrichment programs enabling you to graduate as a well-rounded professional engineer.

**Career options**

You might work in air pollution control, water supply and management, land management, hazardous waste management, energy production, or environmental management systems. Organisations employing environmental engineers include consulting firms, agencies that supply drinking water and treat wastewater, companies disposing of carbon emissions and hazardous waste, government agencies which monitor and regulate environmental issues, universities, and international aid agencies.

**Double degree course options**

- Arts
- Commerce
- Science

Bachelor of Mining Engineering (Honours)

This progressive course responds to industry calls to increase Australia’s capacity to create highly skilled mining professionals.

Your study starts with a foundation in mathematics, physics and chemistry. You then study all aspects of exploring, planning, extracting and processing minerals, including environmental impact assessment and management, mine systems, design, management and economics together with geology and geomechanics.

**Career options**

As a mining engineer, your role may include evaluating the viability of mineral deposit sites; planning the safest and most efficient extraction methods; designing tunnels and shafts for underground operations; designing pits and haulage roads for open-cut operations; managing the operations of a mining site; coordinating safety and environmental conditions; reporting on mine operating costs; or consulting with the community.

Academic pathways

Monash College is the preferred pathway for students who aspire to study a degree in the Faculty of Engineering at Monash University. Depending on your current level of study and future aspirations, you may be eligible for either:

**Monash University Foundation Year**

A pre-university program designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen engineering degree.

**Diploma of Engineering**

A specialised program designed to prepare you for success in your engineering degree. During the program you will study the same curriculum and complete the same assessments as first-year undergraduate students. After successfully completing Diploma Part 2 and achieving the required marks, you will be guaranteed a place in the second year of your chosen engineering degree.

For more information on Monash College academic pathways and for entry requirements visit: monashcollege.edu.au
Double degrees

Many engineering (honours) degrees can be studied as part of a double degree. A double degree means you graduate with a qualification in two disciplines instead of one. And it usually only adds one extra year to your degree.

Bachelor of Engineering (Honours) in the field of Electrical and Computer Systems Engineering students Ray Tinney, Ashley Schuurman and Chris Colman, working on a robot they created in their design class.
Monash is the only university in the prestigious Group of Eight with a faculty exclusively dedicated to Information Technology. This allows us to offer both breadth and depth, giving you an excellent choice of courses and subjects.

Monash sits amongst the world’s most prestigious universities and is ranked in the top 100 in the world for Computer Science and Information Systems by the 2014 QS World University Rankings.

Join us and apply your creative energies in a field that is revolutionising society.

monash.edu/it

Vanessa Pung
Bachelor of Business Information Systems

“If you enjoy the thrill, excitement and suspense of a roller coaster ride, the final year Industry Experience project is the perfect spark to your IT degree. The project is an amazing experience, where you get the opportunity to meet real clients, in a real problematic situation. You use real live systems while gaining valuable industry experience.”
Bachelor of Information Technology and Systems

This course gives you the expertise to understand and improve the design and construction of the computer systems we all rely on. You can tailor your studies to suit your interests and career goals from a wide range of IT units, including defining organisational needs for IT, design and development, and building and implementing computer-based systems.

Career options

It is hard to imagine a job anywhere in any professional field where you will not be able to make use of knowledge and skills in the area of IT. You could work in a range of roles, including as a specialist programmer, systems analyst, business analyst, database administrator, games developer, multimedia developer and IT consultant.

Professional recognition

Graduates of this course from Australian campuses are eligible for professional-level membership of the Australian Computer Society.

Real-world experience

Industry-based learning placement or Industry Experience project.

Majors available

This course has the option of completing the general version (no major) or you can focus on one or two majors from:

- Applications development
- Enterprise information management
- Games development
- Information and communication technologies
- Multimedia development.

Bachelor of Computer Science

Wherever you look, you’ll find computer scientists and intelligent systems at work. They’re supporting or driving everything from the daily weather report to new research discoveries. They’re pushing developments in bioinformatics, gaming, networking, artificial intelligence and other fields that use and transform information.

So if you want to be where the action is, this is the course for you.

This course focuses on algorithms, software development and the underlying theory of computation. You’ll study computational approaches in science and engineering and information processing applications in industry and commerce.

Career options

This degree opens exciting career options all over the world, especially with governments and large corporations. Computer scientists are in high demand in a wide variety of roles, such as specialist programmer, systems analyst, research scientist, consultant and IT manager.

They perform research and development in exciting areas, including artificial intelligence, bioinformatics, networking and cryptography, computer games, multimedia and robotics.

Professional recognition

Graduates of this course from Australian campuses are eligible for professional-level membership of the Australian Computer Society.

Real-world experience

 Industry-based learning placement or Industry Experience project.

Majors available

This course has the option of completing the general version (no major) or you can focus on one major from:

- Computational science
- Decision support
- Systems development.

Double degree course options

Science
Bachelor of Business Information Systems

Business relies on its information systems. You study the development and application of information technology to solve business problems. You learn fundamental business and IT concepts and how IT can serve business needs. The course’s broad base helps you understand the needs of software engineers, business managers and users.

The course prepares you for leadership roles in IT management.

Career options

As a business information systems graduate, you have a wide range of career opportunities. Our graduates work all over the world, including for governments and large corporations.

You could work in a range of roles, such as a business analyst, IT consultant, data scientist, applications and web systems developer, management consultant, project manager, systems analyst, or security and privacy consultant.

Professional recognition

Graduates of this course from Australian campuses are eligible for professional-level membership of the Australian Computer Society.

Real-world experience

Industry-based learning placement or Industry Experience project.

Double degree course options

Commerce

Informatics

Bachelor of Informatics and Computation Advanced (Honours)

This course prepares high-achieving students to pursue postgraduate study or employment requiring research.

The course provides a strong foundation in information technology leading to advanced studies in a chosen IT specialisation. These include computer science, computing technology, business information systems and information management.

The course features project-based work so you are actively involved in research.

Career options

Graduating with this honours degree from Monash enhances your employment opportunities across a vast range of businesses seeking innovation and advancement in their IT capabilities.

New for international students.

Our Industry Based Learning (IBL) program partners Monash University with leading global and Australian organisations to offer students outstanding placement opportunities and scholarships valued up to A$39,000.

This cooperative education program gives students the opportunity to unleash the skills they’ve learned in the classroom in the corporate world.

For more information go to monash.edu/it/industry
Bachelor of Software Engineering

This four-year course, designed in response to industry demand, develops your ability to solve problems and develop, analyse and improve large-scale software systems.

You study development, programming and testing to ensure software runs effectively, safely and securely.

Your course includes a 12-week industry placement, and for high-achieving students there are opportunities to study overseas.

Career options

You will be qualified to work in a range of roles around the world, including as an applications developer, internet developer, programming specialist, systems programmer, forensic and fraud consultant, software designer, engineer, software architect, consultant or developer.

Professional recognition

Graduates of this course from Australian campuses are eligible for professional-level membership of the Australian Computer Society and admission at the level of professional engineer to Engineers Australia.

Real-world experience

Industry-based learning placement or Industry Experience project.

Monash University Foundation Year

The Monash University Foundation Year is the preferred pathway into the Faculty of Information Technology.

The program is designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen information technology degree.

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year

Law

The Faculty of Law is recognised as one of the best performing law schools in the world. Ranked 16th in the 2014 QS World University Rankings, these results acknowledge the outstanding quality maintained across diverse criteria to ensure that a Law degree from Monash gives you a world standard education and an exceptional qualification.

monash.edu/law

Felicity Fox
Bachelor of Arts and Bachelor of Laws

“There are so many possibilities with a law degree. There’s no one path that law students take, and a law degree gives you practical skills that you’ll be able to use for the rest of your life. It’s exciting to know I have a range of options.”

