1 **Global recognition.** More than 4500 leaders from the world’s most successful companies rated Monash the top Australian university from which to hire graduates. *(The New York Times 2011 and 2012).*

2 **Prestige.** You get a qualification from a university ranked in the world’s top 100 (Times Higher Education World University Rankings 2012-2013).

3 **Expertise.** Undertake your course under the leadership and supervision of world-class scholars.

4 **Choice.** Monash offers one of Australia’s most comprehensive ranges of courses and is known for its wide selection of double degrees, including double master’s.

5 **Connections.** Monash is connected through partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa. We also have a global network of campuses and centres.

6 **Relevance.** As a research-intensive university, our courses are designed using the latest research and industry developments.

7 **Location.** Monash is based in Melbourne, Australia — the world’s most liveable city *(Economist Intelligence Unit, 2011 to 2013).*

8 **Scale.** With campuses across four continents and over 60,000 students, Monash is Australia’s largest university.

The Monash Wind Tunnel is the largest wind tunnel in the southern hemisphere and is open to industry partners, academics and students.
Your study options
Streamlined Visa Processing (SVP)

Monash University has partnered with the Department of Immigration and Citizenship (DIAC) in the Streamlined Visa Processing (SVP) arrangements introduced in March 2012. The SVP will greatly benefit international students by streamlining the documentation required for a student visa application and accelerate the application process for the vast majority of all inbound international students to Monash.

monash.edu/study/international/apply/visa.html

Visas for family members

If you want to bring your family to Australia for the duration of your study, you must include them in your application for a student visa. They will be assessed for visa entry at the same time. You will need to provide evidence that you have enough money to support your dependants in Australia and they may have to complete medical and other tests. For further information on family visas see www.immi.gov.au/students/students/bringing_family.

Coursework options

Postgraduate coursework degrees at Monash are offered in all disciplines. Many master’s degrees are designed so you can exit early with a Graduate Diploma or Graduate Certificate. In this way, if you need to withdraw from study for some reason, the work you have already done will be recognised, and awarded a qualification.

Research options

Monash offers research-based postgraduate degrees in all disciplines. While the challenge takes commitment, drive, motivation and talent, the benefits are enormous. It will enable you to pursue a passion, working in a supportive environment with like-minded people, and open incredible career opportunities.

Coursework and research

Combined degrees offer you the flexibility to complete part of your course by following a unit-based program, and part of it by completing a research thesis. It will allow you to grow through experiencing two very different methods of higher education.

English language requirements

To study at Monash you must have the English skills to perform well in your studies. Each course is allocated a category (A to L) in the right column of the course tables. The requirements of each category is then explained in the English language requirements table on page 62-63.

English Language programs

English programs to suit a wide range of abilities are available through Monash College and can be packaged into your offer. Monash English Bridging can help you achieve the level of English you need to enter your course and the Introductory Academic Program can prepare you for living in Australia and studying at Monash University.

www.monashcollege.edu.au

Test your English!

Find out your level of English with our free online test*. The test helps you to estimate how many weeks English you might need to reach the entry requirement.

www.monashcollege.edu.au/online-test

*This test is to be used as a guide only and is not a replacement for the IELTS test.
Monash University is a member of Australia’s Group of Eight. The group’s members produce more than 70 per cent of all basic research conducted at all of Australia’s public universities. Graduates find full-time employment sooner, begin on higher salaries and are more likely to move on to postgraduate study.

In a recent study published in *The New York Times*, more than 4500 leaders from the world’s most successful companies rated Monash the top Australian university from which to hire graduates. We think that’s brilliant!

*The New York Times (October 2011 and 2012)*
Monash is ranked ‘well above world standard’ in 8 broad fields of research: Chemistry, Engineering, Economics, History, Law, Medical & Health Sciences, Philosophy & Religion and Technology.

QS World University Rankings by subject 2013

- Communications and Media studies: 30 in the world
- Biochemistry: 29 in the world
- Accounting and Finance: 18 in the world
- Law: 13 in the world
- Pharmacy and Pharmacology: 7 in the world
- Education: 6 in the world

Industries experience
Add industry experience to your CV by completing an Internship or Professional Year program with Professional Pathways Australia (PPA). Last year 70% of PPA graduates found employment within three months of graduation.

Give your career a head start: www.professionalpathwaysaustralia.com.au
Monash University has six Australian campuses, campuses in Malaysia and South Africa, a Joint Graduate School in China, centres in Prato, Italy and Mumbai, India and a network of partners across the globe.

**Berwick**
Berwick is a small, friendly campus with about 2000 students around 40 minutes drive south east of Melbourne. It is a five-minute walk from the heart of Berwick’s specialty shops, cafes and business services.

**Caulfield**
Caulfield is the second largest Monash campus, with about 13,000 students. It is the main centre for the faculties of Business and Economics, Art Design & Architecture, and Information Technology. Caulfield is nine kilometres from the Melbourne city centre and adjacent to Caulfield train station. The campus has a gym, library and cafes, and is close to several shopping precincts.

**Clayton**
Clayton is the largest of the University’s campuses. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres. The campus can be reached by public transport utilising an extensive bus network combined with train stations in surrounding suburbs.

**Gippsland**
Monash Gippsland is situated about two hours drive from Melbourne. The campus is valued as a place to study and live away from the pressures of city life. It is easily accessible by a bus connection from Morwell train station or by car.

*Monash University and the University of Ballarat are currently exploring a proposition to create an expanded, regionally focused university. Should the proposition be approved, Monash University’s Gippsland campus would become part of the regionally focused university from 1 January 2014. Under the arrangement, the campus is expected to offer a range of courses that would take advantage of the Gippsland campus’s location and the regional expertise of the University of Ballarat. If the proposition is approved, students will be admitted into courses offered by the expanded university and Monash University will not be admitting new students (except from agreed pathways) into courses at the Gippsland campus. Visit monash.edu/gippsland to ensure you have the latest information on what courses will be available.

**Parkville**
Located three kilometres north of Melbourne’s city centre, the Parkville campus houses the Faculty of Pharmacy and Pharmaceutical Sciences, with first-class teaching facilities, innovative learning spaces and research laboratories. The campus is home to the Centre for Medication Use and Safety and the Monash Institute of Pharmaceutical Sciences, which comprises the largest and most experienced group of pharmaceutical scientists in Australia.

**Peninsula**
The Peninsula campus is about an hour’s drive south of Melbourne, between the bay and the beach. It is a centre for nursing and paramedic training and early childhood and primary education, and is also being developed as a centre for health science research. There is a bus connection to Frankston train station, and a free shuttle bus runs between Peninsula and Clayton campuses.

Visit monash.edu/campuses for more information.

Choose your campus

Monash University and the University of Warwick alliance

Prato Centre
Italy

IITB-Monash Academy, India
Our international locations

Monash is also active in Africa, Asia and Europe. We have campuses in South Africa and Malaysia, a research academy in India, a graduate research school in China and a study centre in Italy. Please see monash.edu/campuses for further information.

Suzhou, China
Following recent endorsement by China's Ministry of Education, the Southeast University-Monash University Joint Graduate School (Suzhou) will officially welcome its first students this year. Located in Suzhou, near Shanghai, the Graduate School will feature postgraduate courses in a range of disciplines including nanotechnology, biomedicine, environmental science, transportation, industrial design, economics, and software, thermal and mechanical engineering. Monash University is the first Australian university to be granted a licence to operate in China. monash.edu/study/campuses/china.html

Sunway, Malaysia
Monash University Sunway campus was the first international campus of Monash University. The campus offers state-of-the-art teaching and learning infrastructure to almost 4000 students. There are specialised laboratories for various fields of study. The University provides financial assistance for intercampus student exchange between Malaysia and Australia. monash.edu.my

South Africa
The South Africa campus is dedicated to educating the future leaders of Africa. The campus is located on a 100-hectare site in Ruimsig, a growing suburb 23 km from the Johannesburg city centre. Students at the campus benefit from small classes, advanced facilities and state-of-the-art technology. There is a strong volunteering ethic on the campus. Many students give up their free time to help disadvantaged children with their school work. www.monash.ac.za

Prato Centre, Italy
The Prato Centre, near Florence, hosts short and semester-length courses and seeks to develop and expand Australia's connections with universities, governments, cultural organisations and industry in Europe. It has also been established to develop and expand the opportunities for Monash and other Australian students to study overseas. It is an ideal venue for workshops, seminars and conferences.

Off-campus
If work or family commitments prevent you from attending one of our campuses, consider studying off-campus. Please note, the Australian Government does not grant international student visas for students studying off-campus programs. monash.edu.au/offcampus

Prato Centre, Italy

Monash University and the University of Warwick
In 2012, Monash partnered with the University of Warwick (UK) to form a unique global alliance. This partnership will raise our international profile and provide unparalleled access to new opportunities and benefits to our students.

The Alliance aims to deliver a seamless international experience for students, offering innovative academic programs as well as opportunities for real and virtual student exchanges. We offer a joint PhD program in which both institutions are the ‘home’ institution, as well as joint and dual master’s programs that combine the distinctive strengths of each university.

South Africa campus

Monash University and the University of Warwick

All of Monash’s Australian campuses are serviced by an extensive public transport network. Visit monash.edu/people/transport-parking/public for full details.
Our research today

Monash is a university that seeks to make a difference. We judge our research not only by its academic excellence, but by the impact it has on the communities we engage with and serve.

Professor Xinhua Wu and her team at the Monash Centre for Additive Manufacturing (MCAM) are creating a new aluminium alloy that will make aircraft 30 to 40 per cent lighter, twice as fuel efficient and still structurally sound. So significant is this project that they are working in close partnership with Microturbo, the European Space Agency and Bombardier.

Our research tradition

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, creating new frontiers and discovering new ways of approaching the fields in which they worked. It’s why a Monash education is respected around the world. Things that we now take for granted would not exist without the initial work of Monash researchers:

– health and wellbeing
– future technologies
– sustainable environments
– resilient cultures and communities

First in-vitro fertilisation pregnancy

Professors Alan Trounson and Carl Wood achieved the world’s first IVF pregnancy in 1973. The Trounson and Wood team went on to achieve Australia’s first (and the world’s fourth) successful IVF birth in 1980.

Fighting influenza

In 1986, a team from our Faculty of Pharmacy and Pharmaceutical Sciences (formerly the Victorian College of Pharmacy) designed and synthesised the anti-flu drug, Relenza. Relenza first became available in Australia in 1999 and is now used globally.

Nobel Peace Prize

In 2007, eight scientists from Monash University shared in the prestige of the 2007 Nobel Peace Prize, awarded jointly to the Intergovernmental Panel on Climate Change and former US Vice-President Al Gore.

Make a difference

Monash is a university that seeks to make a difference. We judge our research not only by its academic excellence, but by the impact it has on the communities we engage with and serve.
Melbourne has a long-held reputation for welcoming international students and providing them with memorable study experiences. It offers a high standard of living, and first-class education, health care, public transport, employment rates, safety and security.

It is consistently voted one of the best places to live in the world. The city is a rich, multicultural landscape of ideas, skills and personalities. The people are cosmopolitan, fun-loving and friendly and the city has something for all tastes, from calm parks and gardens to the edgy arts and music scene.

Melbourne is also Australia’s restaurant capital, with more than 3000 restaurants and cafes, offering cuisines from around the world. And, if you like sport, there are local competitions in all sports – and regular international events, including:
- Formula One Grand Prix
- The Australian Tennis Open
- Australian Rules Football
- Melbourne Cup and Caulfield Cup
- Rip Curl Surfing Titles
- Australian International Air Show
- International Test Cricket

1. Ranked the world’s most liveable city for the third year in a row.
Economist Intelligence Unit (2011-2013)
Accommodation
Monash Residential Services (MRS) can help guide you in your search whether you decide to live on or off-campus. For more information on accommodation.

On-campus
Living on-campus offers certainty and security for students living away from home. It is also a great way to concentrate on your studies and you’re part of a community of people also committed to their courses. The closing date for lodging applications for the following year is 30 November.

mrs.monash.edu/oncampus

Off-campus accommodation
Off-campus accommodation options include student hostels, full board/homestay, part board, private apartments and private houses. For a list of suburbs near campuses, visit monash.edu/study/international/preparing/accommodation.html.

The Housing Advisory Service, part of Monash Residential Services, assists students with information and advice about off-campus accommodation.

mrs.monash.edu/offcampus

Discover more about your accommodation options: www.youtube.com/watch?v=HoDaMYE1m3M

Bringing your family
If you have a visa to study in Australia, family members can accompany you if your study lasts for at least one year and you can support them. You should also check to see if you are eligible according to the conditions set out on the Australian Government immigration website.

‘Family members’ generally means your husband or wife and dependent children. If you are under 18 years old, you can bring a guardian.

Monash offers childcare services at our Australian campuses. For private childcare, check the My Child website (www.mychild.gov.au) or use an internet search engine, and search for: ‘child care’ + [the suburb you will be living in]. If you are researching private child care, make sure you check the fees and find out if there are waiting lists.

monash.edu/study/international/melbourne/bringing-family.html
A postgraduate degree takes commitment and drive. To help you maintain the momentum you build, we help put you in touch with like-minded people. To share information. To build networks. To get the support to keep you going. Monash helps students settle into university life by providing an extensive range of support programs and services.
Disability support services

If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will support you to reach your full potential. Eligible students can access services such as learning support, assistive software or equipment loans.

monash.edu/equity-diversity
Know your opportunities
Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

For a complete list of scholarships offered by Monash University, including honours and research scholarships, scholarships for current students, faculty scholarships and scholarships supported by external providers, visit monash.edu/international-scholarships.

Research scholarships
There are various scholarships for international students wishing to undertake a master’s degree by research or doctoral program at Monash University. Applicants should hold, or expect to hold, a bachelor’s degree with first class honours or qualifications and/or research experience deemed equivalent by the University. There are no age restrictions. Some scholarships cover living expenses and may be combined with a second scholarship covering tuition fees.

Living allowance scholarships include:
- Monash Graduate Scholarships
- Silver Jubilee Postgraduate Scholarship
- Sir James McNeil Foundation Scholarship

Tuition fee scholarships include:
- the Endeavour International Postgraduate Research Scholarship
- the Monash International Postgraduate Research Scholarships
- the Vera Moore International Postgraduate Research Scholarship.

