Monash Weather and Climate seminar series
Next seminar: Friday 22nd May

The Monash Sustainability Institute and ClimateWorks Australia – What are they and what do they do?

Professor Dave Griggs  (CEO ClimateWorks Australia and Director Monash Sustainability Institute)

The presentation will briefly describe how the Monash Sustainability Institute (MSI) facilitates projects involving groups of researchers from Monash and elsewhere to address important sustainability issues, giving examples of some current and planned projects. Information will be given on MSI’s education activities focusing on the Green Steps sustainability training program for students. Finally the presentation will give an overview of ClimateWorks Australia, its relationship to MSI and how it aims to deliver on its goal of achieving substantial, long-lasting and responsible reductions in greenhouse gas emissions.

Seminars held in Room 345, Building 28, Fridays 1-2pm
All Welcome!