To learn more about Felicity and others go to monash.edu/law/future-students/undergraduate/testimonials.html
Bachelor of Laws (Honours)

This degree satisfies the academic requirements for admission to practise as an Australian lawyer. It is also a preparation for diverse careers in and beyond the law, and a pathway to masters and doctoral qualifications. The course provides coherent and advanced knowledge of the sources of law, the principal areas of law, legal concepts and broader perspectives about the law. It develops professional skills in problem-solving, critical thinking, research, communication, collaboration with others, self-management, ethical awareness and professional judgement.

Career options

Our graduates have become leaders in business, government and the legal profession. Monash law graduates excel around the world.

After completing your post-university practical training, you can become a barrister or solicitor, or use the skills and knowledge you acquire in a variety of occupations within the judiciary, government, media, business, industry and politics.

Double degrees

You have a wide range of degrees to choose from in the Faculty of Law at Monash. A Bachelor of Laws is a fine start to your career, but you can improve your career options and professional outcomes by combining your law degree with another discipline in a double degree.

In a double degree you undertake both degrees simultaneously, enabling you to complete both degrees in a shorter time than taking each degree separately. Most of the double degrees are five years in length, except for degrees with engineering and medicine.

Bachelor of Laws (Honours) and Bachelor of Aerospace Engineering (Honours)

Are you a high-flyer interested in combining aerospace engineering and the law?

This double degree will launch you into one of a number of exciting careers. If you study aerospace engineering with Monash, you will benefit from the best facilities in the country. The Monash Wind Tunnel is the largest in the southern hemisphere and was recently used by Tour de France winner Cadel Evans for testing the aerodynamics of his racing bike.

Career options

When you graduate, you are likely to work in design and manufacturing, research and development, or airworthiness operations. You might join a large aerospace company as a legal counsel or a general manufacturer that contracts to the aerospace industry. You might work at an airline or a government aerospace laboratory or research centre where your focus will be on the legal aspects of the business.
Bachelor of Arts

One of our most popular programs, this degree combines the problem-solving and analytical skills taught in the law degree with the creative and communication skills taught in an arts degree. It’s dynamic, prestigious and creative – giving you a solid foundation of the concepts, procedures and reasoning underpinning the Australian legal system, as well as the flexibility to choose from more than 40 distinct arts areas of study (including languages, communications, politics, history, psychology, criminology and international studies).

Career options

The legal skills gained, coupled with specialised knowledge in humanities learned during these double degrees, will make you a highly sought after graduate with a broad range of skills in areas such as journalism; publishing; public relations and communications; marketing and advertising; business research and consulting; foreign affairs and international trade; politics; human resources; environmental research and planning; counselling, social welfare – research, policy, planning; education; tourism and hospitality; performing arts, film and television; and library, museum and gallery administration.

Bachelor of Arts

Career options

In an increasingly technological workforce, a scientific background combined with legal training has become a distinct advantage, opening opportunities in a variety of industries.

Bachelor of Arts

Career options

If you want to combine knowledge of biomedical science with a solid foundation in legal principles and practice then this is the degree for you.

Biomedical science can have a major impact on the wellbeing of society, but the transition from the laboratory to the people it will benefit is a complex journey. A law degree gives graduates the tools to do this.

Career options

In an increasingly technological workforce, a scientific background combined with legal training has become a distinct advantage, opening opportunities in a variety of industries.

Bachelor of Laws (Honours) and Bachelor of Music

You can have it all – nourish your creative side, while testing your intellectual rigour with a law degree that provides a recognised tertiary path into the legal profession.

The entertainment industry creates unique legal and management challenges that require specialised knowledge. This double degree offers two very distinct areas of study that enable you to combine the expertise, skills and knowledge of a law degree with continued training in performance and music studies.

Career options

Combining a Music and Law degree gives you the opportunity to work in law-related areas of the music industry and can lead to careers in arts administration, policy and planning, music retailing, research and archiving, artist management and music technology as well as the legal profession itself.

Bachelor of Laws (Honours) and Bachelor of Science

There is a high demand for legal professionals with a qualification in science – and scientists who are qualified in law; from the law-makers dealing with legislation relating to climate change, genetically modified crops and stem cell research to the scientists needing to navigate complex legal and political approvals processes to further their research.

In an age of increasing technological advancements, the link between science and the law will only become stronger. This means graduates with a double degree in science and law will have the power to choose which career they follow.

Career options

Graduates with legal training have a distinct career advantage with the increasing technology and science-based industries such as climate science, forensic law, medico-legal matters, patent development as well as public health policy and management.

Academic pathways

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year
Monash has long been considered in the top tier of Australian universities when it comes to medicine, nursing and health sciences. We are consistently ranked in the top 50 medical schools by QS World University Rankings and Times Higher Education, and are the only Australian member of the prestigious M8 Alliance of academic health centres and medical universities.

monash.edu/medicine

Michael Fox

Bachelor of Nursing and Bachelor of Emergency Health (Paramedic)

“Whilst the emergency health side of the course teaches you more advanced CPR, heart rhythm interpretation and insertion of breathing tubes (skills that nurses typically learn as postgraduates, not undergraduates), the nursing degree provides a wider overview of medications, mental health and ‘specialist’ areas such as wounds or child health.”
Biomedical Science

Bachelor of Biomedical Science

This is your invitation to join one of the most expert medical research hubs in the world. Your core studies include human biology, anatomy, biochemistry, genetics, immunology, microbiology, molecular biology, pharmacology, physiology and the biomedical basis of disease.

You can then design a specialised program so you have a solid foundation in biomedical sciences, leading to a research-based honours year.

Career options

A biomedical sciences degree opens up career opportunities in biotechnology, the pharmaceutical industry, research centres, product development and technology.

As a graduate, you may find work in the hospital and medical sector, including medical diagnostic laboratories, secondary and tertiary teaching, media and communications, or the government sector in such areas as health promotion and health economics.

Double degree course options

- Commerce
- Engineering (Honours)
- Law (Honours)
- Science

Bachelor of Biomedical Science Advanced with Honours

This high-profile course suits high-achievers pursuing honours studies at a world-leading centre of biomedical research.

You develop specialist skills from foundation studies in biology, anatomy, biochemistry, genetics, immunology, microbiology, molecular biology, pharmacology, physiology and the biomedical basis of disease.

Your research is guided by leading researchers, including in stem cell research, and in treating multiple sclerosis, kidney, heart and lung disease.

Career options

By completing this degree, you will have shown high academic performance and engagement in biomedical research. You open opportunities to pursue an international research career.

Bachelor of Biomedical Science (Scholar Program)

This challenging course is designed for high achievers keen to undertake an individual program of study under the guidance of some of the world’s best biomedical researchers.

While your core studies include human biology, anatomy, biochemistry, genetics, immunology, microbiology, molecular biology, pharmacology, physiology and the biomedical basis of disease, you have the opportunity to accelerate your studies to contribute to the groundbreaking research activity at Monash’s specialist facilities.

Career options

With this high-powered degree, you have global opportunities with medical, biotechnology and pharmaceutical research centres and companies. You could also find many exciting openings in education, the media and government.

Emergency Health (Paramedic), Midwifery and Nursing

Bachelor of Nursing

Monash nursing students have access to outstanding medical researchers at leading teaching hospitals.

This course provides a broad foundation for general nursing practice and opportunities for future specialisations.

You study clinical reasoning, client care, communication, judgement and research in a course that offers extensive clinical experience through a variety of local and international health agencies.

Career options

Graduates work in acute hospital care, mental health, rehabilitation, aged care, community-based care and rural and remote services.

The course provides the foundation for further education and practice in specialist areas, including acute medical/surgical nursing, emergency nursing, intensive care, midwifery, paediatrics, peri-operative, mental health, palliative care, oncology and wound care.