The Monash Institute of Graduate Research (MIGR) offers generous travel grants for conference attendance and other activities related to the candidate’s research project.

Doctoral and master’s by research students who are under examination may also apply for publications grants. A statistical support service is also available.

Further information can be obtained from MIGR at monash.edu/migr/support/scholarships

Coursework scholarships
Australia Awards (AusAID)
The Australia Awards (also known as AusAID) is an initiative of the Australian Government to promote knowledge, education links and enduring ties between Australia and our neighbours through Australia’s extensive scholarship programs.

Monash University offers a range of courses suited to the development needs of AusAID and its scholarship holders. Find out more through our guides below or check the Australia Awards website to see your country’s area of priority.

monash.edu/study/international/apply/scholarships/australian-government-scholarships.html

Monash recently introduced two new exciting scholarships for international coursework students:

Monash International Merit Scholarship
A$10,000 paid per year to high achieving international coursework students.

monash.edu/international-scholarships

Monash International Leadership Scholarship
100% course remission for high achieving international coursework students.

Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.

Monash Art Design & Architecture (MADA) is a place of creative excellence and innovation. With courses at the Caulfield and Gippsland campuses, our vibrant faculty is at the forefront of education in creative arts, architecture and design disciplines.

Monash.edu/mada

At a glance

Research intensive: One of the largest studio-based research degree programs in Australia.

Experience: Our staff are leading practitioners, creative professionals and renowned researchers.

Influential graduates: Our graduates are shaping the future of art and design around the world. As award-winning practitioners, they push artistic and social boundaries and challenge established ideas.

Study in Prato, Italy

The faculty offers a biannual research study at the Monash Centre in Prato, near Florence with a visit to Venice for the Biennale. The study is based around individual research with an extensive cultural support program, exploring the visual resources of Tuscany. It includes visits to museums, galleries and buildings in the surrounding region as well as Prato. The program visits Ravenna for its spectacular mosaics on the way to Venice and Padua to view the magnificent Giotto in the Scrovegni Chapel. In Venice the program looks at the main Biennale sites as well as the historic visual culture of the city. Integral to all faculty studies is the cultural experience of being part of a medieval city, complete with walls, churches, palaces and winding cobbled streets; a living museum which brings history alive and makes it a part of daily life.

Completing your research in Prato gives you access to some of the world’s greatest collections of art and design as it is close to Tuscany’s renowned art collections such as the Uffizi and the Accademia. Prato also houses the Pecci Foundation, the most important contemporary art museum in central Italy.

Research excellence

The faculty is recognised and respected for providing excellence in education, practice and research that is characterised by a spirit of enquiry and collaboration. Our energy is driven by a community of staff who are active art and design practitioners, and architects and theorists that focus on critically informed creative activity at the highest level. Together staff and students form a community of practitioners and scholars immersed in creative production and collaborating on extending the boundaries of visual culture.

Harim, Larissa, Malahat, Rao, Johny and Carrie
Master of Multimedia Design

Malahat, Rao, Harim, Larissa, Johny and Carrie studied the Master of Multimedia Design at Monash. While studying at Monash, they were awarded the project to develop the design and multimedia content for the World Model United Nations (WorldMUN) conference, held in Melbourne in March 2013.

Together, they designed everything from the nametags, programs and tickets for the international delegates, to the event identity, website and promotional videos. It was a huge brief, but the team rose to the occasion.

The WorldMUN project provided Harim and her fellow students with an invaluable opportunity to apply the design skills they gained at Monash. Fortunately each member of the group had strengths that complemented the others, and they learnt a lot about time management and cooperation throughout the process.

### Research degrees

| Doctor of Philosophy            | 1322        | 4 years FT      | Caulfield, Gippsland | The PhD is a university award administered by the Monash Institute of Graduate Research. For either mode, the minimum qualifications for admission to PhD candidate are: a bachelor’s degree (at least four years of full-time study), which normally includes a research component in the fourth year, leading to an honours degree class I or IIA level; or a course leading to a masters preliminary qualification at a level rated by the faculty as equivalent to an honours class I or IA; or a master’s degree that entailed work, normally including a significant research component, at least equivalent to an honours degree. Under exceptional circumstances, the Graduate Research Committee may accept candidates with a degree of a lower grade than honours IA, if they have demonstrated an ability to undertake research at the PhD level: for example by producing evidence of quality work that can be reported on by a referee, or by producing proof of relevant professional experience at a high level. Application for the studio research PhD must be accompanied by 12–20 images of recent original work clearly numbered with a corresponding list of details attached. | Throughout the year | 27,500 | J                     |
| Master of Arts                  | 0498        | 2 years FT      | Caulfield, Gippsland | Students should hold an Australian bachelor’s degree with honours (Upper H2B (mark of 65 or above)) or equivalent from a recognised tertiary institution in an area appropriate to their research discipline. In special circumstances, the faculty may admit an applicant who lacks any of the qualifications listed above, but whose publications and other experience is considered by the faculty to be equivalent research training in the proposed field of study. Such applications will be considered on a case-by-case basis. All applications must be accompanied by a research proposal of 200 to 300 words. | First Semester (March) | 27,500 | J                     |

English language level: Please see page 62–63 for detailed requirements.

*Special note about the Gippsland campus

Monash University and the University of Ballarat are exploring a proposition to create an expanded, regionally focused university. Should the proposition be approved, the campus is expected to offer a range of courses that bring together the strengths of both Monash University and the University of Ballarat from 1 January 2014. If the proposition is approved, students will be admitted into courses offered by the expanded university and Monash University will not be admitting new students (except from agreed pathways) into courses at the Gippsland campus. As course offerings may change, please visit monash.edu/gippsland to ensure you have the latest information on what courses will be available.
Improve your English

Our 10 or 15 week Monash English Bridging program is designed to prepare you for entry into many postgraduate art, design and architecture degrees.

Find out more at: monashcollege.edu.au/english
At a glance

- **International focus**: Study options on four Australian campuses and four international locations: China, Malaysia, South Africa and Prato, Italy. The faculty has exchange agreements with 130 universities throughout the world.

- **Excellent resources**: One of the world’s largest collections of online databases with 243,838 e-books, 33,991 e-serials and 798 electronic databases.

- **Flexibility**: Study across disciplines with another faculty or make it a double degree.

**Master of International Development Practice**

Equitable and environmentally sustainable development remains a pressing global concern. Complex political, economic, cultural and ecological challenges contribute to extreme poverty, reduced health, environmental vulnerability and fragile governance affecting the well-being of millions of people worldwide. These multi-dimensional challenges require professionals with the practical skills and analytical capacity to help build resilience to economic, political and environmental vulnerabilities both nationally and at the community level.

The Master of International Development Practice offers a multidisciplinary approach to the theory and practice of sustainable development. Delivered by specialists from the Humanities, Social Sciences, Medicine, Business and Economics, Education and Law, the course enables project management, leadership skills development and research training within an interdisciplinary curriculum.

Required fieldwork, study abroad and internship engagement is a strength of this program, which includes options to engage in field-schools at sites of significant development practice in South Africa and the Asia-Pacific region.

**Research excellence**

- **Broad supervision**: As one of the largest arts faculties in Australia, we have the capacity to supervise almost any topic. We can also offer supervisory teams across disciplines and in collaboration with universities throughout the world.

- **Research support programs unique to arts**: We provide a range of highly successful programs to help our research students achieve standards of excellence. This includes initiatives such as the Graduate Researchers in Print program, which encourages and mobilises higher degree research candidates to write and publish in their fields.

**Muhammad Iqbal**

**Master of International Relations**

After graduating from the Master of International Relations, Muhammad went on to work as a researcher at the Global Terrorism Research Centre (GTReC) and the Monash Sustainability Institute (MSI).

At GTReC, he is involved in various research activities, one of which looks at the use of online social media platforms by non-violent extremist groups. At MSI, Muhammad helps run programs that host grounds of visiting international fellows from overseas. He has also worked as a researcher and teaching associate at the Centre for Islam and the Modern World.

Muhammad is currently preparing to undertake a PhD examining Islamic education in Indonesia.

**Master of Bioethics**

This course provides an interdisciplinary education that is concerned with the ethical issues raised by medicine and the biomedical sciences. It is suited to health care professionals, scientists who face complex ethical issues in their working lives, those involved in developing public policy and law and those who are interested in exploring issues of public concern in greater depth. Studies cover questions of life and death, ethical issues in patient care, legal issues in bioethics and ethical issues in professional life. Students who have completed at least one semester of the course are eligible to apply for an annual fellowship to work during the Australian summer as an intern at the World Health Organisation in Geneva.

**Master of Communications and Media Studies**

This program is designed to address the needs of those working, or aspiring to work, in the communications industry. It looks at the history, development and reception of traditional and new media both globally and with reference to Australia, Malaysia and Singapore. Contemporary policy debates in these and other nations are studied as responses to changing processes of mediation and consumption. More widely, the degree aims to develop skills in communications and media research.

**Master of Counter-Terrorism Studies**

The degree offers a rigorous course of study that examines terrorism and political violence in international politics. It provides a critical understanding of what terrorism is and how it is constructed and reproduced. It also addresses the diverse and multifaceted factors involved in enacting and preventing terrorism and other security concerns. The course is suited to professionals working in law enforcement, public service, defence and diplomacy as well as those who are interested in pursuing postgraduate study in this area. Studies cover terrorism (state, religious, revolutionary and right wing); the political, philosophical and intellectual bases of terrorism; political violence and political movements; and country and regional studies.

Master of International Sustainable Tourism Management

This course draws on best practices within the broad realm of the tourism industry, policy governance and research, to develop a critical understanding of the relationships between tourism and sustainable development with a particular emphasis on emerging economies and the development of small and medium sized enterprises within them. It addresses tourism’s potential to be compatible with the achievement of a range of objectives, including developing sustainable organisations, urban and rural development/regeneration, natural resource management and wildlife conservation, and diversifying benefits from international and domestic tourism. It facilitates the development of skills and techniques to develop tourism policies and practices in a global setting and to manage tourism development and enterprises in the direction of more sustainable practice. The course also includes a field-school study of patterns of development within an emerging economy in the Asia-Pacific region.

Master of Interpreting and Translation Studies

This course is suited to students with advanced bilingual proficiency and aims to develop their interpreting and translation skills while raising awareness of practical and theoretical approaches to translation/interpreting practice and studies. Students gain a foundation in theories of translation and interpreting and receive training in research on these areas. The core units provide intensive language-specific practice in written and oral transfer skills to the National Accreditation Authority for Translators and Interpreters (NAATI) professional level. The course has three streams: combined interpreting and translation; translation-only; and conference interpreting and translation.

Master of Journalism

This course provides an entry-level qualification for a professional journalism career as well as a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. It provides a comprehensive introduction to the print, online, radio and video—combined with critical analysis of the role of the media in contemporary society. The course has strong links with industry and with leading universities in journalism education both nationally and internationally.

Master of Journalism and Master of Business

This course provides a comprehensive introduction to Australian and international business and an entry-level qualification for a professional journalism career, and a mid-career course for working journalists/business people seeking to extend their expertise and refresh the intellectual basis of their practice. It has a national and international orientation designed to optimize the contribution graduates will make to their professions using a full range of media and business practices and technologies.

Master of Journalism and Master of European and International Studies

This course provides a comprehensive introduction to European society and culture, the European Union and its relations with non-EU countries, regions and organisations. It also provides an entry-level qualification for a professional journalism career, and a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. The course has a national and international orientation designed to optimise the contribution graduates will make to their profession using a full range of media technologies.

Master of Journalism and Master of International Relations

This course provides a comprehensive introduction to the nature of the international political system and some of the key issues in contemporary international relations, an entry-level qualification for a professional journalism career, and a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. It has a national and international orientation designed to optimize the contribution graduates will make to their profession using a full range of media technologies and insights into approaches to international relations.

English language level: Please see page 62–63 for detailed requirements.
### Master of Journalism and Master of Sustainability

This course provides a comprehensive introduction to environmental sustainability and sustainable development, and an entry-level qualification for a professional journalism career, and a mid-career course for working journalists seeking to extend their expertise and refresh the intellectual basis of their practice. It has an international orientation designed to optimize the contribution graduates will make to their profession using a full range of media technologies. The Master of Sustainability component offers a choice of three distinct streams:

- _Environment and Governance_
- _Corporate Environmental and Sustainability Management_
- _International Development and Natural Resource Management_

### Master of Publishing and Editing

This course is designed to provide editorial and publication management skills to those with aspirations to become involved in scholarly, commercial, educational, academic and corporate publishing, to further their careers in publishing, or to establish their own small publishing business. The course provides an overview of Australian publishing and its international connections, both historical and contemporary, and a variety of vocationally oriented, special-knowledge and skill-based units. There is provision in the program for students to take an industry internship or to complete a research thesis.

### Master of Sustainability

This interdisciplinary course is designed to meet the needs of graduates from a wide range of backgrounds who wish to enhance their qualifications for careers in environmental sustainability, corporate sustainability management, or sustainable development, encompassing policy and analysis, planning, consulting, education, advocacy and management. It is also designed for those who wish to broaden and deepen their understanding and experience to enable societal, organisational and individual change and responsible action to support sustainability both domestically and internationally. The course offers three distinct streams:

- _Environment and Governance_
- _Corporate Environmental and Sustainability Management_
- _International Development and Natural Resource Management_

All three streams offer a research or internship project component, which provides students with the opportunity to work in real-world contexts, to combine theory and practice in responding to local and global issues at individual, community, corporate and government levels.

### Master of Tourism

This is a multidisciplinary course with strong international and industry links, specifically designed to equip students with the skills required to develop a career in tourism and associated industries. The course provides students with an in-depth understanding of tourism development theory and practice, and facilitates the development of skills and techniques to develop tourism policies and practices in a global setting and to manage tourism development in the direction of more sustainable practice. Students also have the opportunity to attend an intensive field-school to study the patterns of development within an emerging economy in the Asia-Pacific region.

- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of a minimum upper H2B (mark of 65 or above); or  
- an Australian or New Zealand coursework master’s degree with a significant research component graded at upper H2B (mark of 65 or above), and an overall result of upper H2B or above; or  
- an Australian or New Zealand research master’s degree with an overall result of a minimum upper H2B (mark of 65 or above); or  
- qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above. | First Semester (March) Second Semester (July) | 27,400 | J          |

**English language level:** Please see page 62–63 for detailed requirements.
Master of Arts (Music Performance)
Performance is at the heart of Monash University’s Sir Zelman Cowen School of Music. This course enables students to develop instrumental or vocal performance skills and self-confidence to a professional level. Students widen their knowledge of repertoire and style, while gaining skills in research and writing.

3059 1.5 years FT Clayton

The minimum qualifications for admission to PhD candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of an upper H2B (mark of 65 or above) (normally with a research component in the fourth year) or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of an upper H2B (mark of 65 or above) or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or
- an Australian or New Zealand research master’s degree with an overall result of an upper H2B (mark of 65 or above) or
- a qualification considered equivalent to one of the above (a minimum of a bachelor’s degree with substantial professional experience in the field in the form of publications, performances and collaborations that may be evaluated by a group of peers who are experts in their respective fields).
Applicants should also make contact with the HDR Recruitment Manager to discuss any specific program expectations.

Master of Environmental Science by Research and Coursework
This course is concerned with the interactions between humans and their bio-geological contexts with the aim of re-integrating the two with the insights offered by both the humanities and the sciences. Research emphasises the processes behind human-environment interactions, the development of policy, and the implementation of management strategies favourable to the environment. This program offers a primary insight into the nature of the environmental issues through core coursework units involving interdisciplinary research and an understanding of the social construction of the issues.

2702 1.5 years FT Clayton

The minimum qualifications for admission to PhD candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of an upper H2B (mark of 65 or above) (normally with a research component in the fourth year) or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of an upper H2B (mark of 65 or above) or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or
- an Australian or New Zealand research master’s degree with an overall result of an upper H2B (mark of 65 or above) or
- a qualification considered equivalent to one of the above.

Research degrees

Doctor of Philosophy
The PhD program offered by the Faculty of Arts enables students to complete extensive, independent research under the supervision of an expert academic. When completed, this research must make a valuable contribution to the current body of knowledge on their chosen topic.

0020 4 years FT Caulfield, Clayton, Gippsland, Malaysia

The minimum qualifications for admission to PhD candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year) or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or
- an Australian or New Zealand research master’s degree with an overall result of H2A or above or
- a qualification considered equivalent to one of the above.

Doctor of Philosophy (Creative Writing)
This course is designed to enable candidates to engage intellectually with their creative process and to acquire professional qualifications in the area of creative writing.

3940 4 years FT Clayton

The minimum qualification for admission to PhD candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year) or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or
- an Australian or New Zealand research master’s degree with an overall result of H2A or above or
- a qualification considered equivalent to one of the above.

Doctor of Philosophy (Music Composition)
This course is designed for composers to develop a research-based composition folio that makes an independent and original contribution to knowledge.

4067 4 years FT Clayton

The minimum qualifications for admission to PhD candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of H2A or above (normally with a research component in the fourth year) or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or
- an Australian or New Zealand research master’s degree with an overall result of H2A or above or
- a qualification considered equivalent to one of the above (a minimum of a bachelor’s degree with substantial professional experience in the field in the form of publications, performances and collaborations that may be evaluated by a group of peers who are experts in their respective fields).

Note: If applicants have obtained the above minimum qualifications without having undertaken composition units at either honours or master’s qualifying levels, students need to demonstrate their ability to compose through the submission of at least two original musical works to the satisfaction of the school’s coordinator of composition.
### Doctor of Philosophy (Music Performance)

This course requires candidates to develop and present a live performance in a public venue, and submit a written critical commentary on their work. The performance will embody the results of the research investigation, which will be into the contexts, aesthetic elements and theoretical influences of the project. The commentary will address performance context and methodology and demonstrate how the performance research contributes towards the body of scholarly knowledge.

Applicants will be required to perform a 30 minute audition followed by a 30 minute interview. In the case of overseas or interstate applicants, a video recording of a performance will be accepted for consideration in lieu of an audition. With regard to the audition process, 2 (two) references are required from referees who can speak to both an applicant’s academic training as well as performance abilities. Applicants must also submit evidence of practical work in the field in a portfolio. See monash.edu/coursefinder for full details of portfolio requirements. |

### Doctor of Philosophy (Theatre Performance)

The course aims to equip students with a sophisticated understanding of the real world application of their research. It appeals to a broad range of candidates including theatre professionals, practitioners, educators, honours students and those who want to advance their knowledge and skills in areas such as:

_ Creating performance work for professional production
_ Understanding the mechanics of performance making and theatrical production and
_ Exploring methodologies of practice as research in performance (an area recognised as cutting edge in international theatre and performance studies).

### Doctor of Philosophy (Translation Studies)

The PhD in Translation Studies offered at Monash University is the first of its kind in Australia. Translation Studies at Monash adopts an interdisciplinary approach and introduces candidates to the methodologies of practice as research. Candidates are required to submit a body of translated work together with a critical exegesis. While its focus is on the theory and practice of translation, it draws upon a wide variety of fields including language, culture and literary studies, linguistics, semantics, media and technology, science, finance and the law.

The main languages available are Chinese (Mandarin), French, German, Indonesian, Italian, Japanese, Korean, and Spanish. The following languages are subject to staff availability: Arabic, Croatian, Russian, Serbian and Ukrainian.

| 4103        | 4 years FT     | Caulfield | Admission to the PhD (Journalism) will require one of the following qualifications in journalism or a related discipline as well as substantial documented professional experience in the field:  
- a four year Australian or New Zealand bachelor’s degree or equivalent international qualification with an overall result of H2A or above (normally with a research component in the fourth year), or  
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of H2A or above, or  
- an Australian or New Zealand coursework master’s degree with a significant research component graded at a Distinction or above, and an overall result of H2A or above, or  
- an Australian or New Zealand research master’s degree with an overall result of H2A or above, or  
- a qualification considered equivalent to one of the above (a minimum of a bachelor’s degree with substantial professional experience in the field in the form of publications, performances and collaborations what may be evaluated by a group of peers who are experts in their respective fields).  
All applicants must submit evidence of practical work in the field in a portfolio which will include the following:
1. A research proposal of 2-3 pages addressing the following headings—
   i. Research question
   ii. Background to the research
   iii. Aims of the research
   iv. Methodologies of the research
   v. Examples of comparative practice
   vi. Associated literature
   vii. Proposed structure of the practice/creative based project
2. A covering letter explaining the candidate’s interest in the degree and a CV outlining the candidate’s professional interests, previous research and publications, if any. | Throughout the year | 27,400 | J |

### Master of Arts

A Master of Arts by 100 per cent research enables students to undertake substantial independent research on a chosen topic while under the supervision of an academic.

English language level: Please see page 62–63 for detailed requirements.
Master of Arts (Music Composition)
The degree is designed to enable composers to develop a distinctive compositional voice and to research and acquire a range of compositional techniques. Students create a folio of original compositions that demonstrates their ability to work in various media, including traditional, electro-acoustic, and contemporary solo and chamber combinations. They also write a critical commentary that demonstrates their capacity for research into compositional approaches and musical aesthetics in the context of contemporary music. Through regular work in the studios, students acquire a knowledge of music technology and an understanding of music technology as a compositional tool.

3063 2 years FT Clayton
The minimum qualifications for admission to 100% research master’s candidature are:
- a four year Australian or New Zealand bachelor’s degree with an overall result of a minimum upper H2B (mark of 65 or above); or
- an Australian or New Zealand master’s preliminary qualification with a significant research component and with an overall result of a minimum upper H2B (mark of 65 or above); or
- an Australian or New Zealand coursework master’s degree with a significant research component graded at a minimum upper H2B (mark of 65 or above), and an overall result of upper H2B or above; or
- an Australian or New Zealand research master’s degree with an overall result of a minimum upper H2B (mark of 65 or above); or
- qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.

Note: If applicants have obtained the above minimum qualifications without having undertaken composition units at either honours or master’s qualifying levels, students need to demonstrate their ability to compose through the submission of at least two original musical works to the satisfaction of the school’s coordinator of composition.

English language level: Please see page 62–63 for detailed requirements.

Master of Arts (Theatre Performance)
This course enables candidates to combine creative output with practice-based research. Students are required to produce a live performance, normally in one of the fields of directing, theatre making, dramatic writing or theatre design. The performance will embody the results of research into the contexts, theoretical influences, aesthetic elements and performance making processes of the project.

3939 2 years FT Clayton
The minimum qualifications for admission to 100% research master’s candidature are:

- qualifications or experience that the Graduate Research Committee considers to be equivalent to, or a satisfactory substitute for, the above.

First Semester (March) 27,400
Second Semester (July) 27,400
At a glance

Monash University has an enviable reputation for teaching and research excellence across business disciplines. This reputation is built on our innovative and progressive approach to course delivery, and the strong links we have forged with commerce and industry – both in Australia and overseas – making Monash degrees truly international.

We create leaders who adapt and thrive in a rapidly changing business world. We are consistently ranked among the leading universities in the world, and our degrees are globally recognised, giving our graduates an extra edge to help them succeed in the international job market.

Global reputation: Monash has been awarded international business school accreditation by the Association to Advance Collegiate Schools of Business (AACSB), the Brussels based European Quality Improvement System (EQUIS), and the Association of MBAs (AMBA). We are the first Group of Eight university to have achieved this esteemed ‘triple crown’ of business school accreditations placing the university in the elite ranks of one per cent of business schools worldwide. These accreditations establish Monash as one of the world’s leading higher education institutions in business education.

Research excellence: With research strengths across all major business disciplines, the faculty supports a wide range of research endeavours including the Centre of Policy Studies (CoPS) and the Centre for Health Economics.

Personal and professional development

The faculty provides a range of personal and professional development activities including regular workshops in networking, career readiness, academic development, leadership and mentoring for graduate students. These are designed to enhance and complement your study, add value to your academic life and transform your career path. Personal development units, designed to enhance your capacity to lead and manage in an international business environment, are available within our master’s programs.

Professional accreditation

Our programs satisfy the educational requirements for professional registration by relevant professional bodies including CPA Australia, Institute of Chartered Accountants Australia (ICAA), Financial Services Institute of Australasia (FINSA), Australian Institute of Management (AIM), Australian Human Resources Institute (AHRI) and the Australian Marketing Institute (AMI).

Harsh Vardan
Master of Business (Banking and Finance)

After graduating from the University of Delhi with a bachelor’s degree in commerce, Harsh entered the banking world with Citibank’s credit card division. He decided to further this career in banking by undertaking a Master of Business (Banking and Finance).

“The degree gave me a solid foundation in the banking and finance environment in Australia, as well as a broader outlook of general business principles. One of the highlights of the course was the blend of theory and the opportunity to put that knowledge to the test – such as the simulated dealing room experience in the Money Market unit. This valuable experience has given me the skills I need to succeed in my current role as Manager of Governance and Reporting in the Strategic Projects team at ANZ.”

Master of Applied Econometrics
This is a coursework plus research project degree, aiming to provide students with the skills and research experience required for applied econometric projects in economics, business and finance. The program offers a comprehensive curriculum including units in applied econometrics, time series analysis, financial econometrics, microeconometrics and econometric theory. Graduates of the program will be equipped to design and implement applied econometric projects for government and business sectors. They will have the skills that can be used across the broad range of disciplines including economics, finance, market research and credit risk management. Graduates of this program will also have the necessary quantitative skills to undertake higher degrees by research.

3822 1.5 years FT Caulfield Applicants must have completed an Australian bachelor’s degree or an equivalent qualification, or an approved pathway and achieved a preferred Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the faculty. Applicants must have achieved a credit or equivalent in an introductory multiple regression unit at tertiary level. Applicants will be ranked and selected based on their entire academic record.

First Semester (March) Second Semester (July) 34,100 A

Master of Applied Finance
Finance, banking and risk management are important and strategic functional elements of business, and professionals working in these key areas make a critical and active contribution to public and private organisations across the globe. This course is designed for graduates with an educational and/or professional background in business or commerce, wishing to gain a formal qualification in applied finance.

3818 1 year FT Caulfield Applicants must have completed an Australian bachelor’s degree with a major in finance or an equivalent qualification. Applicants will be ranked accordingly based on their entire academic record, and a 65% average is preferred with due consideration given to relevant employment experience.

First Semester (March) Second Semester (July) 35,200 A

Master of Applied Finance and Master of Applied Econometrics
This course provides the quantitative skills and expertise required to carry out regression analysis, forecasting and financial market analysis, designing and implementing applied econometric projects as well as providing advanced knowledge and skills in finance. These skills are extremely attractive to the business and financial services sector.

4412 2 years FT Caulfield Applicants must have completed an Australian bachelor’s degree with a major in finance or an equivalent qualification. Applicants must have achieved a credit or equivalent in an introductory multiple regression unit at tertiary level. Applicants will be ranked accordingly based on their entire academic record, with a preferred Weighted Average Mark (WAM) of 65% and with due consideration given to relevant employment experience.

First Semester (March) Second Semester (July) 35,200 A

Master of Applied Finance and Master of Business (Accounting)
The course aims to provide graduates with theoretical constructs and applications for their work as finance professionals in the financial services industry and other business sectors. This course is also designed to enhance and develop the knowledge and skills of accounting graduates in public practice, industry and academia. It includes advanced level studies in financial and managerial accounting, auditing, corporate and international finance, and investments.

3850 2 years FT Caulfield Applicants must have completed an Australian bachelor’s degree with a major in accounting and a major in finance or an equivalent qualification. Applicants will be ranked accordingly based on their entire academic record, and a 65% average is preferred with due consideration given to relevant employment experience.

First Semester (March) Second Semester (July) 35,200 A

Master of Banking and Finance
This is a contemporary degree for students who want to develop their knowledge and skills in banking and finance. As well as developing sound financial skills, this degree will help develop your managerial and decision-making skills, giving you the expertise to work in domestic and international finance markets. The course is designed for early career finance professionals and those who don’t have a background in finance, and would like to pursue opportunities in the financial services sector. The degree focuses on the areas of capital markets, derivative products, portfolio management, business finance and financial management.

4435 2 years FT Caulfield Applicants must have completed an Australian bachelor’s degree or an equivalent qualification in a non-finance discipline, or an approved pathway and achieved a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the faculty. Applicants will be ranked and selected based on their entire academic record.