Double degree course options

- Midwifery
- Emergency Health (Paramedic)
Bachelor of Nursing (Community Health)

This course is built on a holistic approach to healthcare. In state-of-the-art facilities, the course explores the social factors affecting health.

Your clinical training is supported by studies in health promotion, early intervention, education, treatment and referral to complement working in hospitals, community health centres, general practice, schools, universities, local councils and patients' homes.

Career options

Your nursing degree creates opportunities in acute hospital care, mental health, rehabilitation, aged care, community-based care and rural and remote services. It also provides an excellent foundation for further education in specialist areas of nursing, including acute medical/surgical, emergency, intensive care, midwifery, paediatrics, perioperative, mental health, palliative care, oncology and wound care.

Bachelor of Nursing and Bachelor of Midwifery

Midwives play a crucial role in bringing new life into the world and caring for mothers and babies before, during and after birth. This double degree will give you specialist knowledge and a broad range of skills in communication, research, clinical reasoning, client care and judgement, making you highly employable in any practice setting, especially in rural and remote areas where being multi-skilled can have significant advantages.

You will have plenty of opportunity for clinical experience in diverse settings throughout Victoria.

Career options

This degree enables you to register as both a Midwife and a Nurse. It will open a range of opportunities in midwifery, including in antenatal, birth and postnatal areas. You could also specialise in neonatal, maternal, child health care or other fields with further study.

As a nurse, you could work in many different service areas, including acute hospital care, mental health, rehabilitation or aged and community-based care.

Bachelor of Nursing and Bachelor of Emergency Health (Paramedic)

This groundbreaking double degree gives you the chance to broaden your skills and career options as a nurse and paramedic.

Delivered at our Peninsula campus, the course will open exciting opportunities in ambulance and community-based health services and disaster response teams here and overseas – wherever combined emergency and ward skills are needed.

As a qualified paramedic nurse, you will play a key role in regular emergency responses, community-based triage and pre-hospital and in-hospital care.

Your role will prove critical at times of multi-victim disasters, when your communication, leadership and clinical-reasoning skills as a nurse will come to the fore.

Career options

You could work as a registered nurse, paramedic or paramedic nurse in a range of emergency health settings, including with Ambulance Victoria.

Bachelor of Emergency Health (Paramedic)

A degree in emergency health prepares you for potential employment as a paramedic in ambulance and community health settings. Students study four units per semester for six semesters (three years). The course is based on the following themes: professionalism, evidence-based practice, reflection, clinical competence and patient focus. Clinical experience includes placements with ambulance services and other health agencies. Travel to metropolitan and rural off-campus locations for clinical placements will be required. Some clinical placements will occur during one or more vacation periods (i.e. summer semester) between years of study.

Career options

As a Monash Paramedic graduate you will have the skills to provide expert care in the pre-hospital environment. Ambulance paramedics are in demand from government and private ambulance service providers in Australia. You will also be able to access opportunities in industrial and community emergency-health settings here and overseas.
Bachelor of Health Science

This course puts health in a social context. You study the challenging public health issues facing communities, and how they are being addressed. You develop expertise in identifying, investigating, analysing and evaluating health issues and programs through your knowledge of physiology, epidemiology, health care systems, disease prevention, health promotion, policy and sociology. And you learn how to influence for change through effective advocacy.

Career options

Our graduates find rewarding opportunities in public health research, health promotion, policy development and management in both government and non-government organisations, including community health organisations.

It opens doors to public health research and postgraduate clinical programs in medicine, social work, nursing and allied health.

Double degree course options

- Business - Social Work

Bachelor of Psychology (with Honours)

This course is about the study of mental processes to help us better understand human behaviour and improve mental health. You can pursue your individual interests in a wide range of areas relating to the application of psychology. In addition, you are introduced to other disciplines which complement the study of psychology.

With exceptional training opportunities from leading practitioners, you can choose to gain a broad, interdisciplinary knowledge of psychology and focus on a deep understanding of a specific area, including brain injury, sleep disorders and new developments in neuroscience.

Career options

Opportunities exist for employment or further study in research, child or career counselling, clinical neuropsychology, educational counselling, forensic psychology and welfare, health, organisational and sports psychology, and many other areas. You could also undertake the further study and training required to register and practise as a psychologist.

Bachelor of Social Work

Social workers promote positive development for individuals, families, communities and society. In particular, they focus on improving the lives of people who are disadvantaged. Taught by thought leaders, you study the theory and practice of social work as well as fieldwork skills. You can also study management, research and policy.

Career options

Our graduates work in clinical or practice settings, in policy writing, program evaluation and development and research.

They work for government and community agencies – in schools, correctional institutions, hospitals, community health centres, mental health services, drug and alcohol programs, family and children’s services, multicultural agencies, housing services and with refugees.

Double degree course options

- Arts - Health Science
Bachelor of Medicine and Bachelor of Surgery

As the only Victorian university to offer a direct-from-school medical program, you can start your journey towards becoming a doctor from day one. You will have the opportunity to learn from leaders in the fields of anatomy, biochemistry, genetics, immunology, microbiology, pathology, pharmacology, physiology, psychology and sociology.

Using Case Based and Problem Based Learning, the course covers four themes: first – professional communication, IT, informatics, ethics, law, and clinical effectiveness; second – the social, environmental and behavioural backgrounds of illness and practice, especially in rural and remote areas; third – the scientific basis of clinical practice; and fourth – clinical skills.

Career options

You initially work as a doctor within the hospital system and can undertake further specialist training in a range or areas – general practitioner, obstetrics, paediatrics, psychiatry, surgery.

ISAT

To be eligible for entry, applicants must undertake the International Student Admission Test (ISAT). If an applicant thinks that their citizenship status may change during the selection process, they need to undertake both the Undergraduate Medicine with Health Science Admission Test (JMAT) and ISAT.

Interview

Applicants may be invited to attend an interview based on their academic results. Only applicants who attend an interview will remain eligible for entry into the program.

Bachelor of Nutrition and Dietetics (Honours)

This course integrates teaching and practice and offers studies in clinical nutrition, population health, research and food services management. You will explore the role of food in society and develop knowledge of nutritional and biomedical science, including the role of nutrition in health and disease.

Your study includes practical placements in health and government settings and you will have access to facilities that support your exploration, including a commercial kitchen and exercise studios.

Career options

Dietitians are the experts in food and nutrition. As a graduate, you can choose to work in clinical dietetics, health promotion, community or public health dietetics, government, programs and policy development, teaching, research, product development, marketing and promotion or food services management. Work settings include hospitals, health centres, nursing homes, exercise and fitness business, the food industry or private practice.

Bachelor of Nutrition Science

The importance of good nutrition as a contributory factor to ensuring a healthy life is indisputable. This course focuses on the relationship between nutrition and human health, integrating the scientific disciplines of physiology, biochemistry, immunology and molecular biology with societal and cultural influences. There is an emphasis on research aimed at the maintenance of health and prevention of disease.

Career options

As a graduate, you will have the professional and personal qualities and competencies required for working as a nutrition scientist across a range of domains. This qualification enables you to pursue a career in a variety of different roles, such as researcher, educator, policy officer, food regulator or public health advocate in both government and non-government sectors.
Bachelor of Occupational Therapy

Occupational therapists work with individuals, families, groups, organisations and communities to overcome functional problems in daily life activities caused by illness, injury, psychological or emotional difficulties, developmental delay or the effects of aging. In this internationally recognised course, you study foundation knowledge units (such as professional issues, foundations of health, occupational science, occupational therapy practice models and theories, psychology, lifespan development and biomedical sciences) in your first year. In the latter three years, you complete profession-specific occupational therapy units which includes completing 1000 hours of clinical placements.