First Semester (March) Second Semester (July) 35,200 A

Master of Business
The Master of Business is an innovative and industry-focused graduate program with a strong emphasis on personal development as well as corporate governance and social responsibility. This degree gives you the ability to build on your undergraduate qualification and develop comprehensive business skills. The course is specifically designed for early and mid-career professionals who wish to refine their business skills and advance to the next stage in their career. The business acumen you will develop during the course will give you the expertise to enter the corporate environment, or progress to management within your chosen field.

3844 2 years FT Caulfield Applicants must have completed an Australian bachelor’s degree or an equivalent qualification, or an approved pathway and achieved a Weighted Average Mark (WAM) of 65% or an equivalent GPA as determined by the faculty. Applicants will be ranked and selected based on their entire academic record.

### Master of Diplomacy and Trade

The Master of Diplomacy and Trade is the only postgraduate course in Australia that offers a combination of foreign affairs and international trade subjects, with a focus on international development issues. The course is designed for young professionals who are looking to develop their career opportunities within NGOs, government departments such as the Department of Foreign Affairs and Trade, the United Nations and corporate organisations working in international business environments. This degree will give students high-level training across international trade, diplomacy, economics, international law and contemporary international politics. You will develop the tools and credentials required to provide policy, stakeholder and international relations advice, and gain a solid understanding of the issues facing international trade and development across the globe. It will develop essential skills such as evaluating key trends in foreign and trade policy, understanding the implications of international trade rules and providing policy advice in the areas of foreign affairs, trade and business.

### Master of Human Resource Management

This degree focuses on developing students’ expertise in contemporary HR issues, such as organisational change, industrial relations, HR planning and leadership.

The course is designed for current and aspiring HR professionals seeking specialist training in HR for career progression. It also caters for non-HR professionals who deal with workforce management, industrial relations or other management issues and would like to develop strong capabilities in these areas. It offers a flexible approach, so you can tailor your electives to suit your own interests and career goals.

Students will learn how to develop HR policy and practice, deal with organisational change and manage other employment issues such as industrial relations issues, change management and international business practices.

### Master of Philosophy

The Master of Philosophy allows candidates to develop in-depth knowledge, expertise and skills through the application of research to business problems and issues. Students gain experience in the design and implementation of research and make a contribution to an existing body of knowledge by applying, clarifying or interpreting that knowledge.

Monash University has formally adopted a commitment to scholarly research that includes the aim to be known globally for delivering high quality research that leads business and economic theory and practice. The Monash Faculty of Business and Economics has received international recognition for its high quality teaching, research and corporate links, including accreditation by the European Quality Improvement System (EQUIS).

The Master of Philosophy requires a minimum of two years of full-time study and a thesis. The university has a strong reputation for creative and innovative research, and students are encouraged to participate in cutting-edge projects.

### Monash English Bridging Programs

Education at Monash was rated ‘above world standard’ in the 2010 and 2012 Excellence in Research for Australia (ERA) Government report. Monash University also ranked 6th in the subject of Education in the 2013 QS World University Rankings. These results recognise the outstanding teaching and research produced by the Faculty of Education at Monash University. Our graduates enjoy some of the highest employment rates among the prestigious Group of Eight universities.

monash.edu/education

At a glance
- The Faculty of Education represents an intellectually diverse research community, offering a range of perspectives, methodologies and flexible approaches to research practice.
- Our research is directed towards enhancing learning across a range of fields including counselling, education, leadership, and psychology.
- We have a distinguished record of developing and preparing some of the best and brightest teachers and educators, with graduate employment rates among the highest in the Group of Eight universities.
- Students can choose from a range of study areas including early childhood, primary and secondary teaching, expert teaching practice, inclusive teaching and special education, leadership in schools and organisations, learning communities and practice development, education for sustainability, TESOL, counselling and psychology.

Monash Education Research Community (MERC)
Established in 1992, MERC is an active network of research students and staff, and is open to all researchers in the faculty. MERC supports the idea that researchers develop best when their intellectual, academic and social needs are addressed through engagement in a supportive research community.

MERC organises seminars, conferences and social events to:
- facilitate interaction between staff and students
- foster attitudes and actions that contribute to an active and inclusive research culture
- share information relevant to research activities
- support the student experience with ongoing orientation and by ensuring that their needs are met by the faculty
- provide a forum for researchers for ongoing discussion about specific aspects of research processes
- encourage involvement in a supportive learning community.

Professional recognition
Our programs are variously recognised by:
- Australian Counselling Association (ACA)
- Australian Psychology Accreditation Council (APAC)
- Singapore Association for Counselling (SAC)
- Australian Children’s Education and Care Quality Authority (ACECQA)
- Victorian Institute of Teaching (VIT).

Rajes Harper
Master of Psychology (Educational & Developmental)/PhD
“Monash University is my alma mater. I completed my undergraduate study here and so I felt a sense of belonging. Monash is also internationally recognised as a quality institution both in coursework and research aspects. I enjoyed the master’s program and shared the experience with like-minded colleagues who I keep in contact with professionally and personally. The most important thing we learnt was to keep learning. My master’s also equipped me with great research skills. In the psychology profession, there is always the need to keep learning and understanding – so the ability to research and analyse information, to ask questions and delve deeper than the surface is an extremely useful skill. I found the academics at the faculty to be very supportive and approachable.”
### Graduate entry teaching degrees

**Master of Teaching (Early Years)**
The Master of Teaching (Early Years) is designed to develop your theoretical and practical knowledge in the area of early childhood teaching and leadership. You will form a broad conceptual understanding in the field of early childhood education, policy and practice, and actively participate in traditional class work and off-campus teaching placements. The program highlights the range of early childhood services and the social context of early childhood education. You will explore the importance of being flexible and responsive to the needs of young children and their families. The program also addresses the ethical and inclusive learning requirements of early childhood teachers and the practical application of these requirements. Upon graduation, you will meet the requirements for accreditation with the Australian Children's Education and Care Quality Authority (ACECQA). You will be qualified to teach children from birth to five years in early childhood settings.

**Master of Teaching (Primary)**
The Master of Teaching (Primary) prepares graduates from a range of disciplines for a career as a primary school teacher. You will build on the strengths you developed in your undergraduate degree and learn how to plan and deliver educational programs for primary school children. The faculty offers a wide range of units to deepen your understanding of primary teaching, research and practice. You will also spend time teaching in primary settings and develop knowledge on how primary-aged children learn and how best to develop and support their learning. The course comprises of units designed to prepare graduates for teaching in all key curriculum areas of the primary years. Upon graduation, you will be eligible to seek registration with VIT to teach in primary schools in Victoria.

**Master of Teaching (Secondary)**
The Master of Teaching (Secondary) will build on the strengths you develop in your undergraduate degree and prepare you for teaching in secondary schools. This program combines academic studies about the foundations of education with two specialist teaching areas. These specialisms (also known as teaching methods) will be what you are ultimately qualified to teach in secondary schools. Your undergraduate studies will determine your choice of specialist teaching areas. Generally, you must have studied that discipline at university level for at least two years and then complete the education units related to each specialism. The course comprises of units focusing on adolescent learning, classroom teaching and practice, education and society, and planning, implementing and evaluating the school curriculum. You will also gain valuable classroom experience by undertaking teaching placements in your specialist teaching areas. Upon graduation, you will be eligible to seek registration with VIT to teach in Victorian secondary schools, and related teaching services in two specialist teaching areas.

### Coursework degrees

**Master in Counselling**
This innovative skill-based program is suited to professionals interested in counselling. The program provides a professional qualification and real-life counselling experience for people who may not be practising as psychologists or social workers. It attracts people from a variety of professions such as human resources, health, social welfare and education. The program aims to provide you with advanced knowledge about major counselling approaches, training in counselling practice, and a understanding of ethical and professional issues relating to the counselling profession. An integral component of the program is a supervised professional placement, equivalent to 35 days. Placements offer valuable professional experience and the opportunity for students to establish contacts in the field of counseling.

### Postgraduate Diploma of Psychology
This is an Australian Psychology Accreditation Council (APAC) accredited fourth year qualification in Psychology. Classified as the equivalent of an honours program by the University, the content is designed for those wishing to pursue advanced postgraduate training at master’s or doctoral level, and for those wishing to undertake supervised psychological practice after completing the program. It offers advanced study and research training in psychology and an introduction to developmental psychology, counselling, psychological assessment and intervention, and ethical and professional issues in psychological practice. The program comprises three core units, an elective unit and a research project. The core units cover contemporary issues in developmental psychology, ethics and professional issues, psychological assessment and a research project. Electives include behaviour change interventions for practitioners and an introduction to counselling psychology.

### Further Information
English language level: Please see page 62–63 for detailed requirements.
## Master in Professional Psychology
This course has been designed to meet the requirements of the Australian Psychology Accreditation Council (APAC) and the Australian Health Practitioner Regulation Agency (AHPRA) for a generalist fifth year in psychology. The course trains psychologists in the advanced psychotherapeutic skills required for general registration as a psychologist. It aims to develop you as a specialist professional with a commitment to lifelong learning of the theoretical, research, assessment and therapeutic skills involved in psychology. Following graduation, you will be eligible to undertake one year of supervised generalist practice. Upon completion, you may progress to full registration as a psychologist.

*Please note: APAC accreditation is currently being sought for this new program.*

## Master of Psychology (Counselling)
Counselling psychologists specialise in providing psychological therapy. They work with individuals, couples, families, groups and organisations using a broad range of evidence-based psychotherapies and therapeutic skills. They assist in areas such as personal wellbeing, relationships, work, recreation and health. This course prepares graduates to practice as counselling psychologists in many different settings. This includes hospitals, community centres, schools, tertiary institutions, private practices, industry and health-oriented facilities.

The program is accredited by the Australian Psychology Accreditation Council (APAC).

## Master of Psychology (Educational and Developmental)
Educational and developmental psychologists focus on how people develop and learn throughout their lifetime. They work in many different settings with individuals, families, groups and organisations. They also have varying titles such as school psychologist, guidance officer, and child and adolescent counsellor. Educational and developmental psychologists also conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

The program is accredited by the Australian Psychology Accreditation Council (APAC).

### Degrees by research and coursework

**Graduate Certificate in Educational Research**
This course is for high achievers who want to undertake a PhD, but do not meet the eligibility requirements of previous research experience. You will learn about research methodology, methods and ethics as you plan and conduct a research study that can lead onto a PhD. The course is delivered in an interactive and conversational learning environment. This innovative approach encompasses a broad range of research designs in a way that builds on your knowledge and experience. Designed for full-time and part-time, on-campus and distance-learning students. Numbers are limited to ensure a high level of collaboration among students and Monash University staff.

**Master of Education**
Today's educators are expected to be lifelong learners. They need to operate in the global flow of the knowledge economy where established routines and boundaries are challenged. Monash researchers investigate new learning spaces and transitions in education, training and work — and the increasingly diverse work of educators and other leaders. This program provides you with the opportunity to undertake research that applies directly or indirectly to your work environment. It is particularly suited to you if you have not previously carried out a major research project but would like to eventually progress to doctoral studies in education. You will complete two coursework units including a compulsory core research methods unit and a 20,000 to 25,000 word thesis.

**Doctor of Philosophy**
Monash University supports, promotes and conducts high quality research that holds significant impact in Australia and overseas. The PhD is a supervised program that allows students to conceptualise and implement a major research project on a topic of personal interest. Your research will aim to improve teaching practice and extend your expertise and skills relating to pressing educational issues. You will undertake a program of supervised research and submit a thesis. The thesis should make a significant contribution to human knowledge and theory, and demonstrate your ability to carry out independent research.

**Gain confidence with extra English**

Be prepared and confident for your postgraduate degree by completing our Introductory Academic Program (IAP) first. This dynamic and helpful five-week course will prepare you for the reading, writing, speaking, note-taking and academic research ahead.

For further information visit monashcollege.edu.au/english
At a glance

Monash Engineering is a leading research faculty with an exceptional national and international reputation. The most recent Excellence in Research for Australia assessment ranked the research undertaken by the Faculty of Engineering as "well above world standard".

Research strengths: At the interface between traditional disciplines in areas of focus such as biomedical technology; critical infrastructure systems; and sustainable design, manufacturing and resourcing.

Engineering provides a wide range of facilities and support services for postgraduate students, including a dedicated science and technology library and spacious well equipped work environments with 24-hour access to computer laboratories.

The New Horizons initiative is a platform for excellence in research and aims to transform areas relating to future manufacturing, biomedical engineering, modelling and simulation, and renewable energy.

Research excellence

The Monash Wind Tunnel is capable of creating winds in excess of 180km/h. A collaborative partnership between Monash University, the Australian Institute of Sport (AIS), and Cycling Australia has enabled the Australian men’s pursuit team and coaches to analyse rider-by-rider aerodynamic interaction in the Monash wind tunnel, in preparation for the 2012 Olympics.

Monash Vision Group (MVG) brings together engineering, computer scientists and medical researchers from Monash University and Alfred Health and industry partners Grey Innovation and MiniFAB, with all partners dedicated to developing and manufacturing a direct to brain bionic eye ready for first patient tests by 2014.

Monash University and the Indian Institute of Technology in Mumbai (IITB) have a joint-venture research academy. Doctoral students undertake research projects and receive a dual PhD degree from both Monash University and IITB.

Professional development

Engineering PhD graduates are highly sought after in research and development, strategic planning and senior management roles. Postgraduate coursework programs allow engineers to upgrade their skills or seek higher qualifications for targeted career advancement. Monash works with industry partners to provide training in the latest technical advancements and to offer well-rounded professional development programs.

Xian Zhou

PhD

Xian Zhou is a PhD candidate in the field of materials engineering who aims to be an expert in the corrosion engineering area. She completed her first two years of undergraduate study in China before transferring to Monash to complete the remaining two years of the course.

“My experience as an undergraduate student at Monash was challenging, but rewarding. My main achievements are the knowledge I gained in the field of materials engineering and receiving first class honours.”

She was awarded two scholarships to undertake engineering PhD studies, a Monash Graduate Scholarship and a Faculty of Engineering International Postgraduate Research Scholarship.

Xian is now in the final year of her PhD.

### Research degrees

**Doctor of Philosophy**
The PhD program may be undertaken in the principal areas of research offered by the Faculty of Engineering, including chemical engineering, civil engineering, electrical and computer systems engineering, materials engineering, mechanical engineering, aerospace engineering and biological engineering. All specialised fields of research at Monash Engineering are at world standard or above and overall research in the faculty is rated well above world standard in the most recent Excellence in Research for Australia assessment.

PhD candidates have access to world-class laboratories, workshops and facilities furnished with highly specialised equipment and software.

**Master of Engineering Science (Research)**
Monash Engineering research is rated well above world standard in the most recent Excellence in Research for Australia assessment. The faculty has a solid, robust profile in a broad range of engineering areas including the traditional, interdisciplinary and emerging fields. Researchers work in collaboration with the community, local and international industries, government bodies, cooperative research centres, consulting firms and research centres.

Monash Engineering research is meeting the challenges of the future in areas such as bionic eye vision, nanotechnology, solar cells, aerodynamic testing, sustainable water, transport and advanced manufacturing, among many major research activities. Researchers have access to world-class laboratories, workshops and facilities furnished with highly specialised equipment and software.

### Bionic eye technology

Bionic eye technology that could restore vision to millions is the goal of the Monash vision group, a research team whose expertise spans engineering, neurosurgery and physiology. Its creation, a device that stimulates the brain rather than the retina, is on track for trial in just two years.
At a glance

- Quality instruction and varied choice: At Monash, students learn with some of the world’s leading academics and researchers. You can choose to study in any area of information technology.

- All information technology under one banner: Monash is the only research-intensive Group of Eight university member to have a dedicated Information Technology faculty.

- Graduate employability: Our graduates are highly valued by employers across all industries.

- Global recognition: An information technology degree from Monash is recognised around the world for its quality and depth. Students have access to research collaborations with more than 110 global institutions.

Excellence in research

The Faculty of Information Technology has a strong reputation for excellence in research covering the spectrum of Information Technology from engineering to social science. Our leading researchers’ strengths are in computing science, software engineering, information systems and information and knowledge management.

Our four research flagships are the focus for our internationally recognised research strengths in:

- computational biology
- IT for resilient communities
- machine learning
- modelling, optimisation and visualisation.

These are the hubs of our research networks.

2014 New course features

The Faculty of IT has reviewed and re-designed its postgraduate degrees. Courses can include the option to complete one of the following:

- Industry experience
- Research.

Industry experience

Industry experience involves project work for real clients, professional practice training and a small research project.

Research

The research component involves research training and work on a minor thesis under the supervision of an academic staff member.

Ilya Alfimenkov
Master of Business Information Systems (Professional)

Already having completed an undergraduate degree in business management, Ilya chose to further his knowledge and employment potential by studying the Master of Business Information Systems (Professional). This degree gave him the opportunity to select various IT areas of interest to obtain a greater understanding of the highly complex IT environment. When asked to describe the course to someone in one sentence, he answered “We make IT work for business!”

Research degrees

Doctor of Philosophy

Information Technology research at Monash has a multi-disciplinary, multi-campus and multi-national approach, providing research students with a unique capacity to reach out further and deeper than at any other institution in Australia.

The degree of Doctor of Philosophy (PhD) is a supervised program designed to allow a student to conceptualise and implement a major research project on a topic of personal interest. The degree is awarded for a thesis which, in the opinion of the examiners, makes a significant contribution to knowledge in the discipline concerned and demonstrates the candidate’s capacity to carry out independent research. Doctoral candidates are supported throughout their degree by a minimum of two supervisors.

The length of the thesis may vary across disciplines, but should not normally exceed 100,000 words. Candidates enrolled on some campuses are required to complete a compulsory program of coursework and/or training. These discipline specific programs are designed to impart skills and knowledge that will assist candidates to conduct their research.

The minimum qualifications for admission to PhD candidature are:

(a) a bachelor’s degree requiring at least four years of full-time study and normally including a research component in the fourth year, leading to an honours degree at first or upper second class level (IIA or HI); or
(b) a course leading to a masters preliminary qualification at a level rated by the relevant school and faculty as equivalent to a first or upper second class honours degree; or
(c) a master’s degree that comprises a significant research component, at least equivalent to (a) above.

Master of Philosophy

The Master of Philosophy (MPhil) is a University-wide master by research degree administered by the Monash Institute of Graduate Research (MIGR). MIGR is dedicated to enhancing research opportunities at Monash, and providing support to postgraduate researchers.

Master of Philosophy students in IT are expected to make a contribution to an existing body of information technology knowledge by applying, clarifying, critiquing or interpreting that knowledge.

The minimum requirements for admission to MPhil candidature are:

(i) a degree of bachelors with honours I, or honours II, or honours IIA; or (ii) qualifications which in the opinion of the Monash Institute of Graduate Research (MIGR) are equivalent to a first or upper second class honours degree; or (c) a master’s degree that comprises a significant research component, at least equivalent to (a) above.

Graduate Certificate in Project Management

- Improve your career opportunities with project management knowledge
- The course consists of four units:
  - FIT5057 Project management
  - FIT5178 Applied project management
  - FIT5180 Business and legal issues in project management
  - FIT5194 Computer based global project management

- After completing FIT5057 Project management students are able to sit for either the Certified Associate in Project Management (CAPM), or Project Management Professional (PMP) exam, with the Project Management Institute (PMI) at no charge

Other options

- Enrol into the Master of Business Information Systems to complete any number of units in this popular field (four units available)
- Choose project management units as electives while completing either the Master of Information Technology, or a variety of other Monash University postgraduate degree.

Our postgraduate teaching centre is located at the city-based Monash University Law Chambers.

Monash Law School is dynamic and internationally recognised for its commitment to excellence in legal education, training and research.

Contemporary, specialised postgraduate courses allow you to advance your expertise in a chosen legal area, giving your career a professional edge.

Teaching by leading academics, experienced legal practitioners and international experts enriches your educational experience and ensures programs remain relevant in the changing global climate.

Our postgraduate programs produce graduates with transferable knowledge and skills who are adept at meeting the unique challenges of today’s competitive workplace.

Master of Laws (Juris Doctor)

The Monash Master of Laws (Juris Doctor) is a graduate entry degree that provides graduates with academic qualifications to apply to practise law. Small class sizes and our city location attract passionate and dedicated individuals who want to work as lawyers. The course focuses on the knowledge, legal skills and professional ethics that may be expected of legal practitioners.

Due to their diverse professional experiences and their high level of commitment to legal practice, graduates are highly sought after and valued by employers. The Monash JD opens up a wide variety of career pathways to our students, and our graduates have found employment in a range of rich and diverse career avenues, within the legal profession and beyond.

Human rights leaders

Monash Human Rights master’s students benefit from close proximity to the Castan Centre for Human Rights Law, Australia’s leading academic human rights institution with excellent in-house expertise and global networks. Its research expertise includes Australian and international law, and ranges from children’s rights, trafficking, refugees and Indigenous peoples to transitional justice, international criminal law, the law of armed conflict and human rights issues arising from economic globalisation. Its wide variety of programs includes Australia’s only annual human rights law conference, and numerous free seminars with internationally and nationally renowned speakers including the Dalai Lama, Dame Roslyn Higgins (former World Court Presidents), Dinah Shelton (Inter-American Commission on Human Rights), Olivier de Schutter and Philip Alston (UN Special Rapporteurs), and Julian Assange (Wikileaks).

Suruswadee Jaimsuwan

Thai student, Master of Laws (Intellectual Property) 2011

“There were many reasons why I enjoyed studying for my master’s degree at Monash. The location of Chambers in the CBD was very convenient, the research and language skills advisers were very helpful and the lecturers were all very knowledgeable but ‘down to earth’ and enthusiastic. Staff were always very helpful and responded to my emails promptly too! The assessment system equipped me with great skills to undertake research academically, and to advise clients professionally – a perfect combination that I can use in the future. I enjoyed my stay in Melbourne – both the studies and my free time. Studying at the Monash Law School gave me the chance to enjoy both aspects of my life.”

Coursework degrees

Master of Commercial Law
The Commercial Law specialisation allows both law graduates and graduates from disciplines other than law to choose from an extensive range of commercial law units covering topics across the domestic and international arenas. Our extensive range of commercial law units caters to various career aspirations and interests and provides a springboard from which to launch or further your career in this complex and evolving professional area. This specialisation focuses on areas that include corporate law, competition law, banking and finance law, and tax law. The Master of Commercial Law specialisation provides a formal course of training for those working in law-related fields (e.g., accountants, company administrators, management personnel, etc.) and provides opportunities to obtain a specialist qualification in an area of commercial law.

Master of Human Rights Law
The Human Rights specialisation allows both law graduates and graduates from disciplines other than law to choose from an extensive range of units covering topics across the domestic and international arenas. Covering a wide range of traditional and emerging topics, from indigenous and children’s rights to issues relating to terrorism, migration and encroachments on privacy, this specialisation enables students to focus on topical human rights issues confronting governments, international bodies, individuals and corporations and allows students to critically engage in and debate these issues. It is particularly relevant for those who wish to pursue a career in human rights law and related work. This specialised degree provides in-depth theoretical and practical knowledge of the international human rights legal framework, the organisations that promote and protect it and the mechanisms and processes by which it is enforced. Students will also develop high-level skills in interpreting and analysing primary and secondary human rights materials, including treaties, treaty body decisions, domestic jurisprudence and scholarly commentary. Our courses, along with the faculty’s support of the Castan Centre for Human Rights Law, have put Monash University at the forefront of the movement to create a human rights law culture in Australia.

Master of Intellectual Property Law
The Intellectual Property specialisation is ideal for both law graduates and graduates from disciplines other than law wanting to gain accreditation as a Trade Marks or Patent Attorney, and to advance their professional expertise in the ever-evolving area of intellectual property law. New developments and advances in media, communications and the virtual world require that the law and the ramifications of emerging technology be understood and applied in a practical setting. Students will obtain grounding in the fundamental principles of intellectual property law and address advanced issues, including local and international developments of laws relating to the protection of intellectual property rights. Monash Law School teaches all the units which are accredited by the Professional Standards Board for Patent and Trade Marks Attorneys to satisfy the knowledge requirements for registration as a Patent Attorney or Trade Mark Attorney.

Master of Workplace and Employment Law
Effective, equitable and safe workplace practices are a growing concern in the global workplace. The Master of Workplace and Employment Law is designed to provide both law graduates and graduates from disciplines other than law with a thorough grounding in labour law and is relevant for those working in or who aim to work in the area of workplace and employment law or a related area. It includes a diverse range of units, covering topics such as collective bargaining agreements, individual contracts, occupational health and safety, the economic workplace law, international human rights and economic torts.

Master of Laws (Research)

The Master of Laws (Research) requires the completion of a thesis normally not exceeding 50,000 words in length. The thesis can be undertaken in any area of research offered by the faculty. It is expected that the thesis should embody the results of an investigation in a field of study approved by the faculty and be carried out by the candidate under supervision of a nominated supervisor appointed by the faculty, be the original work of the candidate, except where due reference is made in the thesis; and display a thorough understanding of subject matter and contribute to knowledge and understanding within the field of study concerned.

Master of Philosophy

The Master of Philosophy in the Faculty of Law requires the completion of a major thesis of about 50,000 words in length, which may be undertaken in any area of research within the faculty. It is suitable for law or non-law graduates who wish to pursue a major scholarly research project. It is particularly suited to students seeking to undertake an inter-disciplinary research project. It is expected that the thesis will meet a standard comparable to legal writings found in learned journals, and demonstrate the student’s ability to carry out independent research and to analyse and synthesise legal concepts.

Law graduates hold court

Monash University law graduates hold the majority of senior judicial positions in Victoria including the Chief Justice of the Supreme Court of Victoria, The Hon. Marilyn Warren, AC; The Chief Judge of the County Court, His Honour Chief Judge Michael Rozenes AO, QC, and Ian Gray, Chief Magistrate of the Magistrates’ Court of Victoria.
At a glance

The faculty’s commitment to the pursuit of excellence and innovation in both research and in teaching and learning is clear. It consistently receives the highest amount of funding from the Australian Government in recognition of teaching and learning performance of any health-related faculty at any university.

There is a strong emphasis on translating knowledge and expertise from the academic to the clinical. Graduates can pursue their professional ambitions within our faculty from day one through a focused degree.

Professional registration/recognition

With a postgraduate research degree from the Faculty of Medicine, Nursing and Health Sciences, you’ll join researchers who are already making a difference in the fight against illness, injury and disease.

Our degrees are recognised by a range of leading medical organisations such as the Nursing and Midwifery Board of Australia, the Australian Psychology Accreditation Council, the Australian Institute of Radiography, the Australasian Sonographers Accreditation Registry and the Royal Australian College of General Practitioners.

Research excellence

Our researchers are continually recognised in competitive grant rounds of organisations such as the National Health and Medical Research Council (NHMRC), the Australian Research Council (ARC) and the Cancer Council and the National Heart Foundation. We win a significant proportion of awards for research, reflecting our strengths in areas such as neuroscience, foetal development, malaria and communication impairment.

Our people, programs, platforms and a new precinct for biomedical sciences research at Clayton means that we are able to translate a high volume of research into clinical outcomes. We also have a prominent presence at The AMREP (Alfred Medical Research and Education Precinct), Monash Medical Centre (Monash Health Research Precinct), a network of clinical schools at hospitals across Victoria, affiliated medical research institutes, and at our own campuses at Peninsula, Gippsland, Caulfield and Malaysia.

Monash is also the only Australian member of the prestigious M8 Alliance of academic health centres and medical universities.

Addie Wootten

Doctor of Psychology (Clinical Psychology)

When Addie Wootten came to Monash, she realised how big a difference she could make to those affected by prostate cancer. With the guidance of an inspiring doctoral supervisor, and the experience gained through various placements, internships, conferences and hours of discussion with doctors and nurses, Addie found her calling.

Today she is one of Australia’s leading psychologists working to support men with prostate cancer.

### Special note about the Gippsland campus

Monash University and the University of Ballarat are exploring a proposition to create an expanded, regionally focused university. Should the proposition be approved, the campus is expected to offer a range of courses that bring together the strengths of both Monash University and the University of Ballarat from 1 January 2014. If the proposition is approved, students will be admitted into courses offered by the expanded university and Monash University will not be admitting new students (except from agreed pathways) into courses at the Gippsland campus. As course offerings may change, please visit monash.edu/gippsland to ensure you have the latest information on what courses will be available.