**Career options**

You could work individually or as part of a multidisciplinary healthcare team in a hospital, rehabilitation centre, schools, early intervention program, private practice, supported-employment service, or in specialised programs for children, adults with physical disabilities, the elderly or people with developmental disabilities.

Occupational therapists can also gain employment in the areas of health promotion, education, management and research.

After successfully completing this course, you can apply to register with the Occupational Therapy Board of Australia.

Bachelor of Physiotherapy

In our Physiotherapy degree you will learn key areas of physiotherapy practice, including musculoskeletal care in terms of injury, or sport or arthritis management as well as rehabilitation after surgery. Other key areas include: cardiorespiratory care – helping people with heart or lung problems; gerontology – keeping older people healthier; and neurology – providing rehabilitation following stroke, spinal cord injury, Parkinson’s disease and multiple sclerosis.

Learning from highly skilled research and clinical physiotherapists, the course is delivered via case-based learning and clinical practice.

**Career options**

Physiotherapists may work independently or as part of a team of healthcare professionals. They work in hospitals, health centres, sports medicine clinics, maternity hospitals, rehabilitation centres, aged-care facilities and in private practices, as well as in health promotion, education, management and research.

After successfully completing this course, you can apply to register with the Physiotherapy Board of Australia.

Bachelor of Radiography and Medical Imaging (Honours)

With an emphasis on general radiography, Computed Tomography (CT), medical ultrasound and magnetic resonance imaging (MRI), this course divides your time between expert tuition and hospital-based radiology department and radiology practices.

Your study includes computed and digital radiography, CT, medical ultrasound and magnetic resonance imaging.

As well as clinical placements, you complete a research project or extended study in an advanced imaging modality.

**Career options**

Most of our graduates pursue careers as radiographers in public or private hospitals, or private radiology practices. Graduates can also specialise in medical ultrasound, magnetic resonance imaging, mammography, management, research, or medical applications with medical imaging companies.
Many degrees offered by the Faculty of Medicine, Nursing and Health Sciences can be studied as part of a double degree. A double degree means you graduate with a qualification in two disciplines instead of one. And it usually only adds one extra year to your degree.

Monash University Foundation Year

The Monash University Foundation Year is the preferred pathway into the Faculty of Medicine, Nursing and Health Science. The program is designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen degree.

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year
Andrew Lee
Bachelor of Pharmacy (Honours)

Andrew is the Community pharmacist at Wattle Care Pharmacy. “There’s a great sense of satisfaction in providing primary health care and building rapport with the people in the community where I was brought up.

“For me, the best part of the job is the opportunity to refine my managerial skills through the successes and failures of everyday decisions. I’m also gaining insight into what’s involved in owning a pharmacy from the proprietors.”

Monash University is constantly improving and refining course offerings. To receive regular updates about courses, scholarships, events and other related information sign up at monash.edu/ug-subscribe. Or see monash.edu/coursefinder.

Monash is Australia’s oldest pharmacy school. We are ranked number one in Australia and the Asia-Pacific Region and among the top 10 in the world for pharmacy and pharmacology (QS World University Rankings by Subject, 2014).

At Monash, we combine innovation and tradition to provide you with an education that will take you wherever you want to go – in your work and in the world.

monash.edu/pharm
Pharmaceutical Science

Bachelor of Pharmaceutical Science
In this course, you study the chemistry, biology and technology of medicines and how to improve human health by researching and developing more reliable, accessible and effective treatments.
You can choose to focus on drug discovery biology, formulation science or medicinal chemistry.
You gain practical skills through a major research project or industry placement.

Career options
You will be sought-after by research and development centres, the pharmaceutical industry, and food, agriculture, chemicals, biotechnology and cosmetics companies.
You could work as a drug analyst, formulation scientist, industry consultant, development chemist, medicinal chemist, patent attorney, medicine researcher and developer, academic or clinical-trial specialist.

Bachelor of Pharmaceutical Science Advanced with Honours
This course prepares you for postgraduate study or a research career in biomedical and pharmaceutical industries.
You study the chemistry, biology and technology of medicines and then you can choose to focus on drug discovery biology, formulation science or medicinal chemistry.
Your research is mentored by leading scientists with access to advanced teaching technology: Pharmatopia, a virtual pharmaceutical world.

Career options
Our graduates work across the drug discovery life cycle. Your focus might be research and development in the pharmaceutical or biomedical industry, or opportunities in the food, agriculture, chemical, or cosmetics industries.
You could work as a drug analyst, formulation scientist, industry consultant, development chemist, medicinal chemist, patent attorney, medicine researcher and developer, academic or clinical-trial specialist.

Pharmacy

Bachelor of Pharmacy (Honours)
This course is about the formulation of medicines and their impact on the body.
You study physical, organic and medicinal chemistry, physiology, biochemistry, microbiology, molecular biology and immunology.
Leading training technology, MyDispense, with virtual patients and pharmacy products, provides dispensing practice, while Pharmville, with fictional patients, provides practice with “real” health needs.
Opportunities include clinical placements and overseas study.

Career options
Our graduates work around the world – many in high-level positions. Their roles include community, hospital or consultant pharmacist. You might work in the pharmaceutical industry, for government or regulatory bodies, in research or clinical trials.

Bachelor of Pharmacy (Honours), Scholars Program
The Scholars Program is a specialist degree designed for high-achieving students at one of the world’s top-ranked universities for Pharmacy and Pharmacology. Scholars have access to expert mentoring and leadership training.

Career options
Career options are listed under our Bachelor of Pharmacy degree. If you are part of the Scholars Program you have the added benefit of being recognised as a high achiever with the opportunity to develop industry connections while you are studying through seminars and our mentoring program.
Monash University Foundation Year

The Monash University Foundation Year is the preferred pathway into the Faculty of Pharmacy and Pharmaceutical Science.

The program is designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen degree.

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year
Science

Science at Monash opens the door to an incredibly diverse array of options. From the subjects you study to the career you choose, Monash science is all about flexibility and choice.

Choosing science at Monash means you are equipped to explore some of the most complex questions facing humankind. It’s more than just a degree – it’s the beginning of an exciting adventure.

monash.edu/science

Elizabeth Stewart

Bachelor of Science and Bachelor of Arts (Immunology, Psychology, minor in Genetics and French)

Elizabeth chose a double degree to explore her various interests and plans to become a clinical psychologist.

“At Monash there are so many opportunities, volunteering programs and short courses, and everyone is so welcoming and friendly. In high school I had this image of science being geeky, but all the bits I thought would be geeky are actually really cool.”

To learn more about Elizabeth and others go to monash.edu/science/future/careers/profiles
Bachelor of Science

The Bachelor of Science offers a wide range of areas of study to choose from. Bachelor of Science students can customise the course according to their own skills and interests, as well as pursue interests outside science through the course’s elective component.

In the Bachelor of Science, you develop skills you can use in a range of careers. The course builds a strong foundation for further study and research.

Career options

There’s a whole world of opportunity open to Monash science graduates. Science graduates can be found working in a range of scientific and non-scientific fields, including within government, education, the private sector, research institutes, business services, allied health and pharmaceutical private sector, research institutes, business including within government, education, the graduates can be found working in a

Areas of study

- Astronomy and astrophysics
- Atmospheric science
- Chemistry
- Computational science
- Developmental biology
- Ecology and conservation biology
- Environmental science
- Genetics
- Geographical science
- Geosciences

Double degree course options

- Aerospace engineering (Honours)
- Arts
- Arts (Global)
- Biomedical science
- Commerce
- Computer science
- Education (Honours)
- Engineering (Honours)
- Environmental engineering (Honours)
- Journalism
- Laws (Honours)

Bachelor of Science Advanced (Global Challenges)

This unique course is focused on developing future leaders who will inspire discovery and innovation. In addition to studying the scientific discipline of your choice, you will receive training in entrepreneurship, leadership, communication and policy development, as well as complete an international internship.