Master of Occupational and Environmental Health

The Masters program aims to provide you with skills to practice quality occupational health and safety services; identify and manage occupational and environmental health risks; and assist to systematically control related hazards and exposures, within a broad range of workplace and community environments. It aims to enable you to take responsibility for high level independent judgements, and initiate, implement and evaluate risk management interventions within varied occupational and environmental contexts. The Masters is applicable to medical practitioners, nurses, allied health professionals, scientists or OHS managers wishing to further develop their skills as autonomous, responsible and accountable OHS and environmental health practitioners.

The degree is recognised by the Australasian Faculty of Occupational Medicine and the Australian College of Occupational Health Nurses. Students may be eligible to exit from the Master with the Graduate Diploma in Occupational and Environmental Health (G0169).

Master of Occupational Therapy Practice

This two year, accelerated learning program will enable students with a first degree other than Occupational Therapy, but in an allied field to obtain a professional, entry level qualification at a postgraduate level of study, to practice as an Occupational Therapist. The Master in Occupational Therapy Practice (MOTPac) will require full-time enrolment over two years from July to May (mid year intake). It will operate over 72 weeks and include 1000 hours of fieldwork education commensurate with World Federation of Occupational Therapists (WFOT) Minimum Standards for the Education of Occupational Therapists (2002).

The course is an integrated curriculum centred on Scenario-Based Learning (SBL). The two years of the SBL curriculum will be organised into the following units: Foundations of Occupational Therapy, Humans as Occupational Beings, Occupational Performance, Enabling Change in Human Occupation, Transition to Practice and Advanced Professional Practice. Students complete an extensive practice-based project. Higher achieving students are eligible to complete this as research to the equivalent of honours standard to be eligible to apply for a research masters or PhD program on completion.

</tbody>
</table>

Master of Public Health

This course provides students with the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It especially focuses on developing skills in the quantitative methods of the population-based health sciences and their problem-solving application for primary health provision both in Australia and for developing countries. Students can exit with a Graduate Diploma or Graduate Certificate providing the approved selection of units are completed.

Master of Social Work (Qualifying)

The MSW (Qualifying) curriculum meets the Australian Association of Social Workers (AASW) requirements and builds on Monash Social Work areas of strength, especially in gender studies, sustainability, child wellbeing and health. The degree includes considerable emphasis on community engagement and leadership, and provides opportunities to work with organisations to complete projects and research.

The MSW (Qualifying) is a coursework degree with theoretical, skills development and supervised professional practice units. The course provides opportunities for group-based research and integration of theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice units introduce students to contemporary social work practice.

<td>Applicants must have successfully completed an undergraduate degree at a recognised University. The AASW also requires applicants for social work courses to have completed undergraduate studies of the individual and society prior to their entry into a social work degree. The Monash Department of Social Work stipulates that prerequisite undergraduate studies must include the successful completion of two semesters in studies of the individual and two semesters in studies of society. Studies of the individual would include units in psychology, human development, genetics, personality, psychopathology, or studies of individual theories in these areas. Studies of society would include units like sociology, anthropology, philosophy, history, gender studies, politics, and multicultural studies. If the number of applicants exceeds the number of places available, past academic standing will be a factor in selection.</td>

Research degrees

Doctor of Medicine (supervised)

The Doctor of Medicine (MD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty’s principle research areas and strengths. Candidates in the MD (supervised) mode undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

Master of Philosophy
The Master of Philosophy (MPhil) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principle research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

3438 2 years FT Alfred, Baker, Bendigo, Box Hill, MHHI, Mon, Peter Mac, Florey, Gippsland, Southbank, Clayton, PHI, Burnet, Caulfield, Murdoch, Notting Hill, MMC, Peninsula, PHI, WEHI

Applicants must hold a bachelor's degree with honours 1, honours 2A, or honours upper 2B from Monash University, or have qualifications which in the opinion of the Graduate Research Committee (GRC) are equivalent or a satisfactory substitute.

Intake: Throughout the year
Fees: 38,900
English language level: J

Master of Reproductive Sciences
The Master of Reproductive Sciences (MRepSci) is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to reproductive biology, to clinical human and veterinary medicine. Research may be undertaken in areas of human reproduction, animal reproduction, women's health, fetal and neonatal physiology, embryology, molecular and cellular endocrinology and reproductive toxicology.

0100 2 years FT Clayton, PHI, MMC

Applicants must have a relevant bachelor's degree in science with honours 1, honours 2A, or honours upper 2B; or the Graduate Diploma in Reproductive Sciences with a minimum average grade of 65 per cent; or have other qualifications or experience which the faculty board deems equivalent or a satisfactory substitute.

Intake: First Semester (March)
Fees: 38,900
English language level: J

Master of Social Work (Research)
The Master of Social Work (Research) is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research. The Master of Reproductive Science provides medical and health professionals with advanced theoretical understanding and research training in the applications of reproductive biology, including emerging biotechnologies, to clinical human and veterinary medicine. Research may be undertaken in areas of human reproduction, animal reproduction, women's health, fetal and neonatal physiology, embryology, molecular and cellular endocrinology and reproductive toxicology.

2698 2 years FT Caulfield, Clayton, Notting Hill

Applicants must have either a bachelor's degree with honours 1, honours 2A, or honours upper 2B in a relevant field; or a master's degree in a relevant field with an approved research component; or have other qualification or experience deemed equivalent or a satisfactory substitute.

Intake: Throughout the year
Fees: 26,900
English language level: J

Master of Surgery
The Master of Surgery is a research degree. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.

3443 1.5 years FT Alfred, Box Hill, Clayton, MMC

An applicant must have qualified not less than two years previously for the degree of Bachelor of Medicine and Bachelor of Surgery (MBBS) or equivalent at Monash University or another university approved by the faculty board. An applicant must also intend to pursue a career in surgery or have applied for or been accepted into the Surgical Education and Training program of the Royal Australasian College of Surgeons or an equivalent surgical training program approved by the faculty board; or hold a Fellowship of the Royal Australasian College of Surgeons or equivalent higher surgical qualification as approved by the faculty board. In addition, an applicant must have been substantially engaged, since qualifying, for the degree of Bachelor of Surgery or its equivalent, in the practice and study of surgery or scientific work relevant to the practice of surgery to the satisfaction of the faculty board.

Intake: Throughout the year
Fees: 38,900
English language level: J

At a glance

Research success: Monash researchers make important contributions that bring real change to people’s lives across the globe, including drug development to combat influenza, malaria and cancer.

Links with industry: The faculty is a major player in the Australian and international health care, pharmaceutical and biomedical communities. Strong links exist with the pharmacy profession and other research groups.

World-class facilities: Students have access to innovative learning technology, flexible delivery modes, modern laboratories, first-rate research equipment and an extensive specialist library.

Research excellence

Research students completing a higher degree by research with the Faculty of Pharmacy and Pharmaceutical Sciences have the opportunity to work with world class researchers in the Monash Institute of Pharmaceutical Science (MIPS) or the Centre for Medicine Use and Safety (CMUS).

MIPS is the largest and most experienced group of pharmaceutical scientists in Australia. In the recent Excellence in Research for Australia assessment, Monash scored top marks for its research in the fields of pharmacology and pharmaceutical sciences, and nanotechnology, and was recognised as well above world standard for medicinal and biomolecular chemistry.

The Centre for Medicine Use and Safety (CMUS) is focused on delivering innovative research to optimise community health nationally and internationally. Researchers are working collaboratively with other health care professionals and researchers to develop, implement and evaluate new models and systems of health care practice, with the ultimate goal of optimising the safe and effective use of medicine.

Dr Timothy Morgan
Co-founder and Executive Director Lachesis Biosciences, Australia
PhD thesis title: Transdermal drug delivery with topical aerosols

Tim’s PhD work with faculty staff directly led to the development of the patent for the ‘spray on’ drug delivery technology that was commercialised through Acrux Limited. This led to the US Food and Drug Administration approving Evamist®, a transdermal estradiol spray for the treatment of menopause symptoms, in 2007.

In 2005, Tim left Acrux to apply his entrepreneurial drive to a new venture, Lachesis Biosciences, an online preventive healthcare service that helps people take action aligned with their lifestyle.

His current research focus is the convergence of healthcare and information technology and how it can assist people to stay healthy and live longer. Tim has several granted patents, numerous pending patent applications, peer-reviewed journal papers and a book chapter.
Gain confidence with extra English

Be prepared and confident for your postgraduate degree by completing our Introductory Academic Program (IAP) first. This dynamic and helpful five-week course will prepare you for the reading, writing, speaking, note-taking and academic research ahead.

For further information visit monashcollege.edu.au/english
At a glance

- **Leader in science:** A clear focus and enviable reputation for research achievements in biology, chemistry, earth sciences, mathematics, and physics.

- **World-class programs:** Outstanding postgraduate research programs that are competitive with the best national and international equivalents.

- **Conducive to learning:** World-class facilities and support services in a broad range of research areas. Monash is committed to providing a stimulating and supportive professional environment for its postgraduate students.

- **International reputation:** Home to many internationally respected scientists.

A formidable combination

The Faculty of Science has more than 600 research academics, fellows and postgraduate research students. Our expertise, tradition and achievements are formidable and make a significant contribution to the advancement of science within Australia. We have five schools (Biological Sciences, Chemistry, Geosciences, Mathematical Sciences and Physics) located at the heart of the Clayton science and technology precinct and two externally-located schools in Gippsland (School of Applied Science and Engineering) and Sunway, Malaysia (School of Science), with more regional and global interests. We host four cross-disciplinary research centres supported by state-of-the-art equipment, including the Australian Synchrotron, and have strong research links with the CSIRO, local businesses and industry, and a range of government authorities. We host four cross-disciplinary research centres supported by state-of-the-art equipment, including the Australian Synchrotron, and have strong research links with the CSIRO, local businesses and industry, and a range of government authorities.

Scholarship opportunities

The Faculty of Science Dean’s Postgraduate Research Scholarship Scheme provides funding support to all eligible newly commencing students in a higher degree by research (Doctor of Philosophy, Master’s of Philosophy, Master’s of Science). There are two scholarship types available within this scheme:

- **Faculty of Science Dean’s Postgraduate Research Scholarship** – provides a living allowance matching the Australian Postgraduate Award.

- **Faculty of Science Dean’s International Postgraduate Research Scholarship** – covers the cost of international student fees and Overseas Student Health Cover. [monash.edu/science/future/postgraduate-research/scholarships/]

We also offer a range of research funding and support schemes for early career researchers, postdoctoral academics and fellows, and women in research.

Alana Sharp
PhD

Alana Sharp took advantage of her Monash experience by travelling to Costa Rica to help in sea turtle conservation efforts. This hands-on experience taught her to trust her knowledge and experience, practically applying what she learned in the classroom. She is now completing her PhD on vertebrate functional morphology using computational biology and reverse engineering.

**Research degrees**

**Doctor of Philosophy**
Scientists are willing to imagine an alternative future. They are passionate about new knowledge and dedicated to making a difference in their area of specialisation.

Monash PhD research students have access to internationally renowned research centres and are able to develop close professional relationships with local industry and government.

Monash offers expert supervision across scientific disciplines including applied sciences, biological sciences, chemistry, geosciences, mathematical sciences, atmospheric sciences and physics.

*Special note about the Gippsland campus*
Monash University and the University of Ballarat are exploring a proposition to create an expanded, regionally focused university. Should the proposition be approved, the campus is expected to offer a range of courses that bring together the strengths of both Monash University and the University of Ballarat from 1 January 2014. If the proposition is approved, students will be admitted into courses offered by the expanded university and Monash University will not be admitting new students (except from agreed pathways) into courses at the Gippsland campus. As course offerings may change, please visit monash.edu/gippsland to ensure you have the latest information on what courses will be available.

---

**Study English on campus**
Monash English Bridging programs are available for entry into your science degree.

Find out more at: monashcollege.edu.au/english
Admission and application

How to apply

For postgraduate degrees by coursework

Graduate diplomas, postgraduate diplomas and master’s by coursework.

Before you apply

Use the Monash Course Finder to check:

- the entry requirements and prerequisites
- extra documentation required – for example, details of relevant work experience
- fees
- closing dates
- when courses start

When should you apply?

Apply as early as possible. Some courses have application closing dates two to four months prior to the start of the course, while others have quotas. Aim to have your application received by International Recruitment at least two to four months prior to the course start date. This allows time for your application to be processed and can help to ensure that you secure a place if your preferred course has limited places. Applying early also gives you time to get your student visas, which can take up to six months for some nationalities and countries.

Step 1: Apply

To apply online please refer to the following website for a step by step guide: monash.edu/study/apply/guide.

To submit hard copy application, complete the International Application Form at the back of this guide and ensure that all sections of the form are completed and that the declaration is signed and dated before you send the application.

Send your completed application form, all certified documents* (listed on the application form) and a

undergraduate fee (payable by bank cheque, bank draft, money order or credit card) to:

International Recruitment Services
871 Dandenong Road
Caulfield East
Victoria, 3145 Australia
Email: mu.documents@monash.edu

You may also apply through a

Monash-registered agent. Some

agents may charge a fee for additional services so please ask what these costs are before you make an appointment. To find a

Monash-registered Agent near you
please visit

applicants.connect.monash.edu.

Step 2: Your application is assessed

When your application is received, Monash University will assess your application against university entrance requirements including:

minimum age, English and

academic entry requirements. To comply with Australian law your application will be assessed to check that you are genuinely seeking temporary entry to

Australia to study.

If your application is successful, you will receive a full International Student Course Agreement (ISCA). We will email this to you and your agent, if you have one. Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we are not able to make you a full ISCA immediately, you may receive a conditional ISCA. A conditional ISCA means you must submit more information and meet the requirements specified in the ISCA.

Usually, the information we need is documentation (for example, official final transcript, graduation certificate or an English test result) to see if you meet the specific entry requirements for the course you have applied for. We will explain what is needed in the ISCA. Please submit the documentation to us as soon as possible or contact us if you need any help.

If we are unable to offer you your first preference we will consider your application for the next preference listed on your application form.

Checking the status of your application

Once your application is received and entered into our database

Monash will send an

acknowledgement email to you and your agent, if you have one. This email will contain a

Monash Student ID. Use this ID to check the status of your application at

Step 3: Accept your offer

To accept your offer, follow the instructions in your ISCA. You must complete, sign and return Part B of your ISCA along with payment and a photocopy of the personal details page of your passport before the offer lapse date.

Your payment should include

OSHC for the duration of your visa for yourself and any family members accompanying you to

Australia.