You will be exposed to entrepreneurs, innovators and leaders via a built-in mentoring program from the first year, helping shape your future career networks from day one.

Career options

You will graduate from this course equipped with a diverse set of skills, a strong peer and mentor network and the passion and confidence to pursue a meaningful, exciting career in science or other areas such as consulting, business, government, communications or international aid.

Bachelor of Science Advanced (Research)

This course is designed for students who have a keen interest in pursuing a pathway that focuses on scientific research. It offers an advanced-level honours qualification, and is perfect if you plan on pursuing further study beyond your undergraduate degree.

This four-year degree will extend and challenge your thinking.

Career options

As a scientist, you will play an important role in developing cutting-edge technologies, therapies and initiatives that address some of society’s greatest challenges. You may be instrumental in policy making, research and teaching, addressing issues associated with health care and social wellbeing. You may also be employed in traditional and emerging areas where expertise in life sciences, geosciences, mathematics and statistics, computer sciences and the physical sciences are important.

Academic pathways

Monash University Foundation Year

The Monash University Foundation Year is the preferred pathway into the Faculty of Science.

The program is designed to prepare international students with the skills and knowledge required to succeed at Monash University. After successfully completing the Foundation Year program and meeting the entry requirements and prerequisites, you will have a guaranteed place in the first year of your chosen Science degree.

For more information on the Monash University Foundation Year and entry requirements visit: monashcollege.edu.au/foundation-year
Entry requirements

Students who apply to Monash University for an undergraduate course must satisfy the following:

- Academic entry requirements
- Minimum age requirements
- English entry requirements
- Prerequisites and additional requirements

Academic entry requirements

The following international entry requirements are listed in the Entry requirements by faculty table on pages 64 – 81.

<table>
<thead>
<tr>
<th>Course code</th>
<th>Course name</th>
<th>Intake (Semester)</th>
<th>Duration (years)</th>
<th>2014 fee p.a.</th>
</tr>
</thead>
</table>

Entry scores for the listed qualification in this guide are calculated as follows:

1. ATAR (International 2014) – Indicative score ONLY.
   Final ATAR score

2. A Level, GCE:
   - Total score of a maximum of 3 A Level subjects taken in one academic year.
   - Two AS Level subjects can be counted in place of one A Level subject, provided that the subject has not been taken at A Level, and there is at least one A Level subject included in the calculation.
   - AS Level results cannot be used to replace a poor performance in an A Level subject.
   - Score A Level grades as follows: A(*) = 5, A(a) = 5, B(b) = 4, C(c) = 3, D(d) = 2, E(e) = 1, U = 0.
   - Score AS Level grades as follows: A(*) = 2.5, B = 2, C = 1.5, D = 1, E = 0.5, U = 0.
   - N (Narrow failure) and U (Unclassified) not to be included in the calculation.
   - A maximum of 1 bonus point is offered when achieving A* in an A Level Subject.

3. All India Senior School Certificate: Overall average of the best 4 academic subjects.

4. America: Advanced Placement: Total score of the best 2 AP subjects. Minimum accepted score in each subject is 3. A completed (regionally accredited) Year 12 American High School diploma must also be submitted.

5. America: Scholastic Aptitude Test (SAT): Total score of Critical Reading, Mathematics and Writing. A completed regionally accredited Year 12 American High School Diploma must also be submitted.

6. High School Certificate, Vietnam: Overall average of the best 6 subjects as awarded on the temporary certificate by the relevant provincial education and training department.

7. Hong Kong Diploma of Secondary Education: Total score of the best 5 subjects (Category A and C only).
   - Score calculated as follows: Level 1 = 1, Level 2 = 2, Level 3 = 3, Level 4 = 4, Level 5 = 5 or A = 5, B = 4, C = 3, D = 2, E = 1.

10. Ontario Grade 12: Overall average of the best 6 Grade 12 subjects (excluding workplace preparation or open courses).

11. SMA3, Indonesia: Overall average of all academic subjects.

12. South African National Senior Certificate (2009 onwards): Total score of the best 6 subjects (excluding life orientation). Bonus points, to a maximum of four, are awarded as follows: English Level 5 or higher = +2, Mathematics Level 5 or higher = +2, Mathematical Literacy Level 6 or higher = +2.

13. STPM, Malaysia: Total SGP score in the best 3 academic subjects (including local language).

14. UEC, Malaysia: Overall average of best 5 subjects. Score calculated as follows: A1 = 1, A2 = 2, B3 = 3, B4 = 4, B5 = 5, B6 = 6, C7 = 7, C8 = 8, F9 = 0.
   - If the overall average ends in a decimal point then the score should be rounded down.
   - For example, an overall average of 4.9 should be rounded down to 4.

15. UNIPREP/UNSW Foundation Year: Final grade point average as awarded on the final transcript.

17. Monash College Diploma: To calculate the average mark required for the Monash University destination degree refer to the relevant Diploma program information available at: monashcollege.edu.au/courses/diplomas/index.html

Other international qualifications for entry requirements can be found using the Undergraduate Qualifications Database located at: monash.edu/study/international/apply/qd

Prerequisites and additional requirements

Students need to meet course prerequisites (including English) and additional requirements. These are outlined by faculty for each course in the “prerequisite and additional requirements” column. It should be noted that required prerequisite scores are not listed in this course guide.

Minimum age requirements

You must be at least 17 years of age to enrol in a Monash University undergraduate course. Some exemptions may apply. For further information, visit: monash.edu/study/applications/undergraduate/entry/age.html

This age restriction also applies to Monash College Diploma Part 2 programs. Alternatively if you are 16 years of age at the time of enrolment you may wish to consider applying for Monash Foundation Year or Diploma Part 1 programs.
English entry requirements

All students who apply for a Monash University undergraduate course must satisfy English entry requirements. Different English entry levels apply to undergraduate courses.

If a student has completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered.

English requirements can be met in one of the following ways:

1. English (Australian Year 12 equivalent):
   Students must complete an English subject that is equivalent to units 3 and 4 of VCE English and also meet the required prerequisite score for the Monash University course they have applied for. The equivalent English subject must be taken within 2 years prior to the course commencement date (other time limitation periods may apply).

2. English is the language of instruction, communication and assessment for the entire institution:
   Students must have satisfactorily completed a minimum of 48 Monash credit points (two standard full-time semesters) or equivalent in an English medium educational institution at Australian VET diploma level or above which must be taken within 2 years prior to the course commencement date.

   Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

3. English Proficiency Tests:
   The following English proficiency tests are accepted by Monash University:

   - Academic IELTS (International English Language Testing System). For more information visit www.ielts.org
   - Internet/Paper Based TOEFL (American Test of English as a Foreign Language). For more information visit www.ets.org
   - Pearson Test of English (Academic). For more information visit www.pearsonpte.com
   - Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE). For more information visit www.cambridgeenglish.org

Undergraduate English categories for IELTS and TOEFL are outlined in the below table and are detailed by faculty for each course in the “English Category” column.

* 2014 fee: Fees are quoted in Australian dollars, and is the annual average fee per 48 credit points of study in this course for 2014. Fees are adjusted annually. Please see monash.edu/fees for updates.

\* Fees for Education courses: This is an accelerated course where you will be required to undertake more than the Standard Annual Load of 48 credit points in Year 2 and/or Year 3 in order to complete the course in four calendar years. The fee quoted is based on 48 credit points of study for one standard year. Therefore you will be required to pay a higher fee in the year(s) where more than the 48 credit points are required.

80  8.5  35  9.33  3.4  76.25  75  8  81  60  A  English, higher level mathematics and at least one of chemistry or physics (all Australian Year 12 equivalent).

81.5  8.75  36  9.67  3  76.25  77.5  8.25  83  A  English, higher level mathematics and at least one of chemistry or physics (all Australian Year 12 equivalent). Available with Chemical, Civil, Electrical and Computer Systems, Materials or Mechanical Engineering. Students will normally expect to complete the course in five years. This is achieved by undertaking one additional unit (above the standard four units) per semester, twice, in the later stages of the degree. The fee quoted is the fee per 48 credit points. Due to the number of credit points taken, actual fees maybe slightly higher.

Application process for international students

When should you apply?

Apply as early as possible. Some courses have application closing dates two to four months prior to the start of the course, while others have quotas.

Aim to have your application received by International Recruitment Services at least two to four months prior to the course start date. This allows time for your application to be processed and can help to ensure that you secure a place if your preferred course has limited places. Applying early also gives you time to get your student visa, which can take up to six months for some nationalities and countries.

Off-campus study

Applications for most courses are accepted all year round, but students should apply as early as possible as some courses have limited places.

International applicants outside Australia wishing to study programs via off-campus learning (study from home) should apply online. For further information visit: monash.edu/offcampus or email offcampus@monash.edu.au

International students undertaking Australian Year 12 or International Baccalaureate (IB) in Australia

International students who are undertaking an Australian Year 12 qualification (for example VCE or equivalent) or IB in Australia must apply through the Victorian Tertiary Admissions Centre (VTAC). For further information please visit www.vtac.edu.au

How to apply

Step 1 – Apply

To apply online please refer to the following website for a step-by-step guide:

monash.edu/how-to-apply

To submit a hard-copy application to Monash University Australia, complete the International Application Form located at the back of this guide, ensuring that all sections are completed and the declaration is signed and dated before you send the application.

Send your completed application form, all certified documents* and a A$100 application fee (payable by credit card, money order or bank draft) to:

International Recruitment Services
871 Dandenong Road
Caulfield East
Victoria, 3145 Australia
Email: mu.documents@monash.edu

You may wish to apply through a Monash registered agent. Some agents may charge a fee for additional services so please ask what these costs are before you make an appointment. To find a Monash registered agent near you please visit monash.edu/agents

* Refer to Section I of the International Application Form for certification information. All documents submitted remain the property of Monash University.

Step 2 – Your application is assessed

When your application is received, Monash University will assess your application according to university entry requirements. To comply with Australian law your application will be assessed to check that you are genuinely seeking temporary entry to Australia to study.

If your application is successful, you will receive a full International Student Course Agreement (ISCA). This will be emailed to you and your Monash registered agent (if you have one). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we are unable to offer you your first preference we will consider your application for the next preference or for a pathway program through Monash College (Foundation Year or Diploma).

Step 3 – Accepting your offer

To accept your offer, follow the instructions in your ISCA. You must complete, sign and return Part B of your ISCA along with payment and a photocopy of the personal details page of your passport before the offer lapse date.

Your payment should include OSHC for the duration of your visa for yourself and any family members accompanying you to Australia.

When making payment it should be noted that:

- Monash University does not accept cash
- Dishonoured bank drafts may incur additional bank fees
- You may need to notify your bank of large deductions
- Bank drafts will need to be mailed or delivered in-person to International Recruitment Services. Please ensure you include your full name and Monash Student ID on the back of the bank draft.

Checking the status of your application

Once your application is received and entered into our database Monash will send an acknowledgement email to you and your agent, if you have one. This email will contain an Account ID and password. Use this ID to check the status of your application at applicant.connect.monash.edu.au/ connect/webconnect.

Applying for credit

Monash University may grant credit for subjects with satisfactory grades that have been undertaken at other recognised tertiary institutions if:
- the subject is considered to be equivalent in content and standard to those offered by Monash University, and
- the subject is relevant to the planned course of study.

It should be noted that awarded credit may affect the course and visa duration.

To apply for credit transfer for previous study, students must complete the following form and return it to International Recruitment Services prior to enrolment; otherwise credit may not be granted: www.monash.edu/ connect/assets/docs/forms/credit.pdf

If we are unable to offer you your first preference we will consider your application for the next preference or for a pathway program through Monash College (Foundation Year or Diploma).

If your application is successful, you will receive a full International Student Course Agreement (ISCA). This will be emailed to you and your Monash registered agent (if you have one). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we are not able to offer you a full ISCA immediately, you may receive a conditional ISCA. A conditional ISCA means you must submit more information and meet the requirements specified in the ISCA. Usually, the information we need is documentation (for example official final transcript, graduation certificate or an English proficiency test) to see if you meet the specific entry requirements for the course you have applied for. We will explain what is needed in the ISCA. Please submit the documentation to us as soon as possible or contact us if you need any help.
Step 4 – We send you an electronic confirmation of enrolment (eCOE) and enrolment package
An eCOE will be emailed to you or your Monash registered agent when you have accepted your full ISCA or packaged ISCA (with no academic conditions specified). You will need the eCOE to apply for a student visa.
After you have received your eCOE, you will receive an enrolment package that includes:
- a welcome letter
- Passport to Monash – your complete guide to living in Australia and studying at Monash University

Step 5 – Arrange your student visa
Monash University is pleased to announce a partnership with the Department of Immigration and Border Protection (DIBP) in the Streamlined Visa Processing (SVP) arrangements. If you are eligible for SVP then your visa application will be assessed as if you are an Assessment Level 1 (AL1) student.

Step 6 – Plan your arrival
Make your own travel arrangements aiming to arrive in Melbourne at least 2 weeks prior to enrolment. This will make it easier for you to settle in and prepare for the start of classes.
If you wish to use our airport reception service and temporary accommodation service, you need to complete and return the request form available at monash.edu/study/international/preparing/reception

Step 7 – Enrolment and orientation
Once you have accepted and paid for your offer, International Recruitment Services will email you an official Authority to Enrol 2 to 3 weeks prior to your enrolment date. The Authority to Enrol lists enrolment tasks that you need to complete prior to enrolment.
Enrolment is the main step in starting your Monash studies. At enrolment you can meet a faculty course adviser, ask questions and discuss your unit selection and course structure.

Fees

**Tuition fees**
To study at Monash University, students must pay tuition fees to the university. Tuition fees vary for different courses. Tuition fees are detailed in the Admissions Table for International Students in this guide and at: monash.edu/study/international/courses/fees.html
The tuition fees quoted are for 48 credit points and applicable to courses commencing in 2014. Tuition fees for courses in 2015 will be different. Once you have commenced your course, Monash University reserves the right to adjust annual tuition fees for future years of your course. However, Monash University undertakes that any adjustment factor for those continuing students will not exceed 6 per cent per annum.
Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.

**Discount for full payment in advance**
Students who pay all of their course fees when accepting their offer can get a discount and will not need to pay yearly fee increases. Students must meet all the following conditions:
- Start the course at Monash University as full-fee-paying student.
- Enrol in a full-time course of more than one year.
- Pay full course fees in advance.
- Complete the course within the standard time-frame.
Students must complete the full payment in advance discount form and return it to Monash University before the first census date.
For further information, see monash.edu/fees/discountrefunds/payment-advance.html

**Discount for a brother or sister**
Students who have one or more siblings enrolled in a Monash University full-fee award course at the same time may be entitled to a discount on their annual tuition fees.
For more information, visit: monash.edu/fees/discountsrefunds/family-discount.html

**Overseas Student Health Cover (OSHC)**
It is an Australian Government visa regulation for international students studying on a student visa to have compulsory Overseas Student Health Cover (OSHC) for the duration of their stay in Australia. Monash University requires all commencing international students to purchase health cover that will last for the duration of their visa.
The electronic Confirmation of Enrolment (eCOE) for student visa application will not be issued until:
- the OSHC payment has been received (along with payment of fee deposit), or
- proof has been submitted that visa length OSHC has been purchased with an approved Australian OSHC provider of the student’s choice, or
- approved documentation has been submitted for exemption from payment of OSHC.
For more information visit: monash.edu/fees/resources/policy/overseas-studenthealth-cover.html

**Cost of living**
It is a good idea to plan and prepare a budget before you arrive. Your tuition and study fees do not include personal costs such as accommodation, food, and other things you will need while in Australia.
For more information and guidelines on how to prepare a budget visit: monash.edu/cost-of-living
Study in an environment that encourages ambition

The new Green Chemical Futures building will feature lively learning and teaching spaces that puts students at the forefront of innovation in education and research. To be completed at the end of 2014.
Complete this form if you are an international student applying for an undergraduate or postgraduate course at one of Monash University’s Australian campuses.