Please note:

- Monash University does not accept cash
- Dishonoured cheques may incur additional bank fees
- You may need to notify your bank of large deductions
- Bank drafts or bank cheques will need to be mailed or delivered in-person to International

Recruitment Services. Please ensure you include your full name and Monash Student ID on the back of either the bank draft or bank cheque.

Step 4: We send you an Electronic Confirmation of Enrolment (eCOE)

An electronic Confirmation of Enrolment (eCOE) will be emailed to you or your agent when you have accepted your full ISCA or packaged ISCA (with no academic conditions specified). You need the eCOE to apply for a student visa.

Step 5: Arrange a Student Visa

Monash University is pleased to announce a partnership with the Department of Immigration and Citizenship (DIAC) in the Streamlined Visa Processing (SVP) arrangements. If you are eligible for SVP then your visa application will be assessed as if you are an Assessment Level 1 (AL1) student. For information on SVP and its criteria please refer to the following website: monash.edu/study/international/apply/visa.

To be eligible for Streamlined Visa Processing (SVP), you are advised not to commence the visa application process until you have been issued with your electronic confirmation of enrolment (eCOE).

If not eligible for SVP, your visa subclass and country assessment level will determine the visa application form you need to complete and the documents that are required to process your student visa. Assessment levels are available at www.immi.gov.au/allforms/pdf/assessment-levels.pdf

Applicants need to keep in mind their student visa application. This may take up to six months or more, depending on their nationality and country of residence.

Additional visa information and application forms can be obtained from an Australian Diplomatic Mission or from the Department of Immigration and Citizenship website listed above.

Visit the Australian Government website for the Department of Immigration and Citizenship for information about studying in Australia: www.immi.gov.au/students
**Step 6: Enrolment pack**
Enrolment is the main step in starting your Monash studies. At enrolment you can meet a faculty course adviser, ask questions and discuss your unit selection and course structure. After you have received your eCOE, you will receive an enrolment package that includes:
- a welcome letter
- a copy of Passport to Monash, your complete guide to living in Australia and studying at Monash University.

**Step 7: Plan your arrival**
Make your own travel arrangements aiming to arrive in Melbourne at least 14 days prior to orientation. This will make it easier for you to settle in and prepare for the start of classes.

If you wish to use our airport reception service and temporary accommodation service, you should complete and return the request form available at monash.edu/study/international/preparing/reception.

**Step 8: Start your studies**
Once you have accepted and paid for your offer, International Recruitment Services (IRS) will email you an official Authority to Enrol. You will receive this email about two to three weeks prior to your enrolment day on campus. The Authority to Enrol lists enrolment tasks that you need to complete before attending enrolment day.

Enrolment takes place two weeks prior to the start of teaching, and students must arrive at the university in time for enrolment. Please note that some courses do not accept late enrolments after the designated enrolment commences.

On arrival at Monash University, you will be assisted through the process of enrolment. Further details about the enrolment process are available at monash.edu/study/international/arriving/enrolment.

There will be an orientation program to help you familiarise yourself with the university and your new surroundings.

---

**For postgraduate degrees by research**
 PhD, Master of Philosophy, Master’s by Research, Professional Doctorate.

**When should I apply?**
Research degree-only applications may be submitted at any time of the year, but restrictions may apply to your course commencement date if you must complete any coursework as part of the degree. Applications for the university’s two research scholarships rounds close on 31 October and 31 May each year. Scholarship applicants will be notified of the outcome of their application approximately six to eight weeks after the closing date.

**Step 1: Check your eligibility**
Monash University offers a large range of research degrees. Once you know the degree you are interested in, check your eligibility for the course and a scholarship. monash.edu/migr/apply/eligibility

Our scholarship rounds are very competitive. Most scholarships require the equivalent of a first-class honours degree from Monash University. You’re assessed for all scholarships and grants for which you are eligible when you apply.

**Step 2: Find a supervisor and submit a research proposal**
Investigate your many research options at Monash and identify potential supervisors and faculties. Discuss your research proposal with your chosen supervisor and faculty. Read our step-by-step guide to applying online. Prepare the documents you need to submit with your application. monash.edu/migr/apply

You will be required to submit a research proposal as part of your application and should start developing this as soon as you have some idea of your research topic. The type of information that should be included in an initial proposal includes:
- What is the topic area?
- What has motivated your interest in this particular area?
- What field or fields of knowledge does it engage?
- What are the key questions to be explored?
- What are the aims of the project?
- What works or materials will be involved?
- What methodologies are involved?
- What are the proposed outcomes of the research?

Prospective candidates are encouraged to seek further information about the research expertise of academic staff through the websites and brochures of research centres, faculties, schools and departments.

**Step 3: Apply online**
Prospective students apply for entry into a research degree online at: monash.edu/migr/apply.

If you need assistance completing the form please check the guide to completing the online form, monash.edu.au/migr/apply/application/guide

You apply for our research degrees and scholarships online using the same application form. Our scholarships are awarded on merit and highly competitive.

**Step 4: Your application is assessed**
Once you have submitted your application it will be assessed and approved by the Monash University Institute of Graduate Research, the faculty and academic unit at which you will be enrolled. The duration of this process can vary but should take no longer than six weeks. If your application is successful, you will be sent an offer pack including:
- an Offer Letter
- an acceptance form and instructions
- visa information
- registration and enrolment details.

**Step 5: Accept your offer**
You need to read your offer letter and offer pack carefully to know how to accept your offer and enrol in your course. International students need to pay their Overseas Student Health Cover and a course-fee deposit before we provide an electronic Confirmation of Enrolment (eCOE), which you need for your student visa application.

**Step 6: Arrange a Student Visa**
Monash University is pleased to announce a partnership with the Department of Immigration and Citizenship (DIAC) in the Streamlined Visa Processing (SVP) arrangements. If you are eligible for SVP then your visa application will be assessed as if you are an Assessment Level 1 (AL1) student. For information on SVP and its criteria please refer to the following website: monash.edu/study/international/apply/visa.

If not eligible for SVP, your visa subclass and country assessment level will determine the visa application form you need to complete and the documents that are required to process your student visa. Assessment levels are available at www.immi.gov.au/allforms/pdf/assessment-levels.pdf

Applicants need to keep in mind their student visa application. This may take up to six months or more, depending on their nationality and country of residence. Additional visa information and application forms can be obtained from an Australian Diplomatic Mission or from the Department of Immigration and Citizenship website listed above.

**Step 7: Enrolment pack**
After accepting your offer to join the Monash research community, you must formally enrol. Details of the enrolment process you need to follow will be provided in your letter of offer. International research candidates complete their enrolment once they have arrived on campus.

**Step 8: Plan your arrival**
Make your own travel arrangements aiming to arrive in Melbourne at least 14 days prior to orientation. This will make it easier for you to settle in and prepare for the start of classes.
Step 9: Start your studies
The Monash Institute of Graduate Research runs orientation activities conducted each semester. The services, facilities and resources available to research students differ markedly from those available to other students, so attendance is strongly recommended for all, even if you have studied at Monash previously.

English language requirements

English requirements
All applicants who apply to Monash University must satisfy English language requirements to ensure they have the appropriate English skills to perform well in their studies.

Monash University applies the most recent demonstration of English proficiency as the basis for assessment. Where an applicant has completed several measures of English proficiency over a period of time, only the most recent measure is considered.

The university reserves the right to require that an applicant undergo a test of English proficiency.

The full text of the university’s policy on English language requirements can be found at: www.policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html

The English proficiency requirement for all Higher Degrees by Research at the University is outlined in the Handbook for Doctoral and MPhil Degrees at, monash.edu/migr/english

English is the language of instruction
Applicants can meet English language requirement if they have undertaken the following studies at an institution where English is the language of instruction for the entire institution by demonstrating:

- a successful completion of an undergraduate degree within the last five years prior to the Monash course commencement date
- the equivalent of one full-time year (equivalent of at least 48 Monash credit points) of postgraduate study within the last two years prior to the Monash course commencement date
- the equivalent of three full-time semesters (equivalent of at least 72 Monash credit points) of a university degree within the last two years prior to the Monash course commencement date
- documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

Research degree applicants must demonstrate successful completion of a course of tertiary studies of at least two years’ duration conducted entirely in English and involving formal assessment of written work, in a country where English is the official language. Evidence in the form of a letter or certificate issued by the university Registrar’s office will need to be provided. Studies must be completed within the five-year period prior to application.

For applications to the faculties of arts and law (for degrees by research), studies must be completed within the two year period prior to application.

Where studies have been conducted entirely in English and involving formal assessment of written work in a country where English is one of two or more official languages of that country, a case may be made to the Monash University Institute of Graduate Research Committee by the relevant department/faculty.

The World Factbook located at www.cia.gov/library/publications/the-world-factbook lists the official languages of all countries.

English language testing
Each Monash University course has a required level of language proficiency, judged against international standards of English language testing. The English language test you choose must be taken place no more than 24 months prior to your Monash course commencement date. You must achieve the required scores in one test for the postgraduate course you are applying for.

Please provide the original copy of your English proficiency test for further assessment.

The following English language tests are accepted by Monash for entry into postgraduate degrees:

- Academic IELTS (International English Language Testing System – Academic). For more information visit www.ielts.org
- Internet/Paper Based TOEFL (American Test of English as a Foreign Language). For more information visit: www.toefl.org
- Pearson’s Test of English (Academic). For more information visit www.pearsonpte.com
- Monash English Bridging (MEB) offered at Monash University English Language Centre: Some university courses offered at Monash University do not accept MEBs meeting the English requirement. For further information and entry requirements regarding MEB, visit www.monashcollege.edu.au/courses/english-language/index.html

English Language Entry Requirements
Different postgraduate courses offered at Monash University have different levels of English language requirements which are outlined in the following categories:

<table>
<thead>
<tr>
<th>Coursework</th>
<th>English Category</th>
<th>IELTS</th>
<th>TOEFL</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Academic IELTS overall 6.5 with no individual band score less than 6.0</td>
<td>Total Paper Based TOEFL score of at least 550 with a TWE score of 4.5 or more OR an Internet Based TOEFL score of 79 with a score of 12 in Listening, 13 in Reading, 21 in Writing and 18 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>Academic IELTS overall 6.5 with a score of 6.5 in Listening and Reading and a score of 6.0 in Speaking and Writing.</td>
<td>Total Paper Based TOEFL score of at least 550 with a TWE score of 4.5 or more OR an Internet Based TOEFL score of 79 with a score of 20 in Listening, 19 in Reading, 21 in Writing and 18 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>Academic IELTS overall 7.0 with no individual band score less than 6.5.</td>
<td>Total Paper Based TOEFL score of at least 587 with a TWE score of 4.5 or more OR an Internet Based TOEFL score of 94 with a score of 20 in Listening, 19 in Reading, 24 in Writing and 20 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>Academic IELTS overall 7.0 with a score of 6.5 in Listening and Reading and a score of 7.0 in Speaking and Writing.</td>
<td>Total Paper Based TOEFL score of at least 587 with a TWE score of 5.0 or more OR an Internet Based TOEFL score of 94 with a score of 20 in Listening, 19 in Reading, 27 in Writing and 23 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>E</td>
<td>Academic IELTS overall 7.5 with a score of 7.0 in Reading and Writing and a score of 8.0 in Listening and Speaking.</td>
<td>Total Paper Based TOEFL score of at least 610 with a TWE score of 5 or more OR an Internet Based TOEFL score of 102 with a score of 28 in Listening, 24 in Reading, 27 in Writing and 26 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>Academic IELTS overall 7.0 with no individual band score less than 7.0.</td>
<td>Category F English requirements can only be satisfied with submission of an IELTS test with the required scores. No other English tests are acceptable.</td>
<td></td>
</tr>
<tr>
<td>G</td>
<td>Academic IELTS overall 7.0 with no individual band scores less than 7.0.</td>
<td>Total Paper Based TOEFL score of at least 587 with a TWE score of 5 or more OR an Internet Based TOEFL score of 94 with a score of 24 in Listening, 24 in Reading, 27 in Writing and 23 in Speaking.</td>
<td></td>
</tr>
<tr>
<td>H</td>
<td>Academic IELTS overall 7.0 with a score of 7.0 in Reading and a score of 6.5 in Listening and Speaking.</td>
<td>Total Paper Based TOEFL score of at least 587 with a TWE score of 5 or more OR an Internet Based TOEFL score of 94 with a score of 20 in Listening, 19 in Reading, 27 in Writing and 20 in Speaking.</td>
<td></td>
</tr>
</tbody>
</table>
### Research students

All research students must apply using the online form at [monash.edu/study/research](http://monash.edu/study/research)

Application forms to study at the Sunway campus (Malaysia) are available from [monash.edu.my/research](http://monash.edu.my/research)

For applications to Sunway campus, (Malaysia) a fee of MYR100 is payable to Monash University Malaysia.

</table>
| K                | Faculty of Arts and Faculty of Law: Academic IELTS overall 7.0 with a score of 7.0 in Writing | Either of the following results:  
  - Paper based TOEFL total score of 600 with a TWE of 5.0 or more.  
  - A minimum internet-based TOEFL total score of 100 with no section lower than 25 in each of the written, reading, speaking and listening tests. |
| L                | Faculty of Business and Economics, and Department of Epidemiology (MNHS) Academic IELTS overall 7.0 with no individual band score less than 6.5. | Either of the following results:  
  - Paper based TOEFL total score of 600 with a TWE of 5.0 or more.  
  - A minimum internet-based TOEFL total score of 100 with 25 in each of the written, reading, speaking and listening tests. |

---

### Don't meet the English language requirements?

If you have not yet satisfied any of the above English language requirements, the most effective pathway is to undertake an English course at the Monash University English Language Centre. For more information, visit monash.edu/ englishcentre.

### Healthcare fees

It is an Australian Government visa regulation for international students studying on a student visa to have compulsory Overseas Student Health Cover (OSHC) for the duration of their stay in Australia. Monash University requires all commencing international students to purchase health cover that will last for the duration of their visa. The electronic Confirmation of Enrolment (eCoE) for student visas will not be issued until:

- the OSHC payment has been received (along with payment of fee deposit), or
- proof has been submitted that visa length OSHC has been purchased with an approved Australian OSHC provider of the student’s choice, or
- approved documentation has been submitted for exemption from payment of OSHC.