- A non-refundable application fee of A$100 must be paid when you submit this form.
- Do not use this form for Monash research degrees. The correct form is available at monash.edu/migr/apply

PLEASE WRITE CLEARLY IN BLACK INK USING CAPITAL LETTERS IN ENGLISH

Section A: Your application

1. Are you a citizen of Australia or New Zealand or a permanent resident of Australia? Yes ☐ No ☐
   If YES, do not fill in this form. Instead refer to www.vtac.edu.au

2. Do you have a Monash student ID number? Yes ☐ No ☐
   If YES, please state

3. Are you currently enrolled Monash student? Yes ☐ No ☐

4. Are you currently in Australia? Yes ☐ No ☐

Section B: Personal details

We will contact you by email, post or telephone. To avoid delays in your application, it is important you complete ALL of your details clearly including your email address. Your name and date of birth should match those in your passport. If you apply through an agent, ensure all of your details are also provided in addition to those of the agent.

Family name: __________________________ Date of birth: __________________________
Given names: __________________________ Gender: Male ☐ Female ☐

Permanent address in home country (required) must include postcode:
________________________

Telephone: __________________________ Mobile: __________________________
Fax: __________________________ Email (Mandatory): __________________________

Address for correspondence (only if different from your permanent address in your home country – not including agent’s address):
________________________

Telephone: __________________________ Mobile: __________________________
Fax: __________________________ Email (Mandatory): __________________________

Monash Registered Agents

If you apply through an agent please ensure that your agent is registered with Monash University or you may experience delays in your application. For details of registered agents in your country please go to www.msr.monash.edu.au/monash_agents.

Agency name: __________________________
Country: __________________________
Agent staff name: __________________________
Email (for correspondence): __________________________
Telephone: __________________________

Registered Agent’s Stamp

Section C: Citizenship and other information

Country of citizenship (as stated in passport): __________________________ Country of birth: __________________________

You must submit a translated, certified true copy of the personal details page of your passport or birth certificate.

Have you applied for OR do you hold any type of Australian visa? Yes ☐ No ☐
Visa type: __________________________ Expiry date (if applicable): __________________________

Have you been refused an entry visa to any country? Yes ☐ No ☐ If yes, please attach evidence.
Which Australian Immigration Office issued your visa? __________________________
Have you breached any visa conditions in any country?  

☐ Yes  ☐ No  If yes, please explain:

Do you have any medical or health issues that may prevent you from obtaining your visa?  

If you have been issued a protection visa in any country, please provide ALL relevant details. Translated into English (if required) and certified.

Do you have any physical or mental health condition or other issue which may prevent you from undertaking full-time study?  

Also note that health insurance in Australia will not extend to a pre-existing medical condition.  

In answering this question go to www.immi.gov.au/allforms/health-requirements that lists demands in the university environment. Disclosure of disability is treated confidentially and will not be used to disadvantage you. The Disability Liaison Unit at Monash may contact you to discuss the services available. For more information, visit: www.monash.edu/equity-diversity/disability.

If you narrowly missed the course English requirements, you may be eligible for Monash English Bridging packaged with a direct entry into your desired course. If so, Monash will indicate this in your letter of offer.

H ave you been issued a protection visa in any country to date?  

If yes, please provide ALL relevant details. Translated into English (if required) and certified.

If you have been convicted of any crime or offence in any country?  

If yes, please provide ALL relevant details. Translated into English (if required) and certified.

Section D: Course preferences

Choose up to three courses you would like to study and list them in order of preference. Check the entry requirements and prerequisite subjects for each to see if you qualify. If you meet the requirements of your first choice, you will not be assessed for your second and third choices. If you do not meet the entry requirements of any of your preferences your application will be automatically assessed for alternative or pathway courses within the relevant study discipline. Use www.monash.edu/coursefinder to assist in your selection.

Campus codes: Berwick BE, Caulfield CA, Clayton CL, Parkville PA, Peninsula PE

Section E: Students with disabilities

Do you have a disability, impairment or long-term medical condition that may affect your studies?  

If yes, Monash will require translated and certified medical documentation from a relevant treating professional outlining the impact of your condition on your ability to meet the academic demands in the university environment. Disclosure of disability is treated confidentially and will not be used to disadvantage you. The Disability Liaison Unit at Monash may contact you to discuss the services available. For more information, visit: www.monash.edu/equity-diversity/disability.

Section F: English language proficiency

You must provide proof of your English proficiency to the required standard of your chosen course. There are a number of ways to satisfy these requirements. For details, visit: www.policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html. Some of the main pathways are:

- English as the language of instruction
- Academic IELTS/TOEFL/PEARSONS TEST OF ENGLISH (ACADEMIC)
- Academic IELTS/TOEFL/PEARSONS TEST OF ENGLISH (ACADEMIC) exam please indicate when you will sit it

- I will sit/have sat an English language proficiency test
  - ☐ ACADEMIC IELTS
  - ☐ TOEFL (Paper Based/Internet Based)
  - ☐ PEARSONS TEST OF ENGLISH (ACADEMIC)

  Date taken: ☐ D/M/Y ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ OR

- I will apply for a Monash English Language Centre course in Section G.

If you narrowly missed the course English requirements, you may be eligible for Monash English Bridging packaged with a direct entry into your desired course. If so, Monash will indicate this in your letter of offer.

Section G: Application for additional English studies and university preparation

Test your English:

Find out your level of English with our free online test. The test helps you to estimate how many weeks of English you might need to undertake in order to meet the English language requirement for the course you wish to apply for. The free online English test is available at the following website: www.monashcollege.edu.au/englishlanguage.

This test is to be used as a guide only and is not a replacement for IELTS/TOEFL tests or meeting the English language requirement for the course you have applied for.

This section is an application to the Monash University English Language Centre. Additional tuition fees apply for these courses. For details of fees, courses and start dates, visit: www.monashcollege.edu.au/englishlanguage.
Section H: Academic qualifications

Check the academic/English entry requirements, prerequisites and additional requirements for the courses for which you are applying. Additional requirements include submission of a statement of purpose, curriculum vitae, work reference letters, folio, supplementary forms, additional faculty application forms, interviews and auditions.

For undergraduate entry requirements refer to the admissions tables in the Monash University Undergraduate Course Guide for international students or the Monash Course Finder.

For postgraduate entry requirements refer to the Monash Course Finder (www.monash.edu/coursefinder).

Include details of your previous academic qualifications in the relevant sections below. Please ensure commencement and completion dates are specified, or if you are yet to complete your studies, please include your intended completion date. You are also required to supply supporting translated and certified documents to verify your academic qualifications.

Secondary studies (high school studies – Year 12)

Are you transferring within the first six months of your principal course in Australia?

Your principal course is the main course of study to be undertaken where you have been issued a student visa for multiple courses of study.

The principal course would normally be the final course of study. If yes, please attach a release letter from your current provider.

If your final year of study was completed more than six months ago, please attach separately a detailed account of activities/work experience undertaken since then.

Section I: Required documentation

Certified copies of academic qualifications must be attached to this application, including academic transcripts, graduation certificates and grading systems. If the qualifications are in a language other than English, please also supply certified translated copies. Monash prefers NAATI qualified translators.* For more information on NAATI translators, please see: www.naati.com.au.

If the course you have applied for requires work experience please provide a translated and certified copy of your curriculum vitae along with work reference letters issued by your previous employer on original company letterhead stating your job title, the basis of employment (full-time/part-time), a precise description of duties performed, duration of your employment (including dates), and the full name, title and signature of the writer.

Monash University only accepts faxed or emailed certified documents sent via Monash Registered Agents. If you are a direct applicant (and did not apply through a Monash Registered Agent), you will be required to send your original certified documents by mail. All documents submitted with your application remain the property of Monash University.

Certification of documents

All documents submitted for assessment must be properly certified on every page.

Who can certify documents?

Documents submitted within Australia: Solicitor, pharmacist, justice of the peace, member of the police force, doctor, school principal, bank manager, chartered accountant

Documents submitted outside Australia: Monash University registered agent, Monash staff member, solicitor, commissioner for declarations, government official, public notary, university staff (head of department, dean, or registrar)

Applicants have the option to ask their current or previous education institution to send copies of their academic transcripts, graduation certificate and grading systems direct to International Recruitment Services in a sealed envelope sent directly from the institution.

What does the certifier need to do? Approved certifier (from list above) must sight the applicant’s original academic transcripts, graduation certificates and grading systems etc. and check that the copies are true and unchanged copies of the original documents.

The certifier must then certify every page of the documentation as follows:

1. Certifier must write a statement acknowledging or apply a stamp that shows they have sighted the original documents using words such as “certified true copy of the original” or “original sighted”.

2. Certifier must sign the document.

3. Certifier must write their full name.

4. Certifier must apply the agent/organisation stamp.

5. If the certifier is not a Monash Registered Agent, the position title of the certifier must be indicated.

6. Certifier must date the document.

If you have a Chinese qualification, documents submitted for assessment must be:

- Certified by the Notary Public Office. Notary certification must include a certificate stating that translations of all documents in to English are authentic and in conformity with the original in Chinese; OR
- Your transcript/s, degree certificate and graduation certificate/s can be sent to Monash, International Recruitment Services in a sealed envelope directly from your university; OR
- Photocopies of original notarised documents can be submitted by a registered agent. Documents must be certified by the agent. Information regarding registered agents can be viewed at: www.msr.monash.edu/monash_agents.

Monash University reserves the right to refuse documentation on the grounds of incorrect certification and translation.

3
Section J: Credit transfer
Do you wish to apply for credit transfer/advanced standing from your previous studies? [ ] Yes [ ] No
If you have ticked yes, please provide the following:
1. Complete the Credit Transfer Application Form available at www.monash.edu/service-centre/assets/docs/forms/credit.pdf.
2. Submit detailed course syllabus/unit outlines/curriculum for the units your are seeking credit exemptions for.
Further information may be requested from you if your previous course/institution has not been previously assessed by Monash University for credit evaluation assessment.

Section K: Scholarship/sponsorship information
Have you applied for a scholarship/sponsorship from an organisation external to Monash University to support your studies? [ ] Yes [ ] No
Please state the name of the external scholarship/sponsorship: ____________________________
What is the status of your external scholarship/sponsorship application? [ ] Approved [ ] Pending [ ] Not approved
If the external scholarship/sponsorship has been approved please provide a copy of the official letter with this application.

Section L: Application fee payment
You can pay the A$100 application fee by credit card, money order or bank draft payable to Monash University.
Bank drafts/money orders will need to be mailed or delivered in person to International Recruitment Services. Please ensure you include your full name and date of birth on the back of the bank draft/money order.
Credit card payments can be made at the following link: www.monash.edu.au/fees/payment/payment-options.html.
If you have made payment using the online credit card service (from the above link), please print a copy of the payment confirmation email and attach to this application form upon submission.
If your A$100 application fee has been waived by Monash recruitment staff please insert the valid fee waiver promotion code or obtain the recruitment staff signature here:

Section M: Privacy and student declaration
General privacy statement:
The information collected on this form is used to assess your application for entry to a Monash University course. It is also used to create an enrolment record on the student database, to prepare statistical analysis and to inform you about your course and other university courses/events. If you do not complete all the questions on this form, it may not be possible to process your application. Personal information may be collected from or disclosed to relevant bodies for the verification of your previous qualifications, and it may be disclosed to government agencies (e.g. DIBP), as required by legislation or pursuant to obligations under ESOS Act 2000 and the 2007 National Code of Practice or for your visa application. Information may be shared with the registered agent you appoint to assist with your application for entry or visa processing. You have the right to access personal information that Monash University holds about you, subject to legislation, by contacting the Monash University privacy officer at sss.privacy@monash.edu.
Privacy legislation only applies to students who study in Australia. Due to privacy regulations we are unable to disclose information to any other third parties such as friends, relatives and parents. All documents provided to Monash University become the property of the University and will not be returned to you.

Declaration
I warrant that the information on this form, or provided in support of my application, is correct, complete and up to date in every detail. I acknowledge that the provision of incorrect information or the withholding of relevant information relating to my application, including academic transcript/s, might invalidate my application and that the University may refuse to assess my application, withdraw an offer of a place or cancel my enrolment in consequence. Should the University determine that I have submitted a false document, I consent to the University disclosing this information to other relevant tertiary institutions.
I consent to any educational institution at which I have previously been a student and/or my current or any past employer providing Monash University with information which that institution or employer holds about me for the purpose of Monash verifying my grades and/or qualifications or experience.
I declare that I am a Genuine Temporary Entrant (GTE) and a Genuine Student and that I have read and understood the conditions in relation to these requirements as defined on the following website: www.immi.gov.au/students/_pdf/2011-genuine-temporary-entrant.pdf. I understand that if the university forms the opinion that I am not a Genuine Temporary Entrant it may refuse to assess my application, withdraw an offer of a place or cancel my confirmation of enrolment.
I am aware of the estimated total course fees at Monash University and living costs for my stay in Australia. I understand that the total course fees do not cover the cost of books, materials, field trips or any additional cost related to my course, unless otherwise specified.
I declare to have sufficient funds to support myself and my family unit members (if applicable) for the TOTAL period of my stay in Australia including proposed course fees for myself and any school-aged family members, Overseas Students Health Cover, living costs and travel costs, regardless of whether my dependents intend to accompany me in Australia.
I agree to abide by the statutes, regulations and policies of Monash University.
I have read and understood the above conditions and accept them in full.

Student signature: ____________________________ Date: ____________________________

If you are under 18 years of age at the time of submitting this application you must have a parent or guardian sign this declaration on your behalf.

Parent or guardian contact details:
Name of parent/guardian: (circle as applicable) ____________________________
Parent/guardian’s business telephone: ____________________________
Parent/guardian’s fax: ____________________________
Parent/guardian’s email: ____________________________
Parent/guardian’s signature: ____________________________ Date: ____________________________

If you have ticked yes, please provide the following:
Submit detailed course syllabus/unit outlines/curriculum for the units your are seeking credit exemptions for.

Have you applied for a scholarship/sponsorship from an organisation external to Monash University to support your studies? [ ] Yes [ ] No
Please state the name of the external scholarship/sponsorship: ____________________________
What is the status of your external scholarship/sponsorship application? [ ] Approved [ ] Pending [ ] Not approved
If the external scholarship/sponsorship has been approved please provide a copy of the official letter with this application.