For more information, visit [monash.edu.au/fees/resources/policy/overseasstudent-healthcover.html](http://monash.edu.au/fees/resources/policy/overseasstudent-healthcover.html)

### Discount for a brother or sister

Students who have one or more siblings enrolled in a Monash University full-fee award course at the same time may be entitled to a discount on their annual tuition fees.

For more information, visit [monash.edu/fees/discountswithelden.html](http://monash.edu/fees/discountswithelden.html)

---

Who should use this application form

All international students who wish to apply to study postgraduate coursework degrees on campus (including graduate diplomas, postgraduate diplomas and master’s by coursework degrees).

Complete coursework applications should be sent to:

International Recruitment Services  
871 Dandenong Road  
Caulfield East, Victoria 3145  
Australia.

Email mu.documents@monash.edu

Apply online at: [applicant.connect.monash.edu.au/connect/webconnect](http://applicant.connect.monash.edu.au/connect/webconnect)

---

Fees

To study at Monash University you must pay tuition fees to the university. Tuition fees vary for different courses.

**Fee details**

Indicative tuition fees are detailed in the Course Tables of this guide. However, please check Monash course finder and [monash.edu/study/international/courses/fees.html](http://monash.edu/study/international/courses/fees.html).

The tuition fees quoted are for 48 credit points unless otherwise stated in the Course Tables and only applicable to a course commencing in the year stated in the table. Tuition fees for course commencement in the coming years will be different. For students who have commenced, Monash University reserves the right to adjust annual tuition fees for future years of your course. However, Monash University undertakes that any adjustment factor for those continuing students will not exceed six per cent per annum. Any adjustment will be applied on the first day of January each year for teaching periods with a census date thereafter.
Complete this form if you are
- applying for an undergraduate or postgraduate course at Monash University’s Australian campuses ONLY
- as an international fee-paying student
- a non-refundable application fee of A$100 must be paid when you submit this form
- do not fill in this form if you are applying for a research degree. The correct form is available at monash.edu/migr/apply

PLEASE WRITE CLEARLY IN BLACK INK USING CAPITAL LETTERS IN ENGLISH

Section A: Your application
1. Are you a citizen of Australia or New Zealand or a permanent resident of Australia?  Yes  No  If YES, do not fill in this form. Instead refer to www.vtac.edu.au
2. Do you have a Monash student ID number?  Yes  No  If YES, please state
3. Are you a currently enrolled Monash student?  Yes  No
4. Are you currently in Australia?  Yes  No

Section B: Personal details

We will contact you by email, post or telephone. To avoid delays in your application, it is important you complete ALL of your details clearly including your email address. Your name and date of birth should match those in your passport. If you apply through an agent, ensure all of your details are also provided in addition to those of the agent.

Family name:  
Given names:  Male  Female
Permanent address in home country (required) must include postcode:

Telephone:  
Mobile:  
Fax:  
Email (Mandatory):

Address for correspondence (only if different from your permanent address in your home country – not including agents, address):

Telephone:  
Mobile:  
Fax:  
Email (Mandatory):

Monash Registered Agents

If you apply through an agent please ensure that your agent is registered with Monash University or you may experience delays in your application. For details of registered agents in your country please go to www.msr.monash.edu.au/monash_agents.

Agency name:  
Country:  
Agent staff name:  
Email (for correspondence):  
Telephone:
Section C: Citizenship and other information

Country of citizenship (as stated in passport):

Country of birth:

You must submit a translated, certified true copy of the personal details page of your passport or birth certificate.

Have you applied for OR do you hold any type of Australian visa: Yes No

Visa type: 

Expiry date (if applicable): / /

Have you been refused an entry visa to any country: Yes No If yes, please attach evidence.

Which Australian Immigration Office issued your visa?

Have you breached any visa conditions in any country: Yes No If yes, please explain:

Do you have any medical or health issue that may prevent you from obtaining your visa? Yes No

In answering this question go to www.immi.gov.au/allforms/health-requirements that lists medical and health conditions of concern to the Australian Government. Also note that health insurance in Australia will not extend to a pre-existing medical condition.

Are you physically and mentally able to undertake full time study? Yes No

Have you been issued a protection visa in any country to date? Yes No If yes, please attach evidence. Translated into English (if required) and certified.

Have you been convicted of any crime or offence in any country? Yes No If yes, please provide ALL relevant details. Translated into English (if required) and certified.

Section D: Course preferences

Choose up to three courses you would like to study and list them in order of preference. Check the entry requirements and prerequisite subjects for each to see if you qualify. If you meet the requirements of your first choice, you will not be assessed for your second and third choices. If you do not meet the entry requirements of any of your preferences your application will be automatically assessed for alternative or pathway courses within the relevant study discipline. Use monash.edu/coursefinder to assist in your selection.

Campus codes: Berwick BE, Caulfield CA, Clayton CL, Gippsland GP, Parkville PA, Peninsula PE

Section E: Students with a disability

Do you have a disability, impairment or long term-medical condition that may affect your studies? Yes No

If yes, Monash will require translated and certified medical documentation from a relevant treating professional outlining the impact of your condition on your ability to meet the academic demands in the university environment. Disclosure of disability is treated confidentially and will not be used to disadvantage you. The Disability Liaison Unit at Monash may contact you to discuss the services available. For more information, visit: monash.edu/equity-diversity/disability.

Section F: English language proficiency

You must provide proof of your English proficiency to the required standard of your chosen course. There are a number of ways to satisfy these requirements. For details, visit: www.policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html. Some of the main pathways are:

**English as the language of instruction**

You have studied in an institution where English is the language of instruction and assessment for the entire institution. Applicants are required to provide evidence from the institution on official letterhead and signed by the registrar (or other authorised person) of the educational institution to the satisfaction of the Academic Board.

**Academic IELTS/TOEFL/PEARSONS TEST OF ENGLISH (ACADEMIC)**

Attach original results or documents (request results to be sent to Monash University by testing centres). Please note that only results achieved within two years prior to the course commencement date will be considered. If you have not yet sat an ACADEMIC IELTS/TOEFL/PEARSONS TEST OF ENGLISH (ACADEMIC) exam please indicate when you will sit one below.

I will sit/have sat an English language proficiency test

I will apply for a Monash English Language Centre course in Section G.

If you narrowly missed the course English requirements, you may be eligible for Monash English Bridging packaged with a direct entry into your desired course. If so, Monash will indicate this in your letter of offer.
Section G: Application for additional English studies and university preparation

Test your English:
Find out your level of English with our free online test. The test helps you to estimate how many weeks of English you might need to undertake in order to meet the English language requirement for the course you wish to apply for. The free online English test is available at the following website: www.monashcollege.edu.au/online-test.
This test is to be used as a guide only and is not a replacement for IELTS/TOEFL tests or meeting the English language requirement for the course you have applied for.
This section is an application to the Monash University English Language Centre. Additional tuition fees apply for these courses. For details of fees, courses and start dates, visit: www.monashcollege.edu.au/englishlanguage.

Course name: [Website]

Section H: Academic qualifications

Check the academic/English entry requirements, prerequisites and additional requirements for the courses for which you are applying. Additional requirements include submission of a statement of purpose, curriculum vitae, work reference letters, folio, supplementary forms, additional faculty application forms, interviews and auditions.

For undergraduate entry requirements refer to the admissions tables in the Monash University Undergraduate Course Guide for international students or the Monash Course Finder.

For postgraduate entry requirements refer to the Monash Course Finder (monash.edu/coursefinder).

Include details of your previous academic qualifications in the relevant sections below. Please ensure commencement and completion dates are specified, or if you are yet to complete your studies, please include your intended completion date. You are also required to supply supporting translated and certified documents to verify your academic qualifications.

Are you transferring within the first six months of your principal course in Australia? [Yes No]
Your principal course is the main course of study to be undertaken where you have been issued a student visa for multiple courses of study.
The principal course would normally be the final course of study. If yes, please attach a release letter from your current provider.
If your final year of study was completed more than six months ago, please attach separately a detailed account of activities/work experience undertaken since then.

Section I: Required documentation

Certified copies of academic qualifications must be attached to this application, including academic transcripts, graduation certificates and grading systems. If the qualifications are in a language other than English, please also supply certified translated copies. Monash prefers NAATI qualified translators*. For more information on NAATI translators, please see: www.naatil.com.au.

If the course you have applied for requires work experience please provide a translated and certified copy of your curriculum vitae along with work reference letters issued by your previous employer on original company letterhead stating your job title, the basis of employment (full-time/part-time), a precise description of duties performed, duration of your employment (including dates), and the full name, title and signature of the writer.

Monash University only accepts faxed or emailed certified documents sent via Monash Registered Agents. If you are a direct applicant (and did not apply through a Monash Registered Agent), you will be required to send your original certified documents by mail. All documents submitted with your application remain the property of Monash University.

Certification of documents

All documents submitted for assessment must be properly certified on every page.

Who can certify documents?

Documents submitted within Australia: Solicitor, pharmacist, justice of the peace, member of the police force, doctor, school principal, bank manager, chartered accountant
Documents submitted outside Australia: Monash University registered agent, Monash staff member, solicitor, commissioner for declarations, government official, public notary, university staff (head of department, dean, or registrar)

Applicants have the option to ask their current or previous education institution to send copies of their academic transcripts, graduation certificate and grading systems direct to International Recruitment Services in a sealed envelope sent directly from the institution.

What does the certifier need to do? Approved certifier (from list above) must sight the applicant’s original academic transcripts, graduation certificates and grading systems etc and check that the copies are true and unchanged copies of the original documents.
The certifier must then certify every page of the documentation as follows:

1. Certifier must write a statement acknowledging or apply a stamp that shows they have sighted the original documents using words such as “certified true copy of the original” OR “original sighted”.
2. Certifier must sign the document.
3. Certifier must write their full name.
4. Certifier must apply the agent/organisation stamp.
5. If the certifier is not a Monash Registered Agent, the position title of the certifier must be indicated.
6. Certifier must date the document.

If you have a Chinese qualification, documents submitted for assessment must be:
- Certified by the Notary Public office. Notary certification must include a certificate stating that translations of all documents in English are authentic and in conformity with the original in Chinese. OR
- Your transcript/s, degree certificate and graduation certificate/s can be sent to Monash, International Recruitment Services in a sealed envelope directly from your university. OR
- Photocopies of original notarised documents can be submitted by a registered agent. Documents must be certified by the agent. Information regarding registered agents can be viewed at: www.msr.monash.edu/monash_agents.

Monash University reserves the right to refuse documentation on the grounds of incorrect certification and translation.

Section J: Credit transfer

Do you wish to apply for credit transfer/advanced standing from your previous studies? Yes No

If you have ticked yes, please provide the following:
1. Complete the Credit Transfer Application Form available at monash.edu/service-centre/assets/docs/forms/credit.pdf.
2. Submit detailed course syllabus/unit outlines/curriculum for the units your are seeking credit exemptions for.

Further information may be requested from you if your previous course/institution has not been previously assessed by Monash University for credit evaluation assessment.

Section K: Scholarship/sponsorship information

Have you applied for a scholarship/sponsorship from an organisation external to Monash University to support your studies? Yes No

Please state the name of the external scholarship/sponsorship:

What is the status of your external scholarship/sponsorship application? Approved Pending Not approved

If the external scholarship/sponsorship has been approved please provide a copy of the official letter with this application.

Section L: Application fee payment

You can pay the A$100 application fee by credit card, money order or bank draft payable to Monash University.

Bank drafts/money orders will need to be mailed or delivered in person to International Recruitment Services. Please ensure you include your full name and date of birth on the back of the bank draft/money order.

Credit card payments can be made at the following link: monash.edu.au/fees/payment/payment-options.html.

If you have made payment using the online credit card service (from the above link), please print a copy of the payment confirmation email and attach to this application form upon submission.

If your A$100 application fee has been waived by Monash recruitment staff please insert the valid fee waiver promotion code or obtain the recruitment staff signature here:

Staff signature: sign here

Waiver promotion code:

Section M: Privacy and student declaration

General privacy statement:

The information collected on this form is used to assess your application for entry to a Monash University course. It is also used to create an enrolment record on the student database, to prepare statistical analysis and to inform you about your course and other university courses/events. If you do not complete all the questions on this form, it may not be possible to process your application. Personal information may be collected from or disclosed to relevant bodies for the verification of your previous qualifications, and it may be disclosed to government agencies (e.g. DIAC), as required by legislation or pursuant to obligations under ESOS Act 2000 and the 2007 National Code of Practice or for your visa application. Information may be shared with the registered agent you appoint to assist with your application for entry or visa processing. You have the right to access personal information that Monash University holds about you, subject to legislation, by contacting the Monash University privacy officer at sss.privacy@monash.edu.

Privacy legislation only applies to students who study in Australia. Due to privacy regulations we are unable to disclose information to any other third parties such as friends, relatives and parents. All documents provided to Monash University become the property of the University and will not be returned to you.
Declaration

I warrant that the information on this form, or provided in support of my application, is correct, complete and up to date in every detail. I acknowledge that the provision of incorrect information or the withholding of relevant information relating to my application, including academic transcript/s, might invalidate my application and that the University may, refuse to assess my application, withdraw an offer of a place or cancel my enrolment in consequence. Should the University determine that I have submitted a false document, I consent to the University disclosing this information to other relevant tertiary institutions.

I consent to any educational institution at which I have previously been a student and/or my current or any past employer, providing Monash University with information which that institution or employer holds about me for the purpose of Monash verifying my grades and/or qualifications or experience.

I declare that I am a Genuine Temporary Entrant (GTE) and a Genuine Student and that I have read and understood the conditions in relation to these requirements as defined on the following website: www.immi.gov.au/students/_pdf/2011-genuine-temporary-entrant.pdf. I understand that if the university forms the opinion that I am not a Genuine Temporary Entrant it may refuse to assess my application, withdraw an offer of a place or cancel my confirmation of enrolment.

I am aware of the estimated total course fees at Monash University and living costs for my stay in Australia. I understand that the total course fees do not cover the cost of books, materials, field trips or any additional cost related to my course, unless otherwise specified.

I declare to have sufficient funds to support myself and my family unit members (if applicable) for the TOTAL period of my stay in Australia including proposed course fees for myself and any school-aged family members, Overseas Students Health Cover, living costs and travel costs, regardless of whether my dependents intend to accompany me in Australia.

I agree to abide by the statutes, regulations and policies of Monash University.

I have read and understood the above conditions and accept them in full.
